It is said that George Gould is to marry Miss Astor. As the wealth of the parents aggregate anywhere from \$200,000,000 to \$300,000,000, it is probable that if the marriage takes place the young folks will have no difficulty in setting up housekeeping.
MACK'S MAGNETIC MEDICINE is an infallible food for the Brain and Nerves, and by its rejuvenating effect on these organs never fails to cure nervous exhaustion and all weaknesses of the generative organs. Sold in Charlottetown at Apothecaries Hall. See advertisement in another column.
AN American has written to the London Spectator explaining the use of the word "cuss," so frequently heard as a supposedly half-humorous, half-obprobrious expression. It is not a corruption of the word curse, he says, as is very generally supposed, but an abbreviation of the much more innocent customer.

A SEA SERPENT HALF A MILE IN LENGTH.—A marine monster, apparently half a mile in length, has been seen going down the Bristol Channel, towards the Atlantic, at the rate of about twenty-five miles an hour. Accounts from various parts of the north coast of Cornwall corroborate the description given. The monster's head was clearly seen, and it left a greasy trail.—Liverpool Courier.
GIANT BONES.—Mr. Wm. McDonald, the efficient lighthouse-keeper at West Point, has in his possession two fragments of colossal bones, found in the sand near the lighthouse, which are either from the jaw-bone of a large whale or thigh-bone of a mastodon or other monster of old times. They are worth examination. Skulls of the sea cow have been found in good preservation in the same locality.
STRUCK OIL.—St. John stockholders in the Bellevue mine are naturally elated over the intelligence that at the depth of 660 feet from the surface, oil burst out of the bore-hole the other day, coming up with a continual flow. The oil is apparently of two descriptions—a black oil and an oil of a lighter color. The flow of oil is still uninterrupted. The shale brought up is so infiltrated with oil as to burn with a bright flame.—News.
A FOOTBALL MATCH, College vs. all-comers, was played at Victoria Park on Saturday, and resulted in the former getting one goal against none for their opponents. The defeat of the latter was partly owing to the careless playing of their goal-keepers, who by the way are said to be professionals, the one having played on McGill College foot-ball team, and the other on Windsor. The success of the College team is without doubt due to the inspiring influence of two unpretentious players who have never had the advantage of professional training.
A FAREWELL SOCIAL was given to Mr. and Mrs. Morton, the Trinidad Missionaries, by the Women's Foreign Mission Society of Halifax on Friday evening last. The meeting was presided over by the Rev. McLean, on behalf of the Halifax Hands mission band, presented Mrs. Morton with a handsome gold watch and chain, suitably engraved.

They were remanded to jail for eight days.
THE Boston Comedy Co., produced Edward Stirling's powerful drama, the "White Slave," together with a charming little commedietta "The Loan of a Lover." Both drama and commedietta were well performed. Miss Edwina Grey, in the role of Elenor de Tourville, acted admirably. She was well supported by the company and the effect of the "White Slave" was well brought out. Tonight the company appear in "Leah, the Forsaken." We hope to see it well patronized.
A COMMERCIAL TRAVELLER from Montreal, who left his hotel last evening well dressed and in good physical condition and having a letter of introduction to a young lady residing on Main street, returned to his hotel in a comparatively short time bearing marks on his person and clothes of very rough handling, received, he said, at the hands of the young lady's indignant father. He was a badly used up man. To-day he engaged a lawyer to prosecute his assailant, and the case is expected to come up to-morrow.—St. John Globe Nov. 2.
THE finding of several parts of the body of a woman in the Erie Canal shows beyond doubt that one of the most horrible murders in the annals of crime had been committed in that vicinity. The body was hacked and cut up in a most horrible manner. The murder is thought to have been committed in a canal boat, and the general theory is that the woman was the wife of some canal boat captain, and that when the quarrel occurred and the woman was killed, to get rid of the body it was cut into fragments and thrown into the water in the hope that they would sink.
SUDDEN DEATH.—Mrs. Parkman, wife of Mr. Edward Parkman, died very suddenly at her residence, Easton Street East, yesterday evening. She was a woman thirty-two years of age and the mother of five children—the youngest being three or four months. Her health was fair, but of late her children have been sick with measles, and she therefore had a good deal of work and worry. Yesterday she was in her usual health. At 8:30 p.m. she coughed a little and spat blood. She drew her husband's attention to this and asked him to go for a Doctor as she felt very ill. He hurried to Dr. Boer's but the Doctor was not at home. He, however, arrived a half an hour after he was summoned, but Mrs. Parkman in the meantime had a severe attack of hemorrhage of the lungs and expired a quarter of an hour before his arrival. Mr. Parkman in his sad bereavement has the sympathy of the community.

The stable contained a quantity of goods stored there, which with all the hay feed, etc., was burned. The origin of the fire is a mystery. Strangely at the same hour last Sunday evening the stable owned by Mr. T. H. Priscott was burned with all its contents. The cause was also unknown. The opinion here is that the fires were both the work of an incendiary.
