Dr. John MacLean, Colingwood, Ontario, is the guest of his mother, Mrs. William MacLean, Montague.

Mr. Ray Dunn left yesterday on return to Hamilton, Ontario, on a brief visit with his parents in Summerville. On the return trip he was accompanied by his sister, Miss Mary Dunn.

Miss Barbara MacLeod left yesterday for her home in Cambridge, Mass., after spending the summer in Montague, guest of her aunt, Mrs. Callum Bruce.

SPECIAL SERVICE — Miss Anne MacEachern presided at a special missionary service in St. Andrew's Presbyterian Church, Montague, on Sunday morning. The guest speaker was Miss Mary Nichol of the Bhil Field, India. In the evening the guest speaker was Rev. C. D. Henderson of Appin, Ontario.

Mr. Arthur Ogar and daughter, Miss Virginia Ogar, have returned to their home in Brighton, Mass., after a pleasant visit to Montague and Victoria Cross, in Montague they were the guests of Mrs. Ogar's sisters, Misses Ann and Myrtle Campbell. It is thirty-eight years since Mrs. Ogar left Montague.

Mr. and Mrs. Carl Stewart and son Harold have returned to their home in Montague after a trip to Nova Scotia.

Mr. and Mrs. Edison Norton, O'Leary, accompanied by Mrs. E. S. Norton and Mr. Fred Norton, of Saint John, N.B., were visitors to Brudenell.

Miss Anna Power has returned to her home in Montague after spending her vacation in Queensport, Nova Scotia. On her return she was accompanied by her brother, Erskine, and their grand parents, Mr. and Mrs. Levi George of Queensport, who are the guests of Mr. and Mrs. Levi Power, Montague.

VISITOR FROM B. C. — Mr. John C. MacBeth and Mrs. MacBeth of Forest Hill, and Mr. MacBeth's brother Neil, of Fraser Valley, B. C., were visiting relatives in Montague, Iris and Hopefield this week. Mr. MacBeth is a building contractor in the Fraser Valley, and commented favorably on the climate and scenery found on the Island. Canada had two lovely places, he said, the Fraser Valley and Prince Edward Island, and it was a loss which was the better, but he added the climate and scenery vary in some degree to each other, but both are very lovely.

RECEPTION AT MILLTOWN — Mr. and Mrs. Duncan Bruce were tendered a reception at the home of Mr. and Mrs. James King, Milltown, on their return from their wedding trip last week. There was a large number of friends and neighbours present and the honouree guests were the recipients of many lovely gifts of chinaware and silver. A delicious supper was served by the hostess assisted by her sister, Mrs. Harvey Balcolin, and Mrs. Gardner Prime of Somerville, Mass. At the conclusion of the supper the bride was photographed cutting the beautifully decorated wedding cake which was made and decorated by Mrs. King. Later in the evening the home of the newlyweds was invaded by a large crowd of serenaders who received a generous treat of "sweets". Their many friends wish Mr. and Mrs. Bruce many years of happiness together.

PARTY AT MONTAGUE — Members and friends of the staff of Canada Packers Ltd., Charlottetown, were guests at the Bison Restaurant, Montague, recently, when they met to honor Mr. John Ronnell and extend to him best wishes in his chosen career. Miss Anna MacLaren, Montague, was piano accompanist for singing and dancing. A delicious supper was served by the efficient staff under the direction of Mrs. Clay, proprietress.

Mr. and Mrs. Kenneth Dewar and three children, of Summerside, were recent visitors at the home of Mr. and Mrs. William Dewar, Brudenell.

Mr. and Mrs. Alden MacLaren, Brudenell, recently had as their guests Mr. and Mrs. C. L. Boyer and daughter, Fernie, R.N., and son George, Charlottetown. Miss Fernie Boyer is a member of the staff of the Royal Victoria Hospital, Montreal.

Good wishes are being extended to Miss Vera Dewar, Brudenell, who intends to enter the P. E. I. Hospital as a student nurse this year; also to her brother Abner who is enrolling at Dalhousie University.

Mrs. Mary Carley, Washington, D.C., and Mr. James Corcoran of Three Rivers, Quebec, have returned to their respective homes after a brief visit with their brother, Mr. Thomas Corcoran, Baldwins Road, and their sister, Mrs. Harold Dunn, Summerside.

Address and Presentation

Under the auspices of the St. Andrew's sub-division of the Catholic Women's League, the people of St. Andrew's held a farewell party in the hall at Mount Stewart on the evening of August 27 for Albert Marshall Atkins and James Charles MacDonald who are about to enter a religious order. The hall was tastefully decorated for the occasion with mixed flowers and white streamers.

Alberta, who is the daughter of Mr. and Mrs. James Atkins, Mt. Stewart, will enter Mount St. Mary's as a novice of the Sisters of St. Martha.

Charles, who is the son of John A. and the late Mrs. McDonald (Allisary), has been accepted into the Oblate Order for priesthood. A pleasant evening was spent in music, dancing and singing.

During the evening Reverend Father McCormack as chairman called the gathering to order and made a few remarks suitable to the occasion. An address was read by Mrs. John McCormack and a gift of money presented to each by Mrs. D. L. Mullen, which was graciously acknowledged by the honouree guests. A delicious lunch was served by the ladies.

All joined in singing "For They Are Jolly Good Fellows", and "God Save the Queen" brought a very pleasant evening to a close.

To Miss Alberta Atkins and Mr. Charles MacDonald, Dear Alberta and Charles: The occasion which prompts our gathering here tonight is one which fills our hearts with feeling of mingled joy and sadness. It is always hard to part with those whom through pleasant associations, we have learned to respect and admire.

We cannot but rejoice, however, in the thought that you have the courage to heed the invitation of our Divine Lord to follow more closely in His footsteps. May He give you the grace to realize your noble aspirations, and may your example serve to inspire the youth of this parish with lofty ideals.

We shall miss you, Alberta, more than we can say. The splendid qualities which have endeared you to us—your piety, your cheerfulness, your generosity, and above all, your good, common sense—are the very ones which will make you a valued member of the Congregation of the Sisters of St. Martha. We shall eagerly follow your course at Mount St. Mary's and look forward to the day when, God willing, you will return to visit your native parish clothed in the religious garb.

Be proud, Charles, of the step you are about to take. Your wonderful qualities of heart and mind are well known to the people of this parish. Duzing your stu-

Addresses Ayrshire Breeders On Old Country Developments

The great preponderance of Ayrshire cattle under test by the Scottish Milk Records Association was one of the outstanding things noted by Mr. R. C. Parent, Superintendent of the Experimental Farm, during his recent European visit, he told the Ayrshire Breeders here at their annual field day.

During the year 1951 they had 120,000 cows under test from a total of 2,333 herds. Of the latter 1,315 herds were Ayrshires. The other herds, Mr. Parent said, were as follows: Holsteins 101, Guernsey 6, Jersey 18, Red Poll 6, Dairy Shorthorn 3. All of the above herds were fully pedigreed and grading up. There were also 884 herds of non-pedigreed and mixed. The above figures show that of the total herds tested approximately 58 per cent were Ayrshires.

Mr. Parent also told of spending three days visiting the Ayrshire herds of Lord Rowallan, A. Montgomerie and Sons and W. and J. Logan. He said that in all places the quality of the cattle was high. In the latter two herds he was shown cattle of the same breeding as the two bulls bought by Mr. Fred MacRae for the Preferred Ayrshire Club two years ago. He took pictures of the dam of Burton Duellist, the granddam of Dunduff Gilt Edge and other near relatives.

Noticeable Improvement During his talk to the breeders Mr. Parent noted the improvement in agriculture in the British Isles over the years prior to the war. He said this was caused by two things, Government guarantee of prices for several years in advance and better farming practices through Government aid and advice by research institutions.

He was told by Dr. Scott Watson, Whitehall, London, that the Holstein breed of cattle is gradually on the upgrade and in the beef breeds the Aberdeen Angus is the most popular. Grass silage is coming into favor there. At Wye College he saw a large horizontal silo with concrete sides in which was stored silage made of alfalfa and rye grass. A layer of ground limestone was used to seal the top. Molasses is recommended as a preservative whenever alfalfa forms a large percentage of the mixture.

At the Hurley Grassland Research Station Mr. Parent said much attention is given to alfalfa as a potential summer grazing crop. In that part of England it is used extensively in combination with grasses for hay pasture and

at St. Dunstan's, you were marked by both faculty and students as a man among men. We were not surprised, then, when we learned of your noble desires. May God direct your footsteps along the road to that great day when you "will go in unto the altar of God".

And now, as we bid you both farewell, we ask you to accept these small tokens of our esteem. In your prayers before God's Table mark the members of St. Andrew's Parish ever have a share.

At Hurley Station many experiments are in progress dealing with all phases of grassland management. Their activities are divided into five technical departments. Herbage agronomy which emphasizes the study of the comparative value of species, strains and genotypes in the whole range of potentially useful grasses and legumes. Animal agronomy in which the yield of swards and management practices are measured in terms of animal production.

Ley agronomy in which the effect of the sward on soil conditions and on the subsequent level of cropping is being studied. Bio-chemistry and Animal nutrition are concerned with fundamental problems of the chemistry nutritive values of grassland herbage. Plant physiology is the fifth study.

At Reading University Mr. Parent noticed a very fine herd of Wessex Saddleback sows and gilts all out on the clover and grass pasture. This pasturing of sows and gilts was also found in several other places where they firmly believe in using pasture as freely as possible for brood sows and sows suckling young.

Another point which struck Mr. Parent as interesting, he told his listeners, was the fact that at every one of the institutions he visited he found that all the cattle were dehorned. At Wye College, for instance, he noticed a fine herd of Ayrshires all dehorned and housed in a loose barn and milked in a milking parlor.

He also noted particularly the fact that a great number of the farms had paved barnyards and all were kept very neat and clean and the manure was carefully saved. He expressed the belief that farmers in Prince Edward Island, and in Canada in general, would gain a great deal if they paid more attention to the proper preservation and use of their barnyard manures.

WOLFVILLE, N. S. (CP)—The Maritime United Baptist convention concluded annual sessions here Sunday after approving plans for Maritime and provincial committees on Protestant-Roman Catholic relations.

Delegates said they were concerned over problems of Protestants in areas where they are a minority group. The convention endorsed a Sydney ministerial association petition asking Education Minister Henry Hicks to overrule a Sydney school board decision permitting use of public funds for separate schools in that city.

Support also was given a Campbellton, N. B. Protestant association resolution protesting that in some New Brunswick communities Protestant children are forced to attend Roman Catholic schools or none at all.

The Baptists recorded their opposition to any move by the Canadian government to establish diplomatic relations with the Vatican. Recommended for ordination to the ministry were George Morrison, Saint John, N. B.; William O'Grady, Halifax; Theodore Smith, Meductic, N. B.; Charles Taylor, Canning, N.S.; Hazen Parent, Fort Williams, N. S.; Kenneth Thompson, Tufts Cove, N. S.; Kenneth Hughes, Cambridge Station, N. B. and Lorne Matheson, Hatfield Point, N. B.

Other officers: Gerald Mitter, Moncton, vice-president; Jean Dunfield, Cornhill, N. B., secretary; Lois Hunt, Margaree, N. S., as assistant secretary; Andrew Keddy, Halifax, treasurer.

Talleyrand, the famed French ambassador who died in 1838, was crippled for life by a fall in a fancy.

Valleyfield W.M.S. Meeting

The Valleyfield W.M.S. met in the school room for their August meeting, the theme being "Untrodden Ways." Scripture readings were taken from Luke, Timothy, Acts and Mark. Hymn 383 was sung. A short prayer by each member followed and Mrs. Peter MacPhee led in prayer. Hymn 249 closed the worship period.

The business period opened with the minutes being read and approved, followed by roll call answered by 15 members and two visitors with a verse of scripture. The study book lesson was given by Mrs. John MacLeod. The topic was "Christian literature in Africa." This was very interesting, telling of the needs of the African people and how books are made available to help the leaders carry on their work. Miss Ann MacDonaid is to be in charge of the study book at the next meeting, and Mrs. Carman Rogers was appointed leader.

Mrs. Peter MacPhee told very briefly how their meetings were carried on in the United States. The Lord's Prayer closed the meeting, after which lunch was served by the ladies in charge.

Every one of the institutions he visited he found that all the cattle were dehorned. At Wye College, for instance, he noticed a fine herd of Ayrshires all dehorned and housed in a loose barn and milked in a milking parlor.

He also noted particularly the fact that a great number of the farms had paved barnyards and all were kept very neat and clean and the manure was carefully saved. He expressed the belief that farmers in Prince Edward Island, and in Canada in general, would gain a great deal if they paid more attention to the proper preservation and use of their barnyard manures.
