## Loans To Cover Fishermen's Losses Urged In Legislature

A Loan Board scheme for the benefit of fishermen who have lost their supplies during storms was urged in the legislature last night by Mr. Hubert Gaudet, Conservative member for First Prince during his speech on the draft address.

Mr. Gaudet pointed out that between five and six hundred North Shore lobster fishermen had lost their supplies last year and that they would be very hard pressed to obtain money to replace the equipment.

"I don't see why the Government can't set up a Loan Board to help these fishermen like they do in Nova Scotia," he stated. "They have a scheme in Nova Scotia to cover such losses and through it 50% of the loan is obtained from the Dominion Government."

Mr. Gaudet was speaking about the development of in-shore fisheries when he made his point about the proposed Loan Board. He asked for Government help this year.

He noted that the Government is developing the off-shore fisheries but doing nothing for the in-shore men. He thought that the dragger were a good thing

Mr. Hubert Gaudet

but he wondered what would happen to the market if half of the fishermen in P. E. I. and half the fishermen in N. B. owned draggers.

"We cannot use draggers on the west end of the Island because we have no harbours big enough," he stated. He added that Tignish could handle the small draggers but that these draggers had not been given a fair trial by the Government.

He also deplored the lack of fishing facilities around the fishing ports in Prince County. "We have to put our fish into salt and it looks very much as though there will be no demand for salt fish," he stated.

He briefly condemned the bait which the Government trucked from the cold storage plant in Charlottetown to Tignish last year by stating that it was no good when put on the hook. "The reason," he said, "was that too much herring was loaded on each truck and that it was very soft when frozen."

#### To Fish Prices

Mr. Gaudet also referred to fish prices during the Thirties. "During the five years the Conservatives were in power the average price for fish was above three cents a pound for four years and below it for one. During the next five years under the Liberal Government the average price was below

### Dairy Superintendent

(Continued from Page 3)

ures for 1952 compared with those of 1951:	1952	1951
Lbs. of butter made	4,849,847	4,002,292
Lbs. of cheese made	541,766	377,367
Lbs. of milk pasteurized	10,352,311	1,520,093
Quarts of ice cream made	845,640	795,664
No. of farmers shipping milk and cream	7,708	7,923
Total gross value	\$3,986,790.12	\$4,288,725.23
Decrease in value	\$ 301,935.11	
Average price for butter	61.97¢	63.93¢
Average price for cheese	31.40¢	38.03¢

#### Rindless Cheese

"In May and June of 1951," Mr. MacDonald stated, "we conducted an experiment in making square rindless cheese. In January of 1952, this cheese was cut and packaged for the retail trade. Due to the attractively designed wrapper, its good flavor and its nicely ripened condition, it sold rapidly and the 840 pound experimental amount was soon exhausted."

"This past summer 8,840 pounds of this cheese were made. It is now being cut and sold to the retail merchants within the City of Charlottetown. The demand for it is exceptionally good, and we hope

three cents for four years and above it for one year. When speakers refer to the Thirties they should mention the last part as well as the first," he stated.

He congratulated the Minister of Public Works on the road work which had been done in his District and pointed out that there was still a lot of work to be done this year.

With regard to electricity he stated that the First District Prince had been "in the dark" for quite a while. "In the District there are 330 miles of road and about 20 miles of electric wiring," he stated.

Mr. Gaudet said the matter of electricity should be attended to at once and that he would support the Premier in his proposal along this line.

With regard to highway safety he suggested that pedestrians be educated about walking on the proper side of the road and in the matter of education he stated that people would appreciate the move of introducing a course of studies for Grade XI.

#### New Dairy Act

"The decision of the Supreme Court of Canada that the manufacture and sale of margarine was under provincial jurisdiction had far reaching effects. It followed that the manufacture and sale of dairy products as well came under provincial laws. The Dairy Industry Act of Canada had no longer authority within the provinces, and a new Canada Dairy Products Act and Regulations were proclaimed.

This Act covers interprovincial and export trade only, and a new Dairy Products Act and Regulations became necessary for the Province.

"This Act is now prepared for the Legislature. Part One deals with the manufacture of Dairy Products, and Part Two with grades and standards. The regulations dealing with grades and standards are in complete conformity with those under the Canada Dairy Products Act, and we therefore anticipate no difficulty in enforcing the Federal Government grades within the Province.

Up to the present time there has been no Provincial Government Act controlling the operation of dairy plants, or the manufacture of dairy products in this Province. The new Act will provide such control which will be embodied in the First Part. When this new Act and Regulations are proclaimed it should be a much more effective method of dealing with difficulties in dairying than by means of a pie act.

#### New Work

"It may be quite reasonable to say that more new work has been done for the dairy business in 1952 than for many previous years. The biggest project being the milk powdering plant constructed at Central Creameries, Charlottetown. When completed this will be one of the finest dairy plants of its kind in Canada. The building is very modern and equipped with the latest and best. The entire structure shows forth a great faith in the dairy industry, and a picture of security to the Company's many patrons.

"Another development worthy of consideration is the amalgamation of several dairy companies in the area of Summerside. For the purpose of drying skim milk and making a number of dairy products, the creamery companies of Tryon, Dunk River and Kensington, and the cheese factory companies of Abram's Village, Grand River and Tyne Valley have purchased the building of the Pioneer Publishing

Company in the Town of Summerside. This building will need to be enlarged and made suitable for operation. We understand that it is the intention of the new company, Amalgamated Dairies Limited, to have this work completed by June 1, when they expect to begin operations."

### Unclaimed Money

Included in the list of unclaimed deposits registered in banks in Prince Edward Island for the years 1942 to 1947 as reported to Parliament recently are the following:

- Victoria, P. E. I.: Jack Gillis, Borden, \$2.46; Mrs. Ella MacVittie, in trust (deceased), Bradburn, \$18.83.
- O'Leary, P. E. I.: Estate of Peter E. MacPherson, Haliburton, Lot 7, \$15.56; Mary C. Dalton (deceased), Glengarry, Lot 7, \$61.90; Mrs. Margaret Elliott, in trust, Albany, \$10.68.
- Ontario: Frank Stuart Carbonell, 131 Upper Prince Street, Charlottetown, \$2.50.—S.

### BURGESS BEDTIME

(Continued from Page 10)

distant drummer, the long roll like thunder. Instantly, Thunderer was back on the end of the log with his head stretched up while he listened. No sooner had the long roll ended than Thunderer began to drum. He was drumming a reply. The lone Crow was sure of that. "Somewhere, there seemed a new note in that sound that went rolling out. The lone Crow couldn't be sure of this, but it seemed to him that Thunderer was daring that other drummer to fight, though why he should, the black onlooker could see no reason.

A slight rustle of dry leaves caught the quick ears of the lone Crow. He leaned over and peered down. At first he saw no one. Then he caught the glimmer of bright eyes down among the leaves. He looked closely, and presently made out the form of Mrs. Grouse squatting close to the ground, and watching Thunderer. When Thunderer stopped drumming, she drew back out of his sight. She could still see him, but he couldn't see her.

### More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. OVERTEETH, an improved powder sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug store.
