## The Fevers High

CURLING championship fever has really hit the province and it's little rest from now until the Ontario Brier concludes the first week of the season.

At present the schoolboys are staging their battle at the RCAF rink in Summerside. They'll declare a champion sometime later this month at Edmonton, Alberta in the Canadian championship.

On February 10, the British Consoles will swing into action at Belvedere Golf and Winter Club. From this play will come a winner who will be the province's hope in the Brier at the Forum in Charlottetown beginning March 2. Over 30 rinks are expected to try their best in these Brier championships, the largest number ever to participate in the Consoles play.

Folks will not have a chance to rest up after the Consoles before the provincial mixed champions are upon us. They commence at Charlottetown Curling Club Monday, February 17 and run right through the week. The provincial winner in this competition gets a chance to go to Toronto where a Dominico championship will be played. There will be no such a competition and you can be certain that there'll be loads of entries for this one.

Things will quiet down for a week and right after that the big Brier is upon us.

This is by far the most active curling season this province has ever known. It's one competition after the other and undoubtedly there'll be many a stirring battle.

## Things Shaping Up

THE Brier committee is working day and night, bringing out all final details for this great curling spectacle. Where we said, committee has said that in the rural areas there will be many groups working on various phases of the event.

The program will surely be epic and upon when the curlers take over the ice. Forum manager, Wes 'Rucko' Trainor, insists on keeping his establishment in apple pie order. Folks attending events at the Fitzroy Street ice palace have been commenting on the cleanliness of the place. We don't believe there is a rink in the Maritimes kept in better shape than Charlottetown's.

So the Brier committee will surely have no housecleaning when they take 'em over the ice. However, lighting will be greatly increased. Newsom Electric will 'up' the present power from 30,000 watts to 48,000 watts in 15 to 20 minutes at 1900 and will bring this new condenser in 14 and the new additional service will be running in 15 to 20 minutes. The new condenser will be connected with the old condenser being in reserve.

Next week, under the leadership of the Brier committee, everything is looking good and the energetic local workers are ready to see that the Brier is a success. All those of you who are involved are deserving of commendation on a fine job to be done.

Wes Storey and his staff have overhauled the feeding units at the arena and Dr. committee has revised the menu. In fact, ever, precautionary measures have been set up to look after unforeseen circumstances regarding loss of food. A new condenser has been installed and the water hookup has been connected with the old condenser being in reserve.

Next week, under the leadership of the Brier committee, everything is looking good and the energetic local workers are ready to see that the Brier is a success. All those of you who are involved are deserving of commendation on a fine job to be done.

COACHES of intercollegiate hockey teams are reminded that the absence of Brian St. Mary's is a serious matter. In-chief, Alan Andrew, physical educator at West Kent and Prince George schools, should be contacted in regard to referees. Mr. Andrew may be reached at 431-3771. Phone number is 431-3771.

## Winter Carnival is Big Success

Following are the results of 2 Commercial Class—Replica the activity held today in connection with the 3rd annual Winter Carnival at the RCAF Station in Summerside.

1st.
