**LAUNCHING** of the new potato marketing board was held at the home of Mrs. Arthur Fraser.

**STATEMENT CHALLENGED**—This last statement was quickly challenged by Mr. Louis O'Connor of Clinton who reminded the speaker that Hon. Mr. Gardiner had told a representative group of Island agriculturists that "they should go home and organize your control marketing boards and we are willing to help you with your plan."

**MR. R. E. CONNOLLY** rose at this time to ask Mr. Scates whether he was sincere in his remarks against the Board. "It is hard for me to believe," said Mr. Connolly, "that you are sincerely trying to help the farmers at this meeting." Mr. Connolly declared that he was "disappointed, since he had expected to hear remarks of a constructive nature coming from such an experienced grower as Mr. Scates," to which another

**REPLIES TO CHARGES**—Mr. Donald A. MacDonald made a very forceful reply to all of the charges made by Mr. Scates. Mr. MacDonald was pressed for information regarding the cost of operating the Board and replied that he had no hesitancy in divulging such information which he said was slightly over one percent of the cost of potatoes marketed.

The meeting was largely attended and the discussions entered into would indicate that the growers of this district are keenly interested in the affairs of the Board. Speakers continued to express themselves until after midnight.

**basic principles of a marketing board is mutual confidence,"** said Mr. Scates when he made reference to the underselling tactics of the New Brunswick Board and he added, "mutual confidence seems to be lacking between the two Boards which are operating under the same producers' agreement."

The speaker was interrupted at this point by a grower who asked "do you consider that you are promoting mutual confidence between the growers and the Board by the remarks you are making now?" To which Mr. Scates replied that he was simply exercising a democratic right in expressing a personal opinion.

Mr. Scates was of the opinion that the Dominion Government would not be so lenient in granting a renewal of a contract, similar to that enjoyed by the Island growers last season. He further stated "that in conversation with a reliable Ottawa official, whom he did not name, that Ottawa felt pretty mean that they had been taken for such an amount as was paid in subsidy to the Marketing Board."
