**WATCHES**

THE watch trade has been rather fluctuating of late, first the price went up, after a long period of low prices, now the prices have dropped again, whether because of war or greater variety of production we cannot say, but the fact remains that you can buy from us a reliable timekeeper cheaper than ever before, in fact that there is no need to buy shoddy goods at all.  
If you want a good and also the cheapest watch for the money, we recommend a good movement in a nickel case instead of a poor one in a fine looking colored case that will only wear a very short time.  
Soliciting a share of your patronage, we remain,  
Yours respectfully,

**MR. SHAM A FAINTED**

After the Least Exertion, so Weak Had Kidney Disease Left Him.

He Tried Many Remedies—All Failed to Help Him Till He Used Dodd's Kidney Pills—Then His Cure was Rapid and thorough.

MURRAY HARBOR SOUTH, P. E. I., June 25.—One of our most prominent business men is Mr. William Sharam, general merchant. He is known and respected far and wide throughout the Island. For three years he suffered excruciating agony from Kidney and Urinary Disease, but that is all past. To-day he is strong and healthy, and is loud in praise of Dodd's Kidney Pills, which cured him.  
Mr. Sharam tells the story thus:—"Three years ago I severely injured my back, by heavy lifting. Urinary and Kidney Disease set in. I grew worse and worse. I became almost helpless. Finally I became so weak that I fainted after the slightest exertion. The pain I suffered was horrible.  
"I was using medicine, first one kind then another, but none did me the slightest good. I got hardly any sleep, having to get up every few minutes, and my urine was almost black.  
I have sold dozens of Dodd's Kidney Pills, and I decided to try them myself. The first few doses gave me sound, unbroken sleep, and otherwise helped me. I knew I had found a cure. I took ten boxes and not a vestige of my old troubles remain. I am cured thoroughly, am strong and healthy in every way—can eat, sleep, and work as well as ever I could, and I owe it all to Dodd's Kidney Pills alone.  
Dodd's Kidney Pills are sold by all druggists, at fifty cents a box, six boxes \$2.50 or sent, on receipt of price, by The Dodd's Medicine Co., Limited, Toronto, Ont.

**THE AMERICAN STATURE.**

The Loss of an Inch in Height Might Bring Serious Consequences.

In a paper read by Major Henry S. Kilbourne, surgeon United States Army, before the Association of Military Surgeons of the United States, he advocated the theory that the physical power of a race or people—and consequently their capacity for work—is measured by their average stature. For every inch of height between five and six feet the extreme breathing capacity is increased eight cubic inches, the vital capacity being at its maximum at 35 years. A table of measurements of 190,621 native white Americans, accepted for the military service of the United States, shows that the number of men below 63 inches in height is but little greater than that of the class above 73 inches. The most numerous class is included between 67 and 69 inches, and this standard class would have a greater chest girth than the average. The mean height of 125 United States naval cadets above the age of 23 years was 67.80 inches. As these men are drawn from all parts and classes of the United States they represent very nearly the typical physical development of the American people of 25 years of age.  
Major Kilbourne concludes that the commingling strains of Celtic, Danish, Norwegian and German blood among our people have thus far worked no deterioration of physical quality. "Not so with the swarthy, low browed and stunted people now swarming to our shores. Absorbed into the body of the people, these multitudes must irretrievably evolve an inferiority of type. To realize the result of such a contingency let it be considered that the loss of an inch in stature might bring in its train the loss of national ascendancy. Let us take care, then, that the state shall suffer no injury."—Boston Transcript

The Popular Side Comb.  
The side comb still rides the top wave of popular favor notwithstanding its general adoption and consequent degeneracy into the cheapest of materials. The prevailing broad method of wearing the hair makes milady of fashion as dependent upon its good offices as her less favored sister of the shops, the only distinction between them being the difference in material. The latest combs are small, of amber or shell and decorated with finely cut steel. Sometimes the steel is but a narrow band of bead, while again it broadens out into arabesques, points or curves, or even clover leaves or flower-de-luces. Many of the combs are also set with gems, real imitation, while others for evening wear are studded with colored stones to harmonize with the costume worn.

CHARLOTTETOWN  
**Business College**  
Writing Academy

Let these clear light of practice illuminate the dark places of theory.  
A THOROUGHLY Progressive Practical Institution, in which young men and women are not only taught Book-keeping (including applications to commerce) both in single and double entry, but are trained how to do business, by actual business transactions. The students act as buyers, sellers, traders, bankers, book-keepers and accountants, in actual business operations, and the currency issued by the College Bank and the notes issued from the Emorium, are used in bona fide business transactions, just the same as in mercantile and banking houses. Book-keeping in itself may be learned at home, but a knowledge of how to transact business, cannot be thus acquired. That our course system of training is eminently practical write for testimonials from business men, and from students who are now holding lucrative and responsible positions.  
SUBJECTS:  
Book-keeping by single and double entry (theoretical and practical), Actual Business Practice, Business Penmanship, Business Correspondence, Commercial Arithmetic, Commercial Law, Railroad, Steamboat, Banking, (actual practice in the College Bank) Typewriting, Shorthand and Navigation.  
FACULTY:  
L. B. Miller, Principal, Teacher of Book-keeping, Arithmetic, Business Practice, Business Correspondence, Typewriting and Navigation.  
J. W. Conson, (Vice Principal), Teacher of Railroad, Steamboat, Banking, Accounting and Actual Business Practice.  
J. Harry Williams, Teacher of Business Penmanship.  
Wm. Moran (licensed), Teacher of Shorthand.  
George S. Inman Esq. (Law Firm McDonald & Inman) Lecturer on Commercial Law.  
For circulars and full information, write or apply to  
L. B. MILLER, Principal.  
All interested are cordially invited to call at the college and inspect our system in detail, \$200 work in general.

**Pains at Kew.**

While acres of fertile soil are covered with all the plants that can stand the English climate, there are others from more sunny climes that must have the protection of glass and heat. The palm-house, which accommodates the ferns and palms of priceless value, is 362 feet long, 100 feet broad and 66 feet high. It is the largest and most elegant structure of its kind, fitted up with all the modern inventions to make plant life strong and vigorous. A spiral staircase conducts the visitor to a high room or platform where all the exquisite greenery and graceful forests of plants can be viewed. The view is a glimpse of the senses, a midsummer night's dream.—George E. Walsh in Lippincott's.

**The Worm Was Up Late.**

A father was lecturing his son on the evil of staying out late at night and rising late in the morning.  
"You will never succeed," he said, "unless you mend your ways. Remember, the early bird catches the worm."  
"And what about the worm, father?" said the young man sneeringly. "Wasn't he rather foolish in getting up so early?"  
"My son," said the old man, "that worm hadn't been to bed at all. He was only getting home."  
The young man coughed.—Pittsburg Chronicle.
