-FEED HOME MADE LOAF bread and milk with R-M. Standard, fine puppy meal, cube meal or vita-crumble meal, and watch the fox puppies grow. R-M. Feeds distributed by Braco's. L-4025

-I. O. D. E. MEETING—The monthly meeting of the Abergwilt Chapter of the I. O. D. E. was held April 29th. Business included the appointment of representatives for immigration, public reports, etc., and arranging a ticket committee for a picture "The Lives of a Bengal Lancer" to be given in the Capitol Theatre under the auspices of the I. O. D. E. After the regular meeting, Miss G. Holman read a paper on "David Livingstone," written by Mrs. George Miller of the Royal Edward Chapter of Charlottetown. The paper was delightfully and sympathetically written. It covered Dr. Livingstone's childhood and education and various journeys of exploration. Mrs. Miller particularly emphasized how Livingstone is revealing the horrors of the slave traffic "stung awake the heart of the world." She referred to his personality that made him feared by those who opposed him, Arab slavers and the like, and loved and honored in England and throughout the world for his 30 years of merciful mission. No life of Livingstone would be complete without referring to Mrs. Miller did, to the great loyalty and heroism of his African friends, who doing him honor after his death, buried his heart in Chitamboli Village in Central Africa, then carried his body 1,300 miles to the coast through enemy country and under great hazards. From there the body of Livingstone was conveyed to England and buried in Westminster Abbey. The meeting closed with the National Anthem. -S.

-Miss Margaret S. Riley, Summerside was recently a guest of Mrs. Gretchen Brown, Sackville.

### Annual Meeting Miscouche C.W.L.

The annual meeting of the Catholic Women's League, Miscouche, held in the Convent classroom on Tuesday evening, April 20th, was well attended. The President, Mrs. Urban R. Gillis, presided. Rev. Father Monaghan was present and congratulated the officers and members in the quiet and unassuming manner in which they conducted their business since the inauguration of the League in the Parish. He also congratulated them on the many acts of service rendered not only parochial, but also in other directions.

A vote of thanks was extended to the Reverend chaplain for his kind and encouraging words, which he is ever ready to render. The President's address, which appears below, was delivered in a capable manner, was warmly commended and sincerely appreciated by all.

The Recording Secretary's report which appears below, a comprehensive outline of the work accomplished during the past year. The Recording Secretary's Report showed the sub-division to be in good standing financially with a substantial credit balance at the end of the year.

#### PRESIDENT'S ADDRESS

Rev. Father, officers and members of the Catholic Women's League:

A complete review of the activities of the Sub-division of the Catholic Women's League has just been given to us by the different Executive Officials, and it will not be necessary for me to go into detail concerning any of the various phases of our work during the past year. As your honored President, I wish, at the outset, to thank each and every member of our Sub-division for your whole-hearted cooperation and loyalty to me in your President.

It has been an easy and a pleasant task. I can assure you, to preside at the various meetings of our Sub-division when harmony and the fullest cooperation have always been so much in evidence.

On behalf of our Sub-division, I also wish, at this time, to express our sincere thanks to our beloved Chaplain, Rev. Dr. Monaghan, for the interest he has always taken in our work, and to assure him that we are truly grateful for his kind assistance, always so cheerfully given. We are also indebted to the good Sisters of Miscouche Convent who have so kindly permitted us to hold our meetings in this splendid building, and again on behalf of our Sub-division I wish to extend to them our most sincere appreciation of their kindness. The activities of our Sub-division may not have been as pretentious as those of some of the other Sub-divisions of the Catholic Women's League, but we have experienced a quite successful year. Our contributions to the various charitable, social and religious causes have been in keeping with our revenue and to the best of our knowledge have been placed where we considered they would do the most common good.

We may have arrived at the end of our fiscal year, and while we may feel that we have done our best to foster and put into practice true Catholic action, we should not now be satisfied to rest on our oars. There is much yet to be done, and with determined collective action we can accomplish a great deal for the betterment of our fellow-men, our community, and our Canada; thereby living up to the high ideals and motto of the Catholic Women's League, "For God and Canada."

#### Recording Secretary's Report

Rev. Chaplain, Madam President and members of the Catholic Women's League:

As your recording secretary for the past year, it becomes my duty to give you a brief report of the activities of the Miscouche sub-division since our last annual meeting held in April 18th, 1935.

During the year five executive and twelve monthly meetings were held with a good attendance. While our membership is increasing I might say a great deal more work could be accomplished if every lady in the parish would co-operate with us in the undertakings of our organization.

Funds to carry on our work were raised by entertainments, card-parties, and a lottery for an Afghan, which netted us the sum of \$25.40.

The step-dancing contest which was held in October is worthy of special mention as it proved to be the biggest hit of the year.

On our feast-day April 26th High Mass was offered for the living members. All received Holy Communion in a body. Our pastor, Rev. Father Monaghan delivered an inspiring sermon.

In April \$40 was given to the Church Finance Fund. A donation of \$5.00 was sent to Lady Beesborough Cancer Fund.

In May, yarn was purchased for an Afghan which was knitted by the members, and was later loaned. The subscription to the Canadian League Magazine was renewed for our pastor.

In July \$10 was paid to help care for a local patient. In September, our President, Mrs. Urban Gillis, attended the convention which was held in Georgetown and at the following monthly meeting, she gave an interesting report. A donation was also sent to the Regina Debt Fund during this month. In October

### Maple Leaf Gardens Formally Opened By Mayor Robinson

er a Tabernacle Vell was purchased for the Altar, also other needs for the altar were supplied.

In November, fruit was sent to two local patients in the Prince County Hospital. Gifts were presented to two brides who were members of the League. A donation was sent to the Sisters of Service. A High Mass was offered for the Souls.

In December \$5.00 was given to the Sisters to help make up treats for the school children at Christmas. A donation of \$5 was given to the Prince County Hospital. We remembered our Pastor with a Christmas gift. Fruit was sent to the sick and a box of clothing was donated and sent to the St. Vincent's Orphanage.

On March, \$10 was voted to be given to our pastor for charitable purposes. Gum-rubbers were purchased for needy children.

Our National and Diocesan obligations were attended to. Cards of sympathy were sent to members in grief. In conclusion I wish to thank our Rev. Pastor for the kind cooperation he has given us, and to the good Sisters of the Convent for the use of one of the class-rooms, which place we held our meetings. I wish also to thank the President, Officers and members of the C.W.L. for their many acts of kindness and co-operation during my term as your Secretary.

Mrs. (Ernest) Josephine DesRoches Recording Secretary

The election of officers resulted as follows:

President, Mrs. Urban R. Gillis, re-elected.

Vice President, Mrs. Russel Crockett.

2nd Vice President, Mrs. Ben Perry, re-elected.

3rd Vice President, Mrs. William DesRoches, re-elected.

Recording Secretary, Mrs. Ernest DesRoches, re-elected.

Treasurer, Miss Gertrude Lecky, re-elected.

Corresponding Secy., Miss Lyvonne Perry.

Counsellors: Mrs. J. F. Gaudet, Miss Carl Lecky, Mrs. John S. DesRoches, Miss Tessie Lecky, Mrs. Joachim DesRoches.

The re-elected President, Mrs. Urban R. Gillis occupied the chair, and thanked the members for their confidence in her and asked them for their continued co-operation during the coming year.

The meeting then adjourned.

### Help Distribute Sows to Farmers

For the past five years the officers of the Live Stock Branch, Dominion Department of Agriculture, have been purchasing bacon type sows for resale to farmers at cost. This service has proved increasingly popular with farmers and during last winter sow distribution depots were filled to capacity and at times officials found themselves unable to meet orders within a reasonable time. As most farmers wanted their sows bred before shipment, it was necessary to hold the animals for some time with consequent congestion and additional feed cost to the Dominion Department of Agriculture.

In order to economize on feed and accommodation, and to make deliveries more promptly, it is now necessary to discontinue entirely the practice of breeding sows at these depots. It has also been considered advisable to give priority to orders for group shipments over those for shipments to individuals. This is being done in order to encourage community effort in hog breeding as a means of drawing attention to the fact that shipping charges can be reduced materially by shipping twenty or more sows as a carload. This is particularly important for farmers situated at a distance from distribution depots.

With the quicker turnover possible by not having to hold sows until bred, it should now be possible to fall all orders whether for groups or individual animals without much delay.

The Dominion Department of Agriculture will continue to contribute an amount equal to one-half of the regular freight charges on all shipments as in the past; to supply feed during the time sows are held awaiting shipment; and maintain the same standards of selection as in the past.

### FINS PREVENT POLLING

JERSEY, Channel straits—The Southern Railway steamer, Isle of Sark, is the first British ship to be fitted with stabilizing gear to prevent "rolling." Electrically controlled fins have been installed.

### Maple Leaf Gardens Formally Opened By Mayor Robinson

About four hundred people attended the opening dance in the Maple Leaf Gardens, Summerside, Wednesday night. Mayor B. W. Robinson formally opened the hall with an appropriate address referring to its beautiful appearance.

Mr. Reginald Pope is to be congratulated on this beautiful new dance hall which is 100 by 40 feet. The entrance is on Summer Street and overhead is placed an attractive sign the design being a Maple Leaf appropriately lettered and illuminated by an electric spot light. The interior of the hall is finished in lattice work and is attractively decorated with maple leaves. The hall is lighted with electric lights in Japanese lantern style and in addition has four large var-colored flood lights which made a pretty picture with the dancers in motion. At the left of the entrance there is a cloak room where articles of clothing may be checked. A kitchen and refreshment booth are located at the south end of the building.

The windows are draped in green and orange and diamond shaped mirrors are placed between. The building is steam heated.

An orchestra stand enclosed with a fence effect is situated mid-way along the east wall. Stan Jamieson and the Garden of the Gul' orchestra furnished the music in their usual good style. They will also play at the dances in this hall each Wednesday and Saturday nights.

During the dance there were novelty events and refreshments served. The music was broadcast over radio station CHGS.—S

### Canadian Tobacco Makes Rapid Sale

In the annual review of the tobacco market in Great Britain by the Canadian Trade Commissioner in London, in co-operation with other trade commissioners in the United Kingdom, it is stated that the excellence of the crop of fine cured tobacco which was raised in Canada in 1935, and its suitability for the cigarette trade in the United Kingdom were responsible for its rapid sale when the market opened. Many British manufacturers have bought heavily and appear to be well pleased. The price, which on the average was higher than a year ago, was apparently justified and some manufacturers have stated that this was the case only because of the exceptional quality.

In other words, many of the manufacturers are now so well stocked up that it will not be necessary for them to go into the market in 1936 unless the quality is entirely satisfactory and the price attractive. It seems important so far as the United Kingdom market is concerned, continues the report, that there should be no export increase in acreage in 1936 in anticipation of widening sales. Little of the 1935 crop which was purchased by British manufacturers before the end of the year and consequently is not shown in the present trade returns. Thus, while substantial purchases of Canadian tobacco have been made, the figures instead of showing an increased volume, show imports from Canada as only 7,076,537 pounds in 1935 as compared with 8,058,984 pounds in 1934. British purchases of the Canadian 1935 crop will not be shown until later returns for 1936 are available.

### PLANES "PEST" TO SHEEP

NORTHAMPTON, Eng.—Northamptonshire farmers declare low-flying airplanes are becoming a "perfect pest." One man said ewes are so frightened they had trouble with lambing or gave birth to dead lambs.

### Trail Riding In The Can. Rockies

CITTAWO, April 30—"See the Canadian Rockies from a Saddle" might well be the slogan of this summer's visitors to the National mountain parks for it is being more and more realized that to know and enjoy to the full the beauty and grandeur of these great scenic playgrounds one must "ride trail." During the approaching tourist season officials of the National Parks Service of the Department of the Interior expect greatly increased interest in trail trips through the National Parks in the Rockies.

This season's annual "Ride the Rockies" has been announced for the five days beginning Friday, July 31 and ending Tuesday, August 4. The route for the proposed outing will be through one of the most picturesque portions of Banff National Park. Those taking part will gather on the outskirts of Banff and the party will proceed up the valley of Fortymile creek to the creek's source and on to Sawback lake. From there the route follows the Cascade river to its source in Badger pass. The pass will be crossed and the return made down the valley of Johnston creek to Hillsdale, where the Annual Pow-wow will be held. Overnight camps will be prepared along the route.

It has been truthfully said that the visitor who leaves the mountains without having taken a trail trip has missed one of the chief joys of the Canadian Rockies. While the vacationist, with only a limited holiday period may satisfy his longing for a glimpse of the Rockies by a rail or motor trip through the mountain parks, to those who can linger for the necessary time, a trail trip should be included in the vacation itinerary.

Back of the magnificent ranges and peaks which greet the eye from the Park administrative centre are regions of great beauty and grandeur. Range after range of mountains as beautiful as those already seen stretch away to the confines of the park, hiding equally wonderful valleys, canyons, lakes, and water-falls. These can be reached only by trail and for those who can spare the time there is no way to see the park to compare with a trip of this kind.

There are well over 2,000 miles of trails in Canada's national parks in the Rockies, leading to the less frequented parts of these great scenic playgrounds and opening up to the adventurous and the lovers of the great out of doors new lands of wonder and romance. Trips along precipitous cliffs, through wooded areas, and good fishing, wonderful scenery and a glimpse into the heart of nature never to be forgotten.

The gradual extension and improvement of the network of trails by the National Parks Service of the Department of the Interior make it possible to arrange for interesting trips of a few hours or of several weeks duration. A list of licensed guides who will outfit an expedition of any length may be obtained from the government Information Bureaus maintained in the different mountain parks. In addition to the other necessities, the outfitters can be relied upon to supply well-broken saddle horses, selected for their ability to ascend steep and mirrored reflections of mountain trails, ford streams and pick their way around boulders and over deadfall lakes. The majestic intelligence, grace and speed are not the highest points in the choosing of a good pack-horse and traveling these trails is not by hard and fast rules. The average day's travel is about fifteen miles and camp is usually made at a spot where such practical needs as a good drinking water, and a sufficient supply of feed for the horses can be secured.

The pack trail trips through the Canadian Rockies are almost impossible to describe in words alone, as the trails wind through the beautiful valleys, along the bases of high mountains, across streams and up over pine-scented hills with an accompanying panorama of low-lying peaks and mirrored reflections in emerald lakes. The majestic waterfalls and the forest-clad valleys are best seen and enjoyed from the traveler is always assured, as well trail. The safety and comfort of the as the providing of all means by which the trips may be made pleasant and memorable.

Creamey butter, farm-made cheese, factory cheese and miscellaneous dairy products in Canada in 1935 all registered some increase in production.

### Alfalfa Growing On P. E. Island

(Charlottetown Experimental Farm Notes) Alfalfa, the king of forage crops now shows some promise of becoming an important crop in Prince Edward Island. For number of years the Illustration Stations in this province have worked on the assumption that once the soil becomes inoculated and the correct method of growing is adopted there will be many fine fields within a reasonable period of time.

For the past seven years five pounds per acre of Ontario Variegated, or Grimm alfalfa have been seeded with the regular grass and clover mixture on each station. The seed in every case was treated with nitro-culture. During the first few years, or during the first rotation, only a limited amount of the alfalfa grew sufficiently strong to withstand the winter, but with each succeeding year more and stronger alfalfa plants have appeared until at the present time on several stations the alfalfa is about as abundant as the clover. Thus a superior feed has been secured.

In the growing of alfalfa it has been noted that manure and lime alone are especially beneficial. At each station there is a limestone plot extending across each field and it is very noticeable that the alfalfa is much stronger on this area than on the other parts of the field, indicating that limestone is a vital factor in the successful growing of this crop. On no station has alfalfa grown successfully on wet land.

In addition to an excellent start made in growing alfalfa on the stations, one notices when driving along the road some very good patches and occasionally a larger field of promising alfalfa. But this is only the beginning, and one may hope to see within the next ten years, this valuable crop grown extensively throughout Prince Edward Island.

Northern grown Grimm alfalfa seed was produced on many farms in Ontario and Quebec in 1933.

For Charlottetown by Mr. Minard's

### EATER BREAKS RECORD

(C. P. By Guardian's Social Wire) KIRKLAND LAKE, Ont., April 30. For a bet of one dollar and the cost of material consumed, Alex Wronka, unemployed miner, today achieved a record by eating four pounds of Polish sausage and a loaf of rye bread, washed down with draughts of tea with lemon, in less than half an hour. Actual time was considerably less than half an hour.
