The Ottawa team for 1897 is selected from those who shot in the Ladies Challenge Cup Match, and their places are determined by their scores in the Ladies Match and the Grand Aggregate match. The D. R. A. silver medal is given to the highest aggregate and the bronze medal to the second highest. The highest twelve to form the team; vacancies to be filled in rotation. The sum of \$120 will be divided among the team on their departure for Ottawa. The following is the team for 1897, in order of merit:

Pte Samuel Gay, 2nd 82nd; Lieut J M Davison, Eng; Sgt J M Crockett, 4th 82nd; Lieut A Shaw, 6th 82; Lieut W A Johnstone, 5 C A; Capt Geo Crockett, 4th 82nd; Major W A Weeks, Eng; Sgt Major Baird, Corp G C Acorn, 1 C A; Lieut Ewen Stewart, 3 C A; Staff Sgt M Allen, 82nd; Capt H M Davison, 1st C A; Lieut Col Longworth, C A; Sgt R C Dewar 5th C A.

In the special aggregate match for the Governor General's medals, Private Samuel Gay, 2nd 82nd., and Lieut. W. A. Johnstone, 5th C. A., tie, each having made 169 points out of a possible 210.

The special aggregate medals go to those having made the highest and second highest individual scores in the Hodgson, Prowse and McKay matches. The tie will be decided by the executive committee.

Messrs. Haszard & Moore presented a beautiful set of Morocco-bound hair brushes and Morocco case valued at \$5.50 to the second highest score in the Ladies' Challenge Cup Match, which was won by Major W. A. Weeks.

HALIFAX SCHOOL FOR THE BLIND.

A Letter From the Superintendent—An Appeal to Those Who Have Sight.

DEAR MR. EDITOR.—A few weeks since when visiting the eastern portions of the province of Nova Scotia, I heard of a man who was deprived of sight; and being in search of all cases of partial or total blindness, I made arrangements to meet him, with a view to seeing whether the School for the Blind could in any way be of service to him. I found that the man was 38 years of age, that he had accidentally lost the sight of both eyes when he was 16 years old, and that for twenty-three years he had been sitting idly all day long, the monotony of his life being broken only by eating and sleeping. Physically and mentally, and I might say spiritually, the man had become a complete wreck. Ambition and hope for the future, and even the power of enjoyment of the present, had vanished out of his life, and I found that I had come to him too late and that his destiny on earth, at least, was a dull, monotonous existence.

For twenty-four years every effort has been made to make the School for the Blind known throughout the Maritime Provinces. Every available agency has been used to awaken the interest of the public in the education of those deprived of sight and to stimulate broad-minded and intelligent persons to co-operate with the school, and to bring all those for whose benefit it has been established within the scope of the privileges and blessings which it is fortunately able to offer; and yet in the provinces many blind children have been allowed to grow up in ignorance, and like the man referred to above, are now leading lives of helplessness and enforced idleness. Contrast the lives of the energetic, enthusiastic self helpful and self-supporting men and women who have graduated from this institution with the miserable monotonous lot of those who have not enjoyed its advantages, and then you will no longer wonder at the constant and unceasing efforts which have been and are being made to obtain information with respect to those who are totally blind or whose sight is so far impaired that they can no longer see to read.

Many persons express surprise that the parents or guardians of those who are partially or totally blind don't at once communicate with the superintendent of the School for the Blind at Halifax and secure for their children the free education which the school affords. But experience has proved that few parents will admit that their children are hopelessly blind, that the one central thought in the minds of such parents is the recovery of sight, and that owing to this oftentimes false hope and to indifference, the children are allowed to grow up and reach manhood and womanhood without any effort having been made to prepare them to lead useful lives.

I believe that each reader of this letter will admit that in this enlightened 19th Century, no totally or partially blind child who has average mental capacity, should be allowed to grow up in ignorance. I believe that each reader, is willing to do his or her best towards furthering the work of the school, and I believe that as an outcome of this letter, each district in the Maritime Provinces will be thoroughly searched, and that the report of each and every case of blindness existing will be forwarded to the Superintendent of the School for the Blind at Halifax.

Don't imagine, reader, that this can be done without effort upon your part. Unknown to you there may be a blind child in the chimney corner of a neighbor's house within a stone's throw of your own home. Blind children are, as a rule, hidden away, kept in the background out of sight, and it is only by careful and persistent inquiry that their whereabouts can be ascertained.

Trusting, Mr. Editor, that I may count upon the hearty co-operation of your readers, I remain,
Yours faithfully,
C. F. FRASER,
Superintendent.
