A TERRIBLE TIME!

A Port Hope Lady Undergoes a trying experience, from which she is at last freed by the use of Milburn's Heart and Nerve Pills.

Mr. F. J. ARMSTRONG, one of Port Hope's best known citizens, speaks as follows:—"My wife has had a terrible time with her heart for the last fifteen months.

"The pains were intense, and she had a smothering feeling together with shortness of breath, weakness and general debility. Medicine seemed to do her no good, and we had about given up trying when she started to take Milburn's Heart and Nerve Pills. They have toned her up wonderfully.

"She is stronger to-day than she has been for months, thanks to Milburn's Heart and Nerve Pills. I am sure there can be no better remedy from their remarkable effects in Mrs. Armstrong's case."

Laxative Pills cure Constipation, Sick Headache and Dyspepsia.

L'UTILITE D'UN BON HIVERNAGE

Il est absolument nécessaire de bien nourrir ses vaches pendant l'hiver pour obtenir de l'industrie laitière les résultats que l'on est en droit d'attendre d'elle dans ce pays.

En soignant et nourrissant bien les vaches pendant la saison froide qui correspond justement avec l'époque ordinaire de la gestation, vous entreprenez la force de l'animal et vous le disposez par cela même à procurer un beau produit. Vous le préparez en même temps à la lactation du printemps, qui, à la suite d'un bon hivernage est toujours plus prompte et plus abondante.

Enfin, comme nous l'avons déjà dit, vous obtenez par des soins, une production de lait l'hiver, ce qui vous fait obtenir un double gain sans double: vos dépenses, bien loin s'en faut.

Une vache mal soignée ne peut donner de beaux produits, le printemps arrive, sa production en lait ne pourra être bonne. Il ne suffit pas de donner une abondante nourriture a cette époque de l'année pour obtenir de suite un bon résultat, attendu qu'après les souffrances de l'hiver, les organes de la sécrétion sont affaiblis et qu'il leur faut du temps pour reprendre leur état normal.

C'est donc un bien mauvais calcul et une négligence condamnable, que de ne pas soigner très convenablement ses vaches en hiver puisque le résultat porte en même temps sur la valeur personnelle de l'animal et sur sa valeur productive, c'est à dire sur les qualités de la race et sur le rendement.

La voie est indiquée pour mieux faire elle est ouverte même par quelques cultivateurs intelligents, mais il faut y entrer résolument au risque d'y sombrer car il faut en présence de la concurrence, produire bien, beaucoup et a bon marché. Or, pour produire bien et beaucoup il faut soigner les animaux et pour produire a bon

marché, il faut obtenir d'eux un lait riche et abondant ce qui n'aura lieu qu'en améliorant leur race par les bons soins.

WEDDING BELLS

SS. Simon and Jade Church, Tignish, was the scene of a very pretty wedding on Tuesday, the 10th inst., when Miss Hannah Gavin, daughter of the late John Gavin Esq. was united in marriage to Mr. Charles Percy Crawford of the firm of M. J. H. Myrick and Co. Mr Crawford was ably assisted by Mr. James Farrell and the bridemaid was Miss Katie Gavin, sister of the bride. The altar was beautifully decorated

for the occasion, and the nuptial knot was tied by Rev. D. M. Macdonald. A large number of friends including a deputation from the C. M. B. A., of which the bridegroom is an active member, were present to witness the ceremony. After the nuptials, the happy couple drove to the residence of the bride's mother where the wedding breakfast was served. The numerous presents attested to the popularity of the contracting parties. Among the list we noticed a nice lounge and chair from fellow members of the C. M. B. A. L'IMPARTIAL joins in wishing Mr. and Mrs. Crawford many years of wedded bliss.

FOR all Americans there is an unflagging interest in the scenes and places of that historic little country that gave us our laws, our language, our conquering instinct and our faith. Divided many times by the bitterness of those contests that have made us what we are, she turns again to us and to her, as the Mother Land whose splendid story is also so largely ours, and in common with whom we claim the genius of Shakespeare, the laws of Alfred, and the dominant instinct of that Saxon lineage which wins and conquers and subdues by processes known to us two alone: the American and the British side by side. And as the centuries have passed England has grown nearer to us. She is no longer a far-off land of which we have only heard. The first voyage of those who made America, and made it English, occupied nine stormy and perilous weeks. It required two centuries to reduce that time one-half. Now our green shores and the white cliffs of Albion lie less than one week apart, and for thirty years we have talked with England under the same in a common language, about a stouter purpose to see, to know and to appreciate. England and America exchange visits every year in the person of thousands of individuals. The British finds with us brighter skies, and higher mountains, and larger rivers, and broader lakes, and taller trees, and more stupendous waterfalls than his island know. And for the old, the storied, the historic, we go to him. What he has in a sense our own. It is a hand-made and a time-mellowed beauty; for us the beauty of history and association, ours as well as his. We give him stupendous nature dotted with race written in piled stones and clustering ivy, representing the toil and hope of centuries; a toil and hope which we inherited, and whose memorials are also ours.

A MOTHER'S VALUABLE ASSISTANT

Home Occupations for Little Children

By KATHERINE BEEBE.

16mo, 144 pages; bound in linen, gilt top.

Hundreds of Hints on How to

Make the Little Folks Happy

Lists of Stories, Songs and Plays

Invaluable to Mothers and Nurses

In this book the Kindergarten offers to the Home suggestions for the occupation of little children with simple materials. The author does not presuppose a kindergarten training on the part of the mother, nor an ideal environment. She simply takes for granted the child's ceaseless activity and the mother's desire to furnish him with material and opportunity for development.

The occupations here considered are of three kinds. The first are those which require the active participation of an older person; the second, those for which only occasional direction or assistance is necessary; the third, those in which the child can engage by himself.

WHAT Miss Beebe's "First School Year" is to the primary teacher this little volume is intended to be to mothers. Miss Beebe believes that the ceaseless activity of children calls for employment, and "Home Occupations" is full of ways and means for mothers. Enthusiastically endorsed by the press and leading kindergarteners.

FROM THE NEW YORK WORLD. "Home Occupations will be welcomed by weary mothers, for it is very clever and full of hints and suggestions that can carry out."

FROM THE PHILADELPHIA PRESS. "Home Occupations should be read by all mothers, and all other people who have the care and training of infant minds."

"One of the remarkable features of the book is the extent to which home materials and home-made contrivances are brought into play. Cedar blocks, sand, clay, boxes, scissors, paste, paper, pencils, beads, garden tools, flowers, fruits, black boards, and nearly everything called into requisition by Miss Beebe's methods, are within easy reach of most of those into whose hands her book will fall."

FROM THE BOOKSELLER. "Home Occupations for Little Children, by Katherine Beebe, a well-known kindergarten, of Evanston, Ill., will be welcomed by many mothers, who will find it full of valuable suggestions to aid in rearing their little ones. Many cross and disagreeable children would be speedily restored to good nature if their mother or nurse knew enough to guide the immature mind to some pleasant occupation without too great interference with its own freedom."

FROM THE KINDERGARTEN MAGAZINE. "Any mother with the problem of restless little people to lead into the paths of happiness and usefulness, can find much assistance in Miss Beebe's little book, and would do well to avail herself of its wise and good suggestions."
