One-Armed Men.

HOW THEY MAKE USE OF THE MEMBER LEFT THEM.

He was a big man heavy side-whiskers and a military air that betokened long service under fire; and he was a one-armed man. The empty sleeve that hung at his right side, told of glory sought and of peril undergone. He was seated in an Eighth street restaurant, Philadelphia, leisurely breakfasting, and going through the motions of the meal with a graceful ease that betokened a man of high breeding.

"Never mind the knife and fork," he said, as the obsequious waiter placed those useful implements beside the savoury steak that formed the basis of the meal: "I am already provided." So saying he drew from his pocket a small morrocco case and removed from it an ivory handled instrument, highly polished, that looked strikingly surgical in its spotless brilliancy. Opening this by the aid of his mouth and his remaining hand, he disclosed what proved to be a knife and fork combined. One side was a well-sharpened knife, and at the ends were three broad prongs that served well the purposes of a fork. The cutting of the steak was done gracefully and thoroughly, and then his breakfast began.

By this time the writer, anxious to learn more of the devices of the one-armed man, took a seat at the same table and ordered his breakfast. His remarks on the ease and grace with which the veteran handled his conjoint knife and fork were well received, and the one-armed man willingly explained some of the many devices that he and others maimed in the war resort to for self-service.

"The knife and fork," he said, "were among the first inventions for one-armed men, and have been in use for many years. But we have other devices not so generally known. For instance, when I wash my face and hand I have affixed to my basin a small brush, upon which I rub my soap and thus raise the necessary suds. When I want to cut my nails, I stick a sharp knife in the table and pass them carefully around the edge of the blade. To tie my shoes in a bow-knot required long practice and no little ingenuity, but I can do it easily now. How I do it I cannot explain in word. For a long time I had trouble in buttoning my collar, but now no button can resist me. I don't believe I swear half as much during the operation as most men who have two arms."

"Can you shave yourself?"

"Oh, yes. There is no difficulty about that. In fact in the twenty years since Antietam, where I lost my arm, I have become almost perfect in all the little arts requisite for comfort."

The Boston *Herald* says:—"One who has recently taken an extended journey through the great southwestern region beyond the Missouri river makes a note of the fact that, not only is the railroad the great civilizing agent in Colorado, New Mexico, and Arizona—not to go beyond our boundaries—but that the character of the men employed by such a railroad as the Atchison, Topeka and Santa Fe and its branches and extensions, is a most important factor in the problem. Wherever the railroad goes it is attended by law, order and discipline, with the best habits; and the railroad men of that whole system are, as a rule, keen, brave, intelligent gentlemen, who have carried into that field of labor the best results of New England training, though many of the men are from that larger New England west of the Hudson."

REPORT on the LORNE HIGHLAND WHISKEY:

"We have visited the bottling stores of Greenlees Brothers, and have selected from the vats, samples of their Lorne Highland Whisky, and have subjected them to careful examination and analysis. The samples were very fragrant, mellow, and of pleasant flavor, and possessed all the characteristics of pure and well-matured Scotch Whisky of the first quality."

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"78 *E. 54th St., New York, May* 16, 1882.
MESSRS. J. C. AYER & Co.; Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.

GAS COOKING STOVES.

WE have made arrangements with the best makers of Gas Stoves in the United States, which we will be able to supply the public, at the lowest possible price.

We have also agreed with the Gas Company (for the purpose of introducing these Stoves), to sell the first fifteen (15) for which we may receive orders,

At their Net Cost,

LANDED HERE.

TESTIMONIALS.

The following are a few testimonials from a list of several hundred:—

The capacity of the Stove is surprising. With a No. 8 Stove we cooked for a party of seven, giving them broiled oysters, steak, lamb chops, and baked biscuit, in 45 minutes, at a cost for gas of 4½ cents. On another occasion we gave a dinner in courses of twenty men, the bill of fare as follows: Broiled shad, beef steak, roast quarter of lamb, baked biscuit and coffee; heating the water for washing the dishes four times, re-setting the table three times. All was accomplished in one hour and forty minutes, at an expense for gas of eleven cents. This work was all done on one No. 8 Stove. All were enthusiastic over the manner in which the oysters, fish and meats were cooked; none had experienced any so tender, juicy, and of such full flavor before. We consider the stove a great success, and most complete in all its parts and arrangements.

A. C. WOOD, Supt.

I bought one of your No. 12 Gas Cooking Stoves last September, for use in my restaurant, and have used it ever since for baking, broiling and stewing.

I can say for it that it is always ready and does its work rapidly; that there is no dust, no dirt, no surplus heat, as we are using only that portion that we need, and as soon as the article is cooked the gas is extinguished and there is no waste. I think it will do the same amount of work at less cost than coal, even at the high price of gas. It takes much less room than a coal range that would do the same work. I am perfectly satisfied with it and would not be without one for double the price.

J. T. HARKER.

The Gas Stove you sent me, I am glad to say has proved an entire success.

If my testimony is of any value to you, you are at liberty to use it. The decrease in the coal bill more than offsets the increase in the gas ditto. The cooking is excellent and uniform in its operation.

No dirt or dust irritates the careful housewife, and Mrs. S. describes it as a "real treasure."

In my humble opinion, any man who really wants to add to the number of allotted days of his better-half, had better invest in a Gas Stove and save her worry, and himself expense.

W. H. SEYMOUR.

We are perfectly delighted with our Gas Stove. It gives entire satisfaction in every respect.

MRS. M. PENNINGTON, 2103 Vine St.

Your favor of the 1st inst. was duly received asking my opinion of the Gas Cooking Stove bought last May, and in reply, would state that the satisfaction rendered by the stove was far beyond my expectations, and the work it will accomplish is marvelous, together with the small expense and comfort attending the same.

EDWIN A GARETT.

Having used one of your No. 7 Gas Cooking Stoves for a considerable time past, it is with pleasure that I bear testimony to its genuine merits.

It boils, bakes, broils, roasts, and in fact, does everything that a first class stove or range can do, and with a saving of time and labor, that can only be appreciated by those who use them.

It has given us the most entire satisfaction, and to use my wife's words, "I would not be without it for ten times the cost."

From statements of our gas meter taken, we find it *more economical* than coal.
