This Federal Government ought to have the power of hearing appeals from all our judicial tribunals, in place of the expensive and impracticable appeal, in some cases, to the Imperial Government, and thus relieve the Colonists from banishment from homes and families, under the *absolute* orders of Courts, if unjustly given. Numerous questions involving the interests of all the Colonies ought to be settled by the Federal Legislature and Government, such as Lights and Light Houses, Postal arrangements between the different Provinces, Crown Lands, Currency, Steam Communication and Railroads. And although we are not likely to want Railroads for some time yet, it will be necessary for the Provinces of Nova Scotia, New Brunswick, and Canada to have unity of action on those important means of communication. Besides, in case of Union, Charlottetown, no doubt, will become the place for the meeting of the United Legislature; for no part of North America enjoys such a healthy and invigorating climate as that of P. E. Island in the Summer months; and our Canadian friends will be glad, I am sure, to spend a month or two in public business here, if only to escape the fever and ague of their own Province.

I am, Sir, yours truly,
GEORGE COLES.

## THE UNION CONFERENCE.

WE understand that the Delegates on behalf of New Brunswick at the approaching Convention, will arrive here on Wednesday night next. The Canadian Delegates will most probably be with them. The Nova Scotian Delegates will, we presume, be here to-morrow. The *Islander* intimates that the Convention will be held in the Colonial Building, (in the Chamber used by the House of Assembly, we suppose,); but whether the Conference will be conducted with open or closed doors, we are at a loss to say. We have made enquiries on this subject, both of the Delegates here and of parties in New Brunswick interested in the matter; but no one seems to know whether the Conference will be a public or private one. We presume, however, that this matter will be subject to the decision of the majority of the Delegates. They will make a very great mistake, to say the least harsh word, if they resolve to carry on their deliberations with closed doors, and thus prevent the public from understanding all the bearings of a great question on which it is absolutely necessary that public opinion should be brought to bear, and which, in fact, cannot be settled without an appeal to the constituencies in the several Provinces. The representatives of the Press in New Brunswick and Nova Scotia, decline, we understand, to send representatives here, because they labour under the impression that the Conference is to be a private one. If this should be the case, we have no hesitation in saying that the Conference will be a contemptible piece of humbug, and end in nothing but disgrace to those engaged in it.

THE following are the names of the gentlemen who will represent the several British American Provinces at the Charlottetown Convention, to be held this week:—*For Canada*—Honorables Messrs. Brown, J. A. McDonald, Cartier and Galt. *New Brunswick*—Honorables Messrs. S. L. Tilley, Johnston, Steves, E. B. Chandler and J. H. Gray. *Nova Scotia*—Honorables Messrs. C. Tupper, W. A. Henry, R. B. Dickey, Adams G. Archibald and John Locke. *Prince Edward Island*—Honorables J. H. Gray, E. Palmer, W. H. Pope, G. Coles, and Andrew A. McDonald. Newfoundland will not be represented. We are not aware whether our Government has made any preparations for their reception, as they certainly should do; or whether the Delegates are to be lodged in our "first class Hotels," or billeted on private families. At all events, we hope their bodily comforts will be well cared for, and that no parsimonious spirit will induce the Government to withhold any mark of respect that can be offered to such distinguished visitors as will be here at the Convention.

THE WESTMINSTER REVIEW, for July, has just come to hand from the publishing house of Leonard Scott & Co., New York. A work so well known, and conducted with such eminent ability, requires no recommendation. The present No. contains articles under the following headings:—Public Schools in England; Novels with a Purpose; Liberal French Protestantism; Mr. Lewes' Aristotle; The Tenure of Land; Dr. Newman and Mr. Kingsley; Edmond About on Progress; Thackeray; Contemporary Literature.

THE PHRENOLOGICAL JOURNAL, for September, has come to hand. No journal is more welcome to our editorial table, nor is there one we read with greater pleasure and advantage. The present No. is crowded with the most valuable reading matter, and embellished by numerous excellent engravings.

STUBBS HOTEL.—We have much pleasure in directing the attention of travellers to the advertisement of Stubbs Hotel, St. John, N. B., which appears in this day's issue. This Hotel has the reputation of being the best in St. John. We certainly found it one of the best we ever sojourned at; it affords every comfort and convenience, and is deficient in nothing that is required to please the most luxurious tastes. The proprietor is a native of this Island, and is most courteous and attentive to his guests.

THE CIRCUS will be opened here to-morrow. It is 21 years since the first and last Circus was here. We remember that it was crowded by all classes, the rich and the poor, the godly and the ungodly: and we don't think the people of Charlottetown are better or wiser now than they were then, although they are about three times more numerous. We think there is far less harm in going to a Circus than there would be in attending some of our midnight Pic Nics, or certain peculiar religious exercises ardently patronised by those who condemn the Circus and Theatre.

WE copy the following paragraph from the St. John *Telegraph* of Saturday morning last:—

THE TALLAHASSEE AGAIN.

At a late hour last night we received the following important special telegram from an attentive friend at Moncton:

"The steamer 'Princess of Wales,' which arrived at Shediac this p. m. from the Island, reports that the 'Tallahassee' burnt 22 American fishing vessels off North Cape, P. E. I., yesterday."

On coming over in the "Princess of Wales" on Saturday evening from Shediac, we enquired of Capt. Evans if he heard of the report above referred to. He said he did not—that it did not emanate, with his knowledge, from the "Princess of Wales," and that he did not believe there was the least foundation for it. We are of the same opinion. Brother Livingstone, the first time you see that "attentive friend at Moncton," remember he deserves a kicking for thus "selling" you.

A REPORTING MACHINE.—A novel and curious instrument has been invented by Mr. Bryois. It is for the purpose of taking short hand notes with more than usual rapidity. It consists of a series of levers worked by keys like a piano, and acting on a set of types which impress themselves on a slip of paper that is gradually unrolled. Working only with a single finger, an ordinary reporter can work as quickly as the best short-hand reporter, but by using the two hands the rapidity is increased immensely.—*Exchange.*

A physician has discovered that nightmare, in nine cases out of ten, is produced by owing a bill for a newspaper, and that the best cure is to pay up.

## SERIOUS RIOTS AT BELFAST, IRELAND.

BELFAST, August 12.—The rioting which has been going on every night culminated to an alarming pitch this morning. Several hand-to-hand fights occurred between two and five o'clock; stones, brickbats, bludgeons, and even guns were used, and before the police, who had gone home for the night, could arrive upon them, a number of houses were wrecked.

Several women going to their work were seriously injured. One girl was knocked down and severely maimed by a blow from a policeman's gun, and a man was shot through the leg and severely wounded. At five o'clock this morning murder seemed to be the point aimed at by the contending ruffians. One man was barbarously set upon and in a few minutes left for dead, but a gentleman coming up had him conveyed to a medical man's establishment.

The nunnery on the Dublin-road had been wrecked. The St. Patrick's Burial Society in Durham-street has had every window smashed in, and many private houses have been more or less injured by the mobs. The district is still in a most disturbed state. The workers in the neighboring factories are out on the streets, and cannot be prevailed on to go to work. There is every prospect of fearful rioting this morning, and the authorities are holding a consultation as to what is best to be done to preserve the peace of the town. We understand it is intended to call out the military.

THE LATEST.

BELFAST, *Saturday Morning.*—The streets were very riotous last night. The meeting house of Dr. Cooke has been wrecked, also the Wesleyan Chapel in Donegal-square, the Rev. Mr. Shaw's Church in Alfred-street, and the Right Rev. the Diocesan's residence. Eight or ten fellows have been arrested. The streets are very disorderly.

## MURDER OF A ST. JOHN PILOT IN BOSTON.

BOSTON, Aug. 26.

About quarter past one o'clock this afternoon while two sailors were in the bar room of the Globe Hotel, corner of Commercial and Hanover Streets, a third party named John Longworth entered the room and exclaiming, "I can lick any man in the house," threw one of his arms around the neck of George Thring. Thring immediately pushed the intruder aside, saying "keep away from me," at the same moment Longworth drew his sheath knife and stabbed Thring in his left breast, inflicting a wound which caused almost instant death. Longworth was arrested and committed to the Lock-up to await his examination.

Thring was a St. John Pilot, about 36 years of age, and leaves a widow but no children.

Coroner Moore took charge of the body and will hold an inquest.

Longworth is a sailor and about the same age as his victim.

The parties are said to be strangers, and no difficulty is known to have previously occurred between them.

The correspondent of the Toronto *Globe* gives a glowing description of the view from the Carleton Heights, opposite the City of St. John, N. B., for the correctness of which we are able to vouch, from having made more than one visit to the same interesting spot ourselves:—"The whole harbor, which here appeared to form a crescent, with ships and wharves, and the city on its banks, were here in full sight. We stood as it were on the bank of a basin formed by the cliffs, and looked down upon the interior. The blue waters of the St. John and its harbor appeared studded with white sails and swiftly moving steamers. Islands clothed in green of varied shades, their rocky sides reflecting back a silvery light as the sun's rays fell upon them, gave variety to a scene as varied as America can produce. The city—its defects not visible in the distance—might have passed for a fairy work, so beautiful did it look in its gorgeous setting, while above all arose the dark pine trees and frowning granite of the surrounding hills. Long did the Canadians gaze upon the scene, and it was not until they were repeatedly reminded that time was fast progressing, and that he might perchance carry away with him the dinner hour, to the great discomfort of hungry stomachs, that they consented to move. The M. P. P's at this appeal trotted off first, and hurriedly, and the remainder followed in their wake. But long will all remember the beautiful landscape which they saw. It is not to be equalled in Canada by anything except the view obtained from the platform at Quebec. To that it is in some respects superior."

DIABOLICAL ASSAULT ON A NEWSPAPER PROPRIETOR.—The Toronto *Globe* of the 19th inst., has the following:—We find in the Kingston *British American* an account of an alleged assault upon its proprietor, Mr. T. W Carman, which very much astonishes us. The party charged with the offence is Mr. William Ferguson, Jr., son of the member for Frontenac. This young man was a few weeks since guilty of an aggravated assault upon Mr. Beach, the editor of the same journal—a gentleman who was at the time in very feeble health. According to the *American* he had been threatening in the most violent terms that he would injure various persons connected with that paper. Mr. Carman accompanied the excursion to the Lower Provinces as the representative of his journal, while Ferguson went on the same journey, purporting to be the representative of the *British Whig*.

On the voyage from Portland to St. John, Mr. Carman was one of those who from the crowd were obliged to sleep in the saloon. During the night he was disturbed by a movement near him, and on awaking discovered a person, whom he says he recognized as Ferguson, approaching him stealthily. Mr. Carman did not betray his wakefulness, and the result is given by the *American* as follows:

"*Ferguson crept up and bending over him,* carefully sprinkled some substance over his face and eyes, and then quickly retired behind the engine enclosure in the saloon, where he was observed to watch the effects of the deed. Mr. Carman was as careful to remove the substance from his face as it had been deposited, and thus escaped the dire results intended. The article, on examination, was found to be a powerful drug, the effects of which would have been to have totally destroyed the sight had a particle entered the eyes. The occurrence was witnessed by a number of gentlemen who were quartered in the vicinity. Ferguson was positively identified by two other gentlemen as the perpetrator."

Messrs. Schefield and Drury's Circular says that the immediate effect of the depredations of the *Tallhassee* has been—"To increase the war risks against American bottoms and give neutral flags a still greater advantage. Stocks had ruled dull and heavy for the most part, and prices are rather lower. Money is still plenty, but there is rather less doing. Government securities have advanced materially."

Owing to the increased prices of paper, ink, labor, and all that enters into the cost of publishing a newspaper, the proprietors of the Boston daily papers have raised their price to five cents per copy.

The "Franconia" arrived here on her second trip to this Island on Friday morning. She had several passengers and a considerable amount of freight. She left here again for Halifax and Boston at 12 o'clock to-day.

PROVINCIAL SECRETARY'S OFFICE, 19th August, 1864.—His Excellency the Lieutenant Governor, by the advice of the Executive Council, has been pleased to make the following appointments:—To be Delegates to confer with Delegates appointed by the Lieut. Governors of New Brunswick and Prince Edward Island, for the purpose of considering the subject of the Union of the three Provinces, under one Government and Legislature:—The Hon. Charles Tupper, Hon. W. A. Henry, Hon. R. B. Dickey, Adams G. Archibald, M P. P., and John Locke, M. P. P.—*Halifax Gazette.*

A most melancholy and heart-rending scene took place at Kildare, on the 20th inst., which resulted in the instant death of Peter Gillis, a promising young man aged 18 years, and eldest son of Mr. Neill Gillis, under the following circumstances. As deceased was in the act of going down an old well, by means of a rope, and when within about 12 feet of the bottom, his feet came in contact with some loose stones which instantly gave way, and filling up the space at once so as to jam him up. Instantly the embankment overhead also gave way, for the distance of eight or nine feet, thus burying him beneath its ruins. Persons assembled at once, and tried all in their power to extricate him; but not until nearly four hours were spent in removing the large stones and rubbish did they succeed in doing so. Strange to say, he was not the least disfigured, and, although life was extinct, he was still holding on by the rope.—*Com. to Vin.*

WILD BEASTS IN INDIA.—Every body is aware that wild beasts abound in the jungles of the Punjab; but we suspect very few people entertain the remotest idea of the frightful numbers of human creatures, especially children, that are destroyed year after year by these animals. In two recent years no less than 999 children were destroyed, principally by wolves. The government pays considerable sums for the destruction of wild beasts. In 1860 there were killed 35 tigers, 193 leopards, 350 bears, and 2080 wolves; total, 2628.

## THE CIVIL WAR IN THE STATES.

NEWS BY TELEGRAPH.

NEW YORK, Aug. 23, 1864.

The reported Federal loss in holding the Weldon Railroad is 3000, of whom 1500 were taken prisoners..... At latest advices, Gen. Warren had been reinforced, and held possession of the Weldon railroad, as above..... Mobile dates of 13th instant state that the Federal land forces were entrenching within five hundred yards of Fort Morgan. All non-combatants had been required to leave the city of Mobile..... The blockade runner Prince Albert had been destroyed by the Federal guns, in attempting to enter Charleston..... Richmond papers state that several iron-clad privateers, in North Carolina waters, are about ready to put to sea..... There is nothing later from Sheridan..... Rumor says that Early has been reinforced by 20,000 men drawn from Lee's army..... Cotton advanced yesterday to 185..... Gold opened to-day at 257.

NEW YORK, Aug. 24.

Some particulars have been received of the desperate fight on Sunday last for the Weldon railroad..... The Confederates made three assaults on the Federal lines, and were each time repulsed, losing a large number in killed and wounded, with 400 prisoners, including 40 officers..... The Confederate General Hogood was killed, and his body left on the field. Generals Heth and Lee, the latter son of Gen. R. E. Lee, also reported killed, and Gen A. P. Hill mortally wounded..... The 2nd and 9th corps have reinforced the 5th corps, and it is believed it will require Lee's whole army to retake the road..... Nothing later this morning from the Shenandoah Valley..... Gold 257.

NEW YORK, Aug. 25.

Early on Monday morning the rebels disappeared from the front of the 5th and 9th corps, on the Weldon Road, having apparently found the Federal position too strong to carry. Forty miles of railroad has been destroyed, and the Federal advances fight ten miles off Petersburg..... The reported wounding of Gens. A. P. Hill and Fitz Hugh Lee, in Sunday's battle is incorrect..... Advices from Sherman states that his army are advancing parapets, and making regular siege of Atlanta..... Large number of deserters are daily coming into Federal lines, they say Petersburg has about six days' provisions. It is believed that Lee will make another attempt to regain the Weldon Road, which may bring on a general battle..... Gold 254.

CH'TOWN, Aug. 26, 1864.

Mobile dates of the 18th received. Confederates had sunk steamer *Nashville* in Mobile Channel, making it impossible for Federal fleet to approach the City..... Fort Morgan was being continually shelled..... Heavy skirmishing daily occurring near Harper's Ferry between Sheridan and Early..... Muller, charged with murder in a railway car near London, was arrested on board ship *Victoria* in New York yesterday—watch and hat of murdered man found in his trunk..... Washington despatch says there is no truth in report circulated in New York that President proposes to send peace commissioners to rebels..... Rumors that an armistice has been or is to be proposed are without foundation..... Gold 257¾

AUGUST 27, 9 P. M.

On Sunday Confederates made a desperate assault on a division of 2d Corps at Rum Station Weldon Railroad. Federals fell back, losing three batteries. Reinforcements arriving, they regained lost ground, and it is said recaptured the guns..... A body of Confederates attempted to cross into Maryland yesterday were forced back..... A skirmish occurred near Leetown, Virginia, on Thursday. Federals finding Early in force, retired with loss of 150..... It is considered that McClellan will receive nomination for President by Democratic Convention on Monday..... Reported Wheeler is about to invade Kentucky..... Gold 248.

THE CRICKET MATCH.—The return match between the Picton and Charlottetown Clubs was played on Friday last, the 25th instant, and resulted in favor of the latter. At the close of the game, the score stood thus:—Picton, 1st innings, 25, 2d Innings, 20; Charlottetown, 1st Innings, 27, 2d Innings, 22, with eight wickets to go down. Many persons have expressed their surprise at the smallness of this score; but when it is borne in mind that the game lasted five hours, the practice may, we think, be considered rather sharp. The bowling and scouting were remarkably good on both sides: the batting generally was below the average. Throughout the play there was but one wide ball. Among the Pictonians, the highest score was made by T. Whelan. Of the Islanders, Louis H. Davies made the highest score in the first innings; the Hon. Daniel Davies (not out) was ahead in the second. The eleven of the Picton Club who played were:—Alex McPherson, George Elliot, William Glennie, Thomas Doran, Smith Dawson, Charles Rhodes, Samuel Rigby, Thomas Whelan, William McDonald, Robert McDonald, and Joseph Gordon. The Charlottetown eleven were:—Hon D. Davies, John Jenkins, R. R. Hodgson, F. Longworth, jun., Louis H. Davies, Artemas Sims, Albert Hensley, George D. Atkinson, A. H. Yates, Benjamin DesBrisay, and John Brecken. Umpires—Primrose Chandler and William Pethick. Scorers—Smith Copland and Dr. F. Beer.

The Picton Cricketers are plucky fellows, and bore their defeat well. Now, that the match is over, we are almost sorry that the fortunes of the day did not go in their favor, inasmuch as it would tend to foster a spirit of generous emulation in the two Clubs, and lead, through cheap excursion trips to more intimate social intercourse between the towns-people of Picton and the people of this Island. A large crowd of spectators, among whom we observed His Excellency the Lieut. Governor, Mrs. Dundas, His Worship the Mayor, and many of the elite of our city, witnessed the match. The Volunteer Band were on the ground during the latter part of the day. In the evening, the Charlottetown Club entertained their Picton brethren to a sumptuous supper at the Pavilion Hotel. Covers were laid for forty guests. Dr. J.T. Jenkins, President of the Club, presided.—The Steam Navigation Company having advertised a cheap excursion trip for the occasion, we were glad to see that so large a number—240 we have heard—of our Nova Scotia neighbors embraced the opportunity to pay us a visit.—We must not forget to mention that a challenge was given by eleven of the Picton juveniles, and accepted by eleven of the Charlottetown lads, and after a hard contest, which lasted until evening, Charlottetown boys were victors, having ten runs in advance of their opponents.—*Prot.*

SMALL-POX.—In our last issue we mentioned the appearance, in Long Creek, of a disease resembling the small-pox. We have since ascertained that that loathsome disease is actually making ravages in the settlement, and at latest accounts had attacked three families. From what we can learn the infection appears to have been communicated in the following manner: In the early part of the summer the schooner *Terah* lay in quarantine with a case of small-pox on board. Previous to its being known that it was such, a Mr. —— from Long Creek visited the Schooner, and it is supposed then received the infection. Some time ago he became very sick, but recovered. His family were then all prostrated by the same sickness, which the physician pronounced to be small-pox.

What makes the case more serious is the fact that many of the neighbors had visited the house, rendering the sick persons every aid in their power, and their consternation on learning that they had been in contact with such a loathsome disease may be imagined. As yet no person has fallen a victim to it, and we understand prompt measures are being taken to arrest its progress.—*R. Weekly.*

FARM STOCK.—We understand that letters were received by last mail from Messrs Pope & Duncan intimating that the Stock ordered by the Government of this Island has been purchased, and was at Liverpool ready for shipment. The horses were purchased in Scotland by Mr. Duncan, and are represented as being very superior. They were approved by one of the best judges of horses in Scotland, to whom Mr. Duncan was introduced by Professor Dick. Four horses were purchased—one three years old, and three two years old. They all reached Liverpool in safety. In what ship the stock were to be sent out, at the departure of the last mail, had not been determined upon. The orders given Messrs. Pope and Duncan were to ship all in the hold. To find a ship to take them appeared to be no easy matter.—*Isl.*

COLLISION.—A collision took place on Monday night last, off Pont Prim, Straits of Northumberland, between the steamer *Commerce* which left this port at 7 o'clock on the evening of that day for Halifax and Boston, and the mail steamer *Heather Belle*, bound for this port from Pictou. The latter steamer sustained considerable damage from the collision, but very fortunately nothing serious occurred, although, as might naturally be expected, considerable excitement prevailed on board at the time of the accident. There is, we believe, some doubts as to where the blame should rest in this matter.—*Vin.*

CHILDREN AND BABIES.

Who does not love children? Are they not the light and joy of every household? Yet how many are the diseases to which they are subject, and the great cause of many of their afflictions is Worms. What shall the disconsolate parents of these poor children do? We, with confidence, reply: "Give a few doses of JUDSON'S WORM TEA." It cannot do any harm. It is sure to do good. No Mercury or any other mineral is in it. It is entirely vegetable.—Sold by all Dealers at 25 cents per package.

DON'T FAIL TO PROCURE MRS. WINSLOW'S SOOTHING SYRUP for children teething. It has been used for 30 years, with never-failing safety and success, by millions of mothers for their children. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health, and comfort to mother and child. Twenty-five cents a bottle. Offices, No. 48 Dey street, New York, and No. 205 High Holborn, London, England.

HOLLOWAY'S PILLS are undeniably the finest medicine in the world for biliousness and indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver and stomach complaints, there is no such medicine known that will give such immediate relief as these renowned Pills; young and old, rich and poor patronize them, and so many cures are effected by their use, that their praise is sounded from the torrid to the frigid zone; in truth, persons who travel consider them a necessary requisite. In sultry weather or warm climates, or in India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

**COAL.**

O, quit your nonsense now, and turn to business!
From teas, excursions, pic-nics and late drives,
And other follies, causing so much dizziness,
And consequences that one's mind deprives
Of happiness, and also makes uneasiness
With unwise beauty and fond slighted wives—
Prepare for winter and preserve your soul;
To warm the body, buy from me your COAL.
