WILL CARRY PREMIER—The Canadian Government Cruiser Margaret left Charlottetown yesterday morning for Pletton where she will meet Premier Meighen and his party and will transfer them to the island.

ON THURSDAY AFTERNOON from 3 o'clock to 4 o'clock p.m. Hon. W. L. McKenzie King, Liberal leader, will hold a reception in the Legislative Assembly Chamber in the Provincial Building. This will afford a splendid opportunity for the lady electors and men electors to personally meet the Liberal leader. Everybody welcome.

HOLMANS CATALOG ARRIVED.—As an indication of the cost of living here there is nothing more welcome nor more reliable than the semi-annual catalog issued by R. T. Holman, Limited, Summerside and the 1921-1922 Fall and Winter issue just received by The Guardian is well up to the high standard already set by the premier mercantile concern of Eastern Canada. The cover design shows a comfortable entrance to a well-to-do home, with an express man delivering parcels from R. T. Holman, Limited. Insert in the design show the big Summerside store with an allegorical sketch of a freight steamer and an express train bearing merchandise to and from the store. A feature of the catalog this season is the offer of the maritime provinces all goods ordered from pages 1 to 64, regardless of the size of order; freight is prepaid on all other articles when the order amounts to \$10.00 or more. All through the big bargains cannot help but notice the phenomenal price savings that are effected through the big-buying facilities of this famous island store. In press-work, engravings, paper and make-up the catalog is a real work of art and is a valuable addition to the library of the housewife who wants to combat the present high prices.

ASPIRIN "Bayer" is only Genuine. Warning! It's criminal to take a chance on any substitute for genuine "Bayer Tablets of Aspirin," prescribed by physicians for twenty-one years and proved safe by millions. Unless you see the name "Bayer" on package or on tablet, you are not getting Aspirin at all. In every Bayer package are directions for colds, headaches, neuralgia, rheumatism, lumbago, toothache, rheumatism and for pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell large packages. Made in Canada. Aspirin is the trade mark registered in Canada, of Bayer Manufacture (Monaco) and is the highest quality.

CLASSIFIED ADVERTISEMENTS. Advertisements under this heading, to be inserted for each insertion. Where copies come to our care to be forwarded, five cents must be added to cover postage, etc. Contractions count as one word, but five figures (as \$1,000) are allowed an extra word. Each advertiser to cover cost must accompany all advertisements. In no case can this be overlooked. Received without remittance cannot be acknowledged.

Canada Commission In Stillman Case

MONTREAL, Oct. 3.—Fred Beauvais, French-Canadian correspondent in the divorce suit brought against his wife by James Stillman former president of the First National Bank of New York, when seen yesterday, expressed the hope that a commission would be appointed by the American courts to collect evidence in Canada.

"If the trial judge in the case will grant us this commission," said Beauvais, "I am sure we can get enough evidence in Canada to absolutely quell the charges brought against Mrs. Stillman and myself."

Beauvais was sure that Stillman's interest would oppose the granting of this commission, but he does not think they will succeed in blocking the application. He was not sure if he personally would have to testify. His side, he declared, was prepared to bring forward overwhelming evidence to prove that some testimony given at the hearings across the border, on which the plaintiff based his case, was absolutely false.

CANCER'S HIGH, UNNECESSARY TOLL

NEW YORK, Oct. 5.—Nine thousand, three hundred residents of New York State will die of cancer during the present year, 1921, according to an estimate made by Dr. Frances Carter Wood, Director of the Institute of Cancer Research Columbia University. Dr. Wood, one of those working in the interest of "National Cancer Week" to be held from October 30 to November 5 by the American Society for the Control of Cancer, makes his estimate in the current issue of the "Health News," the official organ of the New York State Department of Health. His figures are based on mortality records, running from 1916 when 9,400 cases proved fatal, to and including 1920 when deaths numbered 10,200.

In a substantial majority of these cases the patients could have been saved, Dr. Wood declares, if they had sought competent medical aid at the inception of the disease and the growths had been promptly removed. It is to bring home to the public the importance of early diagnosis and treatment that the foremost physicians and surgeons of the country are to inaugurate a nationwide campaign next month.

"Of the 10,300 people who will die from cancer during 1921," says this noted authority, "approximately 400 will die from cancer of the mouth or tongue; 3,800 will die from cancer of the stomach or liver; 1,500 from cancer of the intestines; 2,400 from cancer of female organs; 300 from cancer of the skin; and 1,900 from cancer of various other organs."

"Every case of cancer of the skin could be cured if all physicians were sufficiently well informed and all patients consulted them promptly on the appearance of any slight irritation of the skin," Dr. Wood continues. "Of 1,000 women who will die of cancer of the breast, the majority could be cured if seen and operated upon by a competent surgeon within a few weeks after the first appearance of the lump in the breast; of the 1,400 who will die from cancer of the internal organ fifty per cent could be saved if only a diagnosis could be made in time and proper treatment given." Dr. Wood goes on to say that deaths from cancer of the tongue and mouth would be greatly reduced by prompt diagnosis and treatment, but he holds out less hope for those afflicted with cancer of the stomach, because "diagnosis methods are inadequate and the symptoms of the disease are so obscure."

Answering the question as to why deaths have increased in New York State, he says this is primarily due to the fact that a very small proportion of those afflicted consult a physician even when they know they have a tumor. He gives as another factor the unfortunate attitude of many practitioners who feel that they must wait until all diagnosis characteristics of cancer have made their appearance before sending a patient to the surgeon.

Dr. Wood describes the disease as a "growth on a person's own body". At first it gives no pain or symptoms and it is, therefore, difficult for the ordinary person to discover unless the growth can be felt. The scientist then points out ways in which the discovery in many instances may be made by those afflicted. Suspicious symptoms easily recognized include a hard lump or swelling, evidence of pressure, internal bleeding, intestinal obstruction, persistent hoarseness, growth in the mouth, growths on the skin, and any of the above attended by continuous loss in weight. Dr. Wood admits that diagnosis

USE OF TELEPHONE IN GERMANY SOUNDS LIKE READING OF WINE LIST

BERLIN, Oct. 5.—Germany is turning in every direction for money, but nothing more ingenious has yet been devised by the Government than the new system of naming telephone exchanges by which it is expected the use of the telephone will sound like the reading of a wine list. It has been announced that changes will be leased to makers of such advertised products, and it is freely predicted that liquor manufacturers will take most of them. It is proved to be the case, it will be as if a Toronto man asked for Haig and Haig 1234.

Ambrose Cook Has Escaped

BRIDGEWATER, Oct. 5.—Ambrose Cook, who was arrested at Westfield by Provincial Officer McAuliffe, on a warrant for stealing a bicycle, the property of Stanley

Must Go The Limit Says Ratheneau

MUNICH, Oct. 3.—"We must go to the limit of our capacity with regard to reparation," Dr. Walter Ratheneau, the German Minister of Reconstruction, declared before the Congress of the Imperial Association of German Trades which opened today. "Complete fulfillment of the terms of the ultimatum will affect the world economically more severely than ourselves. Britain has three million and the United States six million unemployed. The more Germany must work the more the others cease working. What is needed is an international economic understanding."

The Minister approved Mr. Churchill's suggestion of co-operation as outlined in his Dundee speech, and said with regard to France: "We must give good; the problem is to substitute products for gold. We are to have a further conference with France regarding arrangements for deliveries of gold marks to the amount of seven billion in the course of four and a half years."

Norris Murder Trial Opened

ST. JOHN, Oct. 4.—Edward O'Brien was arraigned in the Supreme Court before Mr. Justice Barry yesterday afternoon at 2:30 o'clock, charged with Thomas Spellman, with acting together and murdering Albert Norris in this city on the night of September 8th, and pleaded not guilty. A separate trial will be given each of the accused, O'Brien being tried first. Considerable difficulty was experienced in selecting a jury, there being nineteen challenges by the defence. Twelve members of the panel, were absent and Judge Barry ordered that a fine of \$10 be levied each. Five of the men who served on the jury which tried John Paris, were sworn in today as members of the jury that will try O'Brien.

After the jury had been sworn in, W. B. Wallace, K. C., the Crown prosecutor, recited the facts of the case, after which twelve witnesses for the Crown were examined and cross-examined. Their evidence being unchanged from that given at the inquest. It is expected that the Crown will close its case tomorrow morning and that all the evidence will be in before adjournment in the evening.

Father Charged With Murder of Sons

PROVIDENCE, R. I., Oct. 3.—Louis Beaumier, 35, pleaded not guilty in the District Court Friday to the charge of murdering his two sons Francis, 11, and Leon aged 9. The police allege that Beaumier, widower, asphyxiated his sons, and attempted suicide here after a long and unsuccessful search for employment. The bodies, and Beaumier's nearly dead, were discovered in a Union street lodging-house Sept. 17th. The plug had been unscrewed. Beaumier spent a month in Rhode Island hospital and was arrested immediately on his discharge. Oct. 14th is set as trial date.

JUGO-SLAVIA KING CAUSE OF ANXIETY.

PARIS, Oct. 4.—Mystery continues to surround the condition of the health of King Alexander of Jugo-Slavia. He was recently reported to have suffered a relapse following an operation, and it was said he was unable to return to Belgrade for his coronation. It was officially announced at the Jugo-Slavia legation that he had "merely taken a cold."

On Friday night, it is declared by the Journal, King Alexander was riding along the Champs Elysees in his automobile when the machine collided with a car owned by Count Bonin-Longare, Italian Ambassador to France. The King's motor was so badly damaged that he was forced to return to Versailles, where he is staying, in a taxicab. The Italian Ambassador was not in his car when the collision occurred.

Horwood Says It Did Him World Of Good

NEWFOUNDLAND MAN EATS, SLEEPS AND WORKS BETTER THAN HE HAS IN... YEARS

"Tanlac has simply done me a world of good and I'm strong for it," declared John Horwood, Quidi Vidi, St. John's, Nfld. Indigestion had almost finished me, as I had it for two years as bad as any man ever did. I couldn't eat a thing without bloating up so tight that I was in misery for hours afterwards, and I had such awful headaches and dizzy spells that I was worried and miserable all the time. I got very little rest at night and got up in the morning feeling so tired and worn out that I wasn't fit for work.

NOTICE

A meeting of the Liberal Conservative electors of Clifton Hill, will be held in the New London hall on Thursday, Oct. 6th at 8 p.m. A full attendance is requested. By order of Committee.

Great National Liberal and Conservative Demonstrations. The Right Hon. Arthur Meighen, P. C. Prime Minister of Canada. Will address public meetings in the province as follows:— GEORGETOWN— Monday, Oct. 10, at 1 p. m. in the Town Hall and Rink. CHARLOTTETOWN— Oct 10, at 8 p. m. in the Market Hall, (Strand Theatre) and Prince Edward Theatre (Opera House). SUMMERSIDE— Tuesday, Oct. 11, at 1 p. m. in Town Hall and Rink. In addition to the Prime Minister: The Right Hon. F. B. McCurdy, Minister of Public Works; The Right Hon. J. M. B. Baxter, Minister of Customs and Inland Revenue; The Right Hon. Rodolphe Monty, Secretary of State. And others will Address the Meetings. All Electors, both Ladies and Gentlemen are Cordially Invited to be Present.

It is not always easy for general practitioners and advises them to inform themselves as to the newer methods, including particularly the X-ray. "Physicians must do their utmost to help, by making the earliest possible diagnosis at a time before the disease has begun to spread through the body," he warns. "It is only by such means that the mortality from cancer can be reduced."

MUMPS AND FEVER HAVE HIT WORLD.

NEW YORK, Oct. 4.—The old spheroid, known as the Earth, is emerging from what some diagnosticians might call a severe attack of meteorological mumps. It has been accompanied by an intermittent fever, manifested in a world-wide wave of unusual length and intensity. In spite of crisis and relapses—earthquakes, tidal waves, cloud-bursts, typhoons, waterspouts, hailstorms, floods and hurricanes in many widely separated parts from Kamchatka to Cape Horn, and from Guam to Guadalupé—the doctors are confident the patient will recover.

Wooing Unemployed Homesick Filipino To Secure Members Began Swim To Manila

WINNIPEG, Oct. 3.—Organization of the unemployed as units of the One Big Union, in order that they be officially represented, and as an aid to securing the best possible relief to them, was decided upon at the concluding session of the O. B. U. convention here Thursday, according to a statement made public today. The unemployed, under these circumstances, will be taken into the organization without cost to themselves.

SOLDIER FARMER HAS BANNER WHEAT YIELD

What is expected to be the banner yield of wheat for Alberta this year was threshed by A. D. McLeod, a soldier settler who was established under the Soldier Settlement Act in May, 1919, near Millet, Alta. Among other grains he sowed 12 acres of Morgan wheat on newly broken ground. This wheat has just been threshed and yielded Mr. McLeod 52 1-2 bushels to the acre.
