MANY CURIOUS NOTES.

INTERESTING THINGS WHICH ARE WELL WORTH KNOWING.

Great Things of the World—Witches and Plants—Lord's Prayer in Thirty-Two Languages—And Other Matters of Considerable Interest.

The largest nugget of gold ever found was taken out of the Byer a Haltman mine at Hill Road, New South Wales, on May 10, 1872. It weighed an ounce or two over 600 pounds. It was slab-shaped, 4 feet 9 inches long and about 3 feet 2 inches in thickness. The flatter sold it for \$148,000.

The largest advertisement in the world is in the shape of a massive flower bed on the side of a hill near Aylesbury, Scotland. The beds are each gigantic letters, 40 feet in length, the whole forming the words "Glasgow News." The total length of the bed is 123 feet; area covered by the letters, 11,848 feet. The letters can be distinctly seen from a distance of four and one-half miles.

The organ in the old Monro Temple at Salt Lake City is one of the largest, if not the largest ever constructed in this country. It has 2,704 pipes, each 32 feet long and large enough to admit the body of a man of ordinary size. It is situated on either side which rise to a height of 42 feet.

The largest painting ever produced (not including panoramic pictures) is now in the view of the Doges at Venice. It is by the renowned Jacopo Robusti, and is 84 feet long and 34 feet wide. A panoramic view, called the "most beautiful" now in Westminster, London, covers 20,000 square feet of canvas.

The largest hammer and anvil in the world is now at the Krupp Gun Works, Essen, Germany. The hammer, which was made in 1866, weighs 150 tons, and the anvil and block weigh 120 tons.

In 1889, before being reduced to its present proportions, Custer County, Montana, was the largest county in the United States. Its area at that time was 26,000 square miles, being greater than the combined areas of New Hampshire, Massachusetts, Connecticut, Delaware and Rhode Island.

The three tallest trees in the world are believed to be a sequoia near Stockton, Cal., 325 feet high; a eucalyptus in Australia, estimated at 435 and 450 feet, respectively.

Witches and Plants. In all countries in which the witchcraft delusion now exists, it is in which it prevails in former times, we find folk lore stories connecting those mysterious bogies with the plants of those particular regions.

The Russians who have possession of the Mount of Olives, the spot where the Lord's Prayer was first uttered. The apex of the mountain is nearly 200 feet above the hill upon which Jerusalem is built, 2,700 feet above the level of the Mediterranean and about 3,000 feet above the sluggish waters of the Dead Sea.

A Bridge 630 Feet High. The highest bridge ever built in the world is the Rio River viaduct, on the Antofagasta Railway, in Bolivia, South America. The place where this highest railway structure has been erected is over the Melo rapids in the Upper Andes, and between the two sides of a canon, which is situated 10,000 feet above the level of the sea.

Sporting Spurts. Why do most Rugby foot-ball players wear long hair and how is it that barbers are disgusted when the Rugby season opens, while surgeons are delighted? The answer to the last question is obvious, but I have never heard the first satisfactorily reported to.

The first sportsman's exposition ever held in America will take place at Madison Square Garden next spring. This exposition will embrace every department of the sport and will illustrate not only present conditions but the history of sport. Canada will be well represented, no doubt.

The Strong Point about the cures by Hood's Sarsaparilla is that they are permanent. They start from the solid foundation—PURE BLOOD.

For the next fortnight, Gay & Sons will sell good large winter-keeping celery at 25c per doz. A plan to keep celery through the winter given away free to each purchaser. Call at our stall in the market, Charlottetown, or address orders (with cash) to J. J. Gay & Sons, P. O. W., Charlottetown, P. E. I.

"THE AUTOCRAT."

Oliver Wendell Holmes. Born 1809. Died Oct. 7, 1894.

"The Last Leaf." Can it be true? We have turned it, and oh, you, Friend of all!

Even gentle Ella's self Might be proud to share that shaft, Which led to her last strife.

With a many breadth of soul, With a fancy quaint and droll; With a virtue power of "hit," Finished scholar, poet, wit.

Sturdy patriot, and yet True world's citizen! Regret dims our eyes As we turn to his unblemished life! Yet a glory 'midst our grief Will arise.

Years your spirit could not tame, And the will still be your fame, English boys! In your songs, all a rough and ease, And the "Greece" you write to please "Gray-haired boys."

And of such were you not one? Age chilled not your fire of fun, How lively!

Makes a boy of a gray beard, Though his eyes be, "by the card," Eighty-five!—London Panthe.

As Well as Ever

After Taking Hood's Sarsaparilla

Cured of a Serious Disease. "I was suffering from what is known as Bright's disease for five years, and for days at a time I have been unable to straighten myself up. I was in bed for three weeks; during that time I had leeches applied and derived no benefit. Seeing Hood's Sarsaparilla advertised in the papers I decided to try a bottle. I found relief before I had finished taking half of a bottle. I got so much help from taking the first bottle that I decided to try another, and since taking the second bottle I feel as well as ever I did my life." Geo. Merrett, Toronto, Ont.
