

THE DAILY EXAMINER.

OCTOBER 16, 1889.

The Vacant Chair.

Some of our contemporaries are already discussing the subject of the vacant chair in Prince of Wales College.

Granted that it has done excellent work in certain directions, and produced eminent scholars who have won distinction and prizes in other lands.

These are (1) the training of pupil-teachers, and (2) the department of science.

It is of the first importance that the teachers sent out from the Normal School into the country be well trained according to the best system of imparting knowledge.

It is of no less importance that young men who take a course in Prince of Wales College be well instructed in respect to the conditions of the world around them.

If the Government can find a teacher who combines in himself knowledge of the art of teaching with knowledge of the branches of science in which the people of this Province are particularly interested.

If such a teacher cannot be found, then they will do the next best thing when they secure one that is competent to give instruction in either of the branches which we have named.

The Patriot seems to be anxious lest the salary attached to the vacant chair should prove to be insufficient to attract to it a man of high attainments.

The Dominion Illustrated, for October 12, is a fine number. The faraway scenes in Western Manitoba are admirable and reveal in force the life and resources of the Prairie Province.

A Word in Season.

Nowadays when so much is being said about extraordinary sales of jewelry at reduced prices, the question is naturally asked: "Where can we really get the cheapest goods?"

Personal.

Mr. George Tweedy arrived last night from England. He brought with him a very fine shire horse.

Mr. William Tweedy returned home last evening after paying a flying visit to the principal cities of Canada and the United States.

When the hair shows signs of falling, begin at once to use Ayer's Hair Vigor. This preparation strengthens the scalp, promotes the growth of new hair, restores the natural color of gray and faded hair, and renders it soft, pliant, and glossy.

Gents' Beaver, Nap, Melton, Dooskin, Tweed and Worsted, Overcoats, Reifers, Cape U's on, all varieties, kept in stock.

If you want a Reifer for your boys, call and see James Paton & Co's stock.

Horse Notes.

The handsome carriage foal, owned by Mr. W. Nicholson, that was so much admired and took first prize at the King's County Exhibition, was sired by Capt. Jeff.

Constantine, the great two-year-old colt, by Wilkes Boy, dam by Mambrino Patchen, was sold a few days ago by T. C. Anglin, of Lexington, Ky., to W. H. Crawford for \$20,000.

Mr. McLeod's splendid stallion Hernando, 2891, has a grandson in the 230 list, his six year old son Good Luck, 6612, owned in Maccan, N. S., being the sire of Delight, that recently made a record of 2:23.

The three-year-old trotting record, 2:13 1/2, held by the California filly Sunol, was beaten at Terra Haute, Ind., on the 11th, by Axtell. The mile was made in 2:12.

The quarters were made in 33.1.05 1/2. Col. Conley, of Chicago, has since completed the purchase of Axtell, for \$105,000. It is supposed he represents a syndicate. This is the highest price ever paid for a horse.

The Belle Hamlin Harry Wilkes race was a battle between the two leading horse families of the United States, the Almonds and the Wilkes. Belle Hamlin represents the Almonds and Harry Wilkes the Wilkes family.

Carbine, a New Zealand race horse that has demonstrated his greatness in races, and that is now champion of Australia, is to be sent to England. He is a son of the English horse Musket, and will be placed in the stud on arriving in the land of his sire.

Says the Halifax Recorder: Conductor Jno. Coffey, of Moncton, is the owner of the handsomest team in the provinces. They are boys, full brothers, sired by All Right, 16 hands high.

Edwin C., a pacer that has been winning some races in California lately, making a record of 2:13 1/2, is by a son of the trotting stallion Gen. Benton, and his dam is the trotter Venture that made a record of 2:27 1/2 twelve years ago.

The Australian stallion Sir Modred, imported to the United States three years ago by J. B. Haggin of California, is proving a marked success as a sire, and as a result of what his first crop of foals in that country have done during the present season we may expect to see other horses brought to America from the antipodes.

At the recent meeting on the Fredericton Trotting Park, a very hot racing contest was that between the two-year-olds, Sheriff Sterling's Belle Clay, by Hernando, dam by Al Right, and J. C. M'hoon's (Truro) Emma F., by All Right, dam by Hernando.

Nina D., that made a record of 2:26 1/2 in California not long ago, is by Nutwood and out of the old mare Adelaide, 2:19 1/2, that died recently. Dan De Noyelles, who owned Adelaide for many years and who is a practical horseman, thinks that the way to get trotters is to breed mares with fast records to horses troubled the same way.

English papers say that M. Lupin, the French turfman, refused a cash offer of \$800,000 for Gaius, the horse being wanted by South American parties. There is one thing about the spots at the equator, and that is when they want a horse the price will not stop them, no matter whether the animal be a runner or trotter.
