Child Welfare Needs Present Big Challenge

It is only possible to scratch the surface of the need for child welfare work in Prince Edward Island with present resources. This was revealed in a panel discussion which was a feature of the annual meeting of the Protestant Family Welfare Bureau Monday night.

Panelists agreed that far more should be done but that even with present limited activity the bureau is operating in the red, being some \$400 in debt now and having the prospect of going thousands behind before the fall campaign.

The city and governments do not reimburse the bureau for supplementary aid where the recipient receives pension or widow's assistance, so that in advising a mother to apply for provincial aid the bureau is in effect cutting off its own revenue.

Much good work has been done in supplementing the old age pension and widows allowance, where that is the only, or almost the only source of income.

UNWED MOTHERS

The plight of unmarried mothers has been made less disastrous through the work of the bureau. In only one case in the past year did such an expecting mother arrive in hospital without having had the benefit of previous consultation and guidance from the bureau.

The panel, under the chairmanship of Walter O. Baker, discussed, "Our Welfare Problem." Other members were: J. Lawson, Sister Mary Henry and Eugene MacDonald.

It was brought out that it costs \$1,400 a year to keep a juvenile in reform school, where the usual period is two years and that welfare activities recently have avoided the necessity for three young people being sent there.

Lack of funds and difficulty of getting the services of trained workers prevent the bureau and the Department from doing the kind of job that could be done.

Joey Pleads Case Of Newfoundland

By DON HOYT
HALIFAX (CP) — Premier Joseph Smallwood of Newfoundland made an eloquent appeal here Tuesday for public support in convincing Ottawa that the province should get financial help as long as it is needed.

"We're not asking for the standards of Ontario or the public services they have in Upper Canada," Mr. Smallwood told an overflow crowd of 350 persons at a district Rotary conference banquet.

"With luck and generous assistance from Ottawa, we would dare to hope that 25 years from today Newfoundland would have public services almost as good as those of Nova Scotia today."

Premier Smallwood, making his second speech outside Newfoundland since tangling with organized labor and the federal government on a number of issues earlier this year, called particularly on "our next door neighbors" in the Maritimes to help his province "in our time of need."

He was sure that Parliament would treat Newfoundland generously, honestly and decently because it was the wish of the Canadian people.

PLEDGE OF HELP
He said the Confederation agreement, with its term providing for a royal commission inquiry within eight years after union to determine the amount of money needed by Newfoundland "to continue" public services, constituted "the signed, solemn word of Canada."

Only briefly did he refer to Prime Minister Diefenbaker's announcement that Newfoundland would get an additional \$3,000,000 a year until 1962 when the situation will again be reviewed.

Dunstaffnage Youth Draws \$100 Fine On Speed Charge

An 18-year old Dunstaffnage youth convicted of a speeding charge drew a stiff fine of \$100 plus costs or 30 days in jail when he appeared before Magistrate K. M. Martin in City Police Court yesterday morning.

The youth also had his license cancelled for a period to be determined by the department.

Evidence disclosed the accused had been arrested following a wild chase Monday night through city streets and out St. Peter's Road. His car had been clocked at 55-60 m.p.h. on Longworth Avenue and before being overtaken at Marshfield he was moving nearly 90 m.p.h.

A 10-day jail term was drawn by a city man convicted on a charge of driving while intoxicated.

Another city man charged with a similar offence pleaded guilty to a lesser charge of driving while impaired and drew a fine of \$150 and costs or 30 days.

Pleading guilty to travelling the wrong way on a one-way street a Winsloe motorist was fined \$5 and costs or two days.

The case of a city man charged with theft was adjourned until this morning when the defence counsel R. R. Bell, Q.C., did not appear.

Convicted on a charge of unlawfully prowling, a city man received a 10-day jail term.

A fine of \$5 and costs or two days was levied a young city resident charged with transporting a load of uncovered refuse through city streets.

Four city residents appeared on a charge of being drunk and incapable: Two drew 10-day jail terms; another was fined \$10 and costs or five days and the other had his case adjourned until Tuesday, May 19. A resident of Eldon appearing on a similar charge was remanded until this morning.

The Malpeque man was charged following a break at F. Earle MacDonald's car dealership Sunday, May 3 in which a safe containing some \$5,000 in cash, cheques, bonds and other valuable papers was stolen. The safe has since been recovered, but \$400 in cash is still missing.

Watson's preliminary hearing has been set for Tuesday May 19, the day the spring sitting of the Supreme Court takes place in Summerside.

An application for bail was made by defence counsel J. Watson MacNaught, Q.C., and bail was set at \$5,000 in sureties.

Magistrate R. S. Hinton, Q.C., presided and Police Chief Peter White acted for the Crown.

Pearkes Denies Weapons' Story

OTTAWA (CP) — Defence Minister Pearkes said Monday in the Commons there is "no truth whatever" in reports that Canada from now on will rely completely on its allies for new weapons.

He was replying to Opposition Leader Pearson who asked for comment on a Canadian Press report that Canada will not develop any new weapons on its own.

Later, Harold Winch (C.C.F.—Vancouver East) referred to Washington reports that the Bomarc anti-aircraft missile has failed to hit a target at supersonic speeds.

He asked whether Canadian taxpayers are still to be committed to buy obsolete and useless equipment. Canada is scheduled to acquire the Bomarc in late 1961.

practice our highest ideals and morals in our everyday lives.

"To win the battle of life", Mr. Fulton continued, "we must look out ourselves and assess our own values and actions. We can convince the uncommitted peoples that a Christian way of life is best if we put our beliefs into action in the social, family, economic and political life of our country."

Mr. Fulton called on the members of the graduating class to help fill the need for well trained leadership in society. He scored those who excused themselves from their obligations because they are "too busy" and avoided politics because it is "too dirty".

"No attitude is less consistent with the responsibilities of a man with a Christian education," he said.

In his opening remarks, the Minister said that Western Canada owes a great debt to the East for the contributions it has made over the years in the opening and development of the West.

He cited the large number of priests and bishops from the Charlottetown Diocese who labored in Western Canada to bring the Catholic Church to that part of the country. He noted that St. Dunstan's this year graduates her 105th class, while his own alma mater, the University of British Columbia, is only 47 years old.

He paid tribute to the smaller universities of Canada, which, he said, represent the people who form the backbone of Canada. "There is a great challenge confronting the graduates of Catholic universities today," he said, "but the graduates of St. Dunstan's have a good foundation in the doctrine of man's obligations to God and to his fellow men."

Dynamic

come that attack" but they should be reminded of that two and a half million dollars they are getting each year, he observed.

Mr. Fulton spoke of the enactment of an electrification program shortly after the Conservative government took office in which the federal government will loan monies to the provinces for expanding electrification. He said he didn't know whether the province had taken advantage of this or not.

He said he believed this program

LOCAL BRIEFS

HERE FROM MANITOBA
Flying Officer Robert Pilcain of MacDonald, Manitoba, spent the week-end at his home in Charlottetown.

SMALL BLAZE
Firemen were called about 1.30 this morning for a fire in a small building located East of the Maritime Electric plant. Plant employees succeeded in dousing the blaze before the fire apparatus arrived.

TAKING COURSE
Supervisor of Schools Claude W. Wood of Southport is one of 70 educationists from Canada's 10 provinces currently in Toronto for a three-week course.

The educationists will study problems of educational leadership in local communities.

The course for school superintendents and inspectors is being offered by the Canadian Education Association in conjunction with the Ontario College of Education.

No Reports

(Continued from page 1)
"I assure you," says Mr. Green's letter, "that as soon as it is possible to release official information in this regard, action to this end will be taken."

Serious consideration of a causeway survey was given after it was proposed in the House of Commons by Neil A. Matheson, M.P., and strongly supported by the Island Legislature during the winter of 1958.

During that summer rock borings and field tests were made in the Tormentine area. When the present Federal Government came into power the sum of \$200,000 was voted for an extensive survey which was carried out during the winter and summer of 1958.

Information released by Federal authorities early this year indicated that the report would be tabled in the House around the end of March. However information received by Premier Matheson during his recent trip to Ottawa suggests that no report will be forthcoming until the middle of June.

He said the latest budget was designed as an anti-inflationary measure and "those who are prone to criticize tax increases which amounted to 245 million should remember that the total of tax increases is just over half of the local security payments since we took office."

Dr. Orville Phillips, M.P. for Prince County who introduced Mr. Fulton spoke on Premier W. Matheson's recent visit to Ottawa in connection with the present transportation problems between the Island and the Mainland.

TALKS AT HOME
Mr. Phillips said the premier "was more talkative at home than he was in Ottawa and stated (the Premier) was particularly critical of the department of transport officials who stated the ferry "Vacationland", would not be suitable.

The member for Prince said the problems arising from the proposed "Vacationland" ferry, if she were to be purchased for service were many (1) Modification of the boat (2) Docks have to be modified and he stated, this would cause much confusion as well as disruption to present service if docks widened during the summer months. He stated that the premier "can make more contradictory and confusing statements than anyone I know."

Mr. Phillips made this statement after mentioning that he had read where the premier was sending an engineer to check the vacationland's measurements etc. Mr. Phillips said that after the Causeway report has been received "you can expect immediate action on the car ferries". Mr. Fulton referred to Mr. Phillips as a member who has put the name of Prince County on the tongue and in the minds of the cabinet and in the commons. He said Mr. Phillips makes known the needs of the county forcibly and sensibly and in a most effective manner.

He concluded that the member is held in high regard by the cabinet and his colleagues.

Walter R. Shaw provincial leader of the Conservative party also addressed the gathering and was introduced by Bennett Carr, president of the Provincial Young Progressive Conservatives.

Other officers elected were 1st vice-pres. Ronel Kennedy, Kensington; 2nd vice, Mrs. H. Hubert MacNeill, Summerside; Secretary, Lyman Arsenault, Summerside; treasurer, Bert Thompson, Tryon.

Directors are Gordon Rogers, Summerside, Bruce Small, Summerside, Urban Galant, Eggmont Bay, Representative on the East Prince senior organization is Leslie Clark, Kensington.
