## Another Concerto at The Wave

Andy Bulman *Contributor*

The enormous crowd at the sold-out Halloween pub was a crazy carnival of circus freaks. That being said, about 70 per cent of the crowd came dressed as a "slutty cop" or "slutty cowgirl".

Indeed, one scantily clad cowgirl kept sneaking up behind me and grabbing my ass all the while telling me my costume was sexy (I wasn't wearing a costume). This of course caused my boyfriend to repeatedly exclaim "Don't let her get away with that, grab her ass back!" and "Oh man, I love Halloween!". The highlight of all the costumes belonged to Student union president Ryan Gallant, he was decked out in a preppy gray sweater, curly blond wig, and a name tag that read Shaun Coady. Too funny.

But enough about the costumes, and back to the real reason why the Halloween Pub was one of the greatest nights in the school year so far... which is the fact the Jimmy Swift plays a kick ass live show.

The band consists of lead singer Mercer, bassist Mike Macdougall, Keysman, Aaron Collier and Drummer Paul Christian, all of whom are fantastic skilled musicians. The highlights of a Jimmy Swift live show are as follows 1) incredibly catchy song writing and 2) Mercer's deep killer voice. Jimmy Swift is fantastic live, so its lucky and convenient that they've just released a live album. The band has been nominated for several East Coast Music Awards and has shared the stage with the huge acts such as, The Flaming Lips, Our Lady Peace and I, Mother Earth. Anyone who likes decent live music should check out the New Jimmy Swift CD.

## One World Astrology

**Ares** (March 21-April 19): Think of your life like a movie. I know it hasn't been a blockbuster show of late, with sparks continuously flying and non-stop adventure. But all that is about to change - if you want it to. The time is ripe, Aires, for you to take control. You are the lone producer of the show called Life. Now, get in there and make some magic!

**Taurus** (April 20-May 20): I predict a difficulty ahead, Taurus. Chances are, you are aware of this difficulty and are anxiously anticipating it's arrival. Don't worry. The signs suggest that so long as you keep your head on straight - that is, face the problem rather than try to ignore or run away from it - all will turn out for the best.

**Gemini** (May 21-June 21): Today you must try not to get lost, Gemini. It seems that you are going through a period of intense questioning and introspection. It will be easy for you to become disoriented in this state and forget things. That is why I am asking you to think of the one person whom you trust most in the world. In the days to come, this person will serve as a point of reference for you. When you're feeling uncertain about something, just ask yourself: What would this person do?

**Cancer** (June 22-July 22): Oh, Cancer. How easily you are made upset. That's a problem. However, it is also a strength. Your sensitivity comes from a deep internal spring of psychic energy. If only you could focus this energy all the time, your feelings wouldn't be so easily hurt. The next time something upsets you, try really hard to keep a hold of yourself; not just physically, but also mentally. The power is in you to see things as they truly are.

**Leo** (July 23-August 22): Well, I don't really have much in the way of advice

for you, Leo. The signs suggest that either you do not want it or you do not need it. You are going through a time of self discovery during which you will have little need of external stimuli. As a token of safe passage, I present to you these words spoken by comic actor Woody Allen in the 1977 film, Annie Hall: "Hey, don't knock masturbation! It's sex with someone I love."

**Virgo** (August 23-September 22): "Trust in Allah, but tie your camel," an old Muslim proverb goes. This saying should apply to your life very much in the coming days, Virgo. You are advised to trust in your higher self and powers of reasoning, but to keep a wary eye on that which is not necessarily under your control."

**Libra** (September 23-October 22): My advice to you, Libra, is to *just relax*. I have a simple quote, by Aldous Huxley, which is appropriate for you at this time: "There is only corner of the universe you can be certain of improving," he says, "and that's your own self." It's time for you to stop worrying about others, and focus for a while on what matters most.

**Scorpio** (October 23-November 21): So, your looking to get into a little mischief, are you? Well there's nothing wrong with that. However, you should keep the feelings of other people in mind. The current astrological omens suggest that whatever happiness or pain you cause others at this time will come back to you ten fold. So, go ahead and indulge in a little bad behaviour, but think before you do anything that might might upset someone.

**Sagittarius** (November 22-December 21): You know as well as I do that there is no truth to what you read in
