BAPTIST CHURCH.—The Baptist Church was well-filled at both services yesterday. In the morning, the Rev. Mr. Gordon preached a suggestive sermon on the subject of "Hope, its Benefits, its Language and its Basis." At the close of this service the ordinance of baptism was administered to four persons. In the evening the house was crowded. The students of Prince of Wales College, about 40 in number, attended in a body.

THE TUNNEL SCHEME, if brought to a successful issue, will be no doubt a great boon to P. E. Island. But as great a boon, and one that will and must come in the very near future, is free trade relations with our cousins across the border. Election times, people generally get excited. A remedy for this is to keep the blood cool by eating a stalk of celery once a day. This prescription is free. The celery is to be procured at Gays' stalls in the Market, at 10c per bunch. Price for large lots sent on application. Address J. J. Gay & Son, Pownal. mon th 41 pd

RESCUE ACCIDENT.—On Saturday morning about two o'clock, as Dr. Conroy and Rev. P. A. McElmeel were on their home from a sick call at South Shore, their horse eluded with a pile of ice, etc., thrown up by some laborers on Richmond Street, near the residence of Mr. Coyle, and taking fright ran away. The sleigh was upset and both gentlemen were thrown out. Dr. Conroy was hurt about the chest, and Father McElmeel was bruised somewhat about the body. The horse was also injured. Danger signals should be placed where such obstructions exist on the street, in order to guard against accident.

CONCERT.—Don't forget the St. Vincent de Paul Sewing Circle Concert in the Lyceum, on Wednesday evening next. An excellent programme is being prepared. Proceeds in aid of the poor. This organization has been doing a splendid work in the way of clothing the poor, regardless of denomination, and it is for the purpose of increasing their usefulness in this respect that the concert is to be held. This sewing circle is certainly deserving of encouragement, and we trust that the Lyceum will be thronged on Wednesday evening. Admission 15 cents; reserved seats 25 cents.

POLICE COURT.—The case of Arthur S. Johnson, druggist, charged with a first violation of the Canada Temperance Act, was concluded this morning, when His Honor gave a lengthy written judgment, for which we regret THE EXAMINER has not space today. The evidence in this case showed a sale of alcohol or spirits of wine in its ordinary medicinal strength of 65 over proof to a person who asked for it for medicinal purposes, saying he had a bad pain in his chest, but who, after getting it, became helplessly drunk. This sale was not recorded in a book which the Act says must be kept for such purpose. Mr. Johnson was accordingly fined \$50.

ONE drunk was fined \$2 or 8 days.

A Northwest Horoscope.

Winnipeg Free Press (Liberal.)

The Territories promise but little if any change in the personnel of their Parliamentary delegation.

In East Assiniboia Hon. Mr. Dewdney will likely be unopposed.

West Assiniboia will re-elect their clever and scholarly representative, Mr. Davin, by acclamation or otherwise.

Mr. McDowell will scarcely have opposition in Saskatchewan. He will be re-elected anyway.

Alberta and its present member, Mr. Davin, in this connection, are to us just now unknown quantities.

Here are the resume Winnipeg, unknown; Leger, R. as (Ind. Conservative); Provencher, La Riviere (Conservative); Marquette, Watson (Liberal); Selkirk, unknown; East Assiniboia, Dewdney (Conservative); West Assiniboia, Davin (Conservative); Alberta, unknown; Saskatchewan, McDowell (Conservative).

This is the horoscope.

Unrestricted Reciprocity

What the True Meaning of the Liberal Policy Is.

(St. John Gazette.)

First. The entire destruction of the wholesale trade of Canada, New York and Boston taking the imports which now come to Montreal, Toronto, Halifax and St. John.

Second. The loss at least of \$15,000,000 a year of Canadian revenue which must be made up by direct taxation. Of this taxation the county of St. John, with its 60,000 inhabitants, would have to pay \$180,000 annually.

Third. It would destroy forever St. John's chances of becoming the winter port of Canada for all the intrastate business of Canada would go to Portland, Boston and New York.

Fourth. St. John would cease to be an importing point for British goods, and the only ships that would ever come here would be the vessels engaged in the deal trade.

Fifth. The manufacturing industries of St. John would be ruined and the establishments which now furnish employment to thousands of people would be closed.

Sixth. As a result of this, property in St. John would decline to less than half its present value, for at least half our population would be obliged to leave the city for lack of employment. The factories of Massachusetts would obtain the business which our people had foolishly thrown away.

Lecture at Kelly's Cross.

A large audience assembled in the School Hall, on Thursday evening, 12th inst., when Mr. J. H. Haslam lectured under the auspices of the Kelly's Cross Debating Club, on "Success." The President of the Club, Mr. Jno. Bradley, occupied the chair.

Amongst those present, we noticed Messrs. D. Ferguson, Donald E. Cameron, D. McLeod and O. Wadman. The people of Kelly's Cross have always been noted for their good conduct at public meetings, and their attention on this occasion well repaid them, for the lecture was very instructive and full of good advice.

It is such to be regretted that the whole of this lecture was not delivered, but for what we did receive we are truly thankful. Mr. Haslam began by describing society as we find it at the present day. From this he passed to the great inventions and works of the present century; these he looked upon as success in its highest form, and pointed out how they have been accomplished. He also dwelt on the success of men who have risen from the lowest walks in life to the very highest positions in the land. Those he held up to all men as examples to imitate. To young men Mr. Haslam gave this very good advice, viz.: not to spend their leisure hours in those pleasures which physically and mentally ruin men; but on the contrary to devote their time to education, that great lever which raises all men to success, and judging by the fine physical appearance of the lecturer and by his excellent lecture, he at least has put his spare time to good use and consequently reaps his reward.

On motion of Mr. John Smith, seconded by Mr. John Bradley, a vote of thanks was unanimously passed and tendered to Mr. Haslam, which he suitably acknowledged.

The lecture being over, Mr. Ferguson was called upon by the people to address them on the political questions of the day. To this request Mr. Ferguson readily responded, and in an able and telling speech he set forth and defended the policy of the Conservative party. He clearly showed the tactics and miserable trickery of the Grits. He announced that he and Mr. Blake were going to contest Queens County in the interests of the Conservative party, and hoped that on election day the people of Kelly's Cross would give them their support, to which they heartily responded they would. Messrs. Cameron, McLeod, and Haslam also addressed the meeting.

DODD & ROGERS. Charlottetown, November 12, 1890.

Do the People Like to be Celled?

IF NOT, HOW IS IT THEY WILL PATRONIZE WORD COMPETITIONS? Why do they buy Shoddy for Cloth? Why do they send, in answer to a foreign newspaper advertisement, for a SOLID GOLD-PLATED CASE WATCH, with WALTHAM style movement, when they can get the GENUINE article at a less price than is often paid for the imitation.

Watches have been brought to us by the hundred from parties who have bought as above, and which no respectable Watchmaker could repair and guarantee. Glass for jewels, brass where steel ought to be, and iron for steel. They will g when carried. \$5.00 to \$25.00 is often paid for a Watch that is not literally worth more than the price of old metal.

Now there is no need or excuse to keep up such a trade, for the cheapest Watches made by the large American Watch Companies—the Waltham, the Elgin, the Rockford, the Hampden, the Columbus, and even the despised Waterbury—are far away ahead of the best of these imitation articles, and can be had in those days of perfected machinery at prices far below their actual value.
