Sheriff McQueen is in communication with the Minister of Justice in regard to removing the girl to the asylum, there being no doubt but that she is insane.—Moncton Times.

ELECTRIC LIGHTING.—How extensive the practice of electric lighting in America has become is shown by the fact that statistics of the cost in 174 cities of the republic and dominion are quoted. Deane, of Edinburgh, Scotland, acknowledged premier ventriloquist of the world, will open a season's engagement at Lyceum Hall on Friday evening this week. A WAY THEY HAVE.—A band of "White Caps" made a raid on Friday night in the country back of New Albany, Ind. They visited the house of a Mrs. Jones, a widow woman, and whipped soundly her three boys, because they would not work but left their mother to support the family. Then they visited Wm. Wright, a lawyer from Leavenworth, who had been paying attentions to Mrs. Jones' daughter. They threatened him with tar and feathers unless he left for home within half an hour. He went at once.

A POWERFUL WARSHIP.—The latest British ironclad, the Nile, is the most powerful of all the splendid fleet. The Nile is 345 feet long, 37 broad, and 27 feet draught. Her displacement is 11,640 tons and the horse-power of her engines 12,000. She will carry 900 tons coal, can steam 19 miles an hour, and at moderate speed can steam 6,000 miles without replenishing her fuel. Clad in steel armor from 14 to 20 inches in thickness, armed with four 67 ton guns in her turrets, and 22 smaller, quickfiring guns, the Nile can discharge simultaneously 5,649 lbs. of shot, and can stand unharmed against any but the very heaviest guns in the most expensive ship ever constructed, costing \$5,000,000. There are no further ironclads now building for the British navy.

LIQUOR DEALERS ORGANIZE.—At a meeting of liquor dealers held in St. John, N. B., it was decided to form a Maritime Union for the better protection of their interests. Delegates were present from Halifax and Prince Edward Island, and there was much enthusiasm over the result of the Scott Act repeal elections in Ontario. The St. John wholesale dealers have decided not to take out licenses under the new act, and retail men have formed a combine to compel the mayor to issue the total number of licenses provided for by the act, irrespective of ward boundaries. As the case now stands, there are not enough applications in some wards to fill the lawful number, while in other wards there is a surplus. The act gives the Mayor power to transfer from one district to another, but fixes the limit in each district.

Death of Hon. Thos. White.

AN AFFECTING SCENE

THE SORROW OF SIR JOHN.

Eloquent Speeches by Langevin and Laurier.

SUPPLEMENTARY ESTIMATES.

Changes in the Tariff Bill.

OTTAWA, April 23.

One of the most affecting scenes ever witnessed in the Canadian Parliament took place on the assembling of the House of Commons this afternoon.

Sir John Macdonald rose to move the adjournment of the House, but so overcome was he with emotion, that he was unable to say a word, and after standing silent for more than a minute, sank into his chair sobbing and crying like a child.

Sir Hector Langevin then rose and moved that in view of the death of Hon. Thomas White the House adjourn and stand adjourned till Wednesday afternoon. He referred briefly to the immense loss the Government, the House and the whole country has sustained in Mr. White's death, and paid a high tribute to the deceased gentleman's ability and urbanity, his clearness of perception as well as his remarkable industry and carefulness.

Hon. Mr. Laurier seconded the motion in a brief but eloquent address in which he referred in touching terms to the sympathy the House felt with the venerable Premier in the loss of an able lieutenant and warm-hearted personal friend.

The House then adjourned till Wednesday. During the speeches a large number on both sides of the House were moved to tears, and old members say they never saw the House so generally and profoundly impressed over the death of a fellow-member.

The supplementary estimates for the current fiscal year were laid on the table this afternoon. They amount to \$1,794,000, of which \$458,000 are chargeable to capital, \$98,000 to the Northwest rebellion and \$125,000 for unprovided items vide Auditor-General's report.

Sir Charles Tupper gives notice to amend the customs act by omitting coal and coke from the list of articles which are prepared to make free when the United States make them free and to repeal section 10 of chapter 33 of the Revised Statutes of Canada, which is as follows:—If at any time any greater duty of Customs is payable in the United States of America on tea or coffee imported from Canada than on tea or coffee imported from any other country, the Governor-in-Council may impose on tea or coffee imported into Canada from the United States an additional duty of customs equal to the duty payable in the United States on tea or coffee imported from Canada, provided that tea or coffee imported into Canada from any other country but the United States, shall be taken and rated as a direct importation from the country in which the tea or coffee was purchased.

HALIFAX NEWS.

THE PREPPER CASE.

IMMIGRANTS.

BISHOP COURTNEY.

HALIFAX, April 23.

The argument for a new trial for Prepper was continued to-day. Mr. Weeks for the Crown contended that the defence should have waited until sentence had been passed. The judge has instructed the Attorney-General to proceed against the constable who made the affidavit detailing what the jurors said in their private room, and against the men who spoke to the jury on the street.

The last weekly mail steamer arrived at 9 this a. m., and brought 1144 passengers, of which 300 were immigrants for the Northwest. Two hundred and eleven children for Mrs. Ryes home came also.

THE FATHERLAND.

Our Queen's Visit—Health of the Emperor.

BERLIN, April 23.

Most of the papers here welcome Queen Victoria. The Post says the nation offers a quite yet respectful homage to the Sovereign of a great friendly state, who came to visit the sick bed of our suffering Emperor. The Emperor's general condition is satisfactory. He lay on a sofa this evening. The discharge from the throat was copious. Sometimes some matter drops downward, causing a cough. The swelling of the glands has decreased. During the day he spoke cheerfully to the doctor. This afternoon he had a conference with Bismarck, lasting one hour and a half.

BERLIN, April 23.

The Emperor continues to improve. His fever is decreasing.

IMPERIAL MEETING.

Victoria and Francis Joseph.

LONDON, April 23.

Queen Victoria arrived at Innsbruck to-day on her way from Florence to Berlin. The Emperor Francis Joseph, attired in the uniform of a field-marshal, met Her Majesty at the station. The greeting between the two sovereigns was cordial. In deference to the wishes of Her Majesty the authorities will give her an official reception upon her arrival at Charlottenburg at 9 a. m. to-morrow.

Musselmans vs. Christians.

CONSTANTINOPLE, April 23.

An affray occurred between Turks and Christians at Khania. One Christian was killed and his body mutilated. One Turk was wounded. Five hundred Musselmans threatened the Governor and Christian inhabitants. Ten of the ringleaders were arrested and quiet restored.

Navigation Open.

POINT DU CHENE, April 23.

Yesterday's wind cleared the ice out of this harbor and none can be seen from here. Reports from Summerside say the harbor is pretty clear inside, but considerable ice outside. This will probably go by the tides and first easterly winds.

Protecting Naval Labor.

WASHINGTON, April 23.

The President has written a letter to the United States District Attorney for the district of Massachusetts, to proceed against owners and masters of fishing vessels who imported foreign labor for use on their craft.

Weather Bulletin.

TORONTO, April 24—10 a. m.

Fresh to strong winds, shifting to north westerly cloudy with snow and rain clearing this evening.

THE SEAL FISHERY.—It is stated that the steamer Neptune has recently landed at St. John's 32,242 seals, the largest catch ever brought into that port by one steamer.

G. M. Harris sells the lease of Mrs. Bevan's property by auction to-morrow at 12 o'clock.

GETTING THE SAQUE.—A fashion paper says that sealskin saques are rapidly going out of fashion. It is probable that by July not a sealskin saque will be seen on the streets.

G. M. Harris received instructions from Mrs. Grey to sell by auction at her residence "Inkerman House" all her household furniture. Sale will take place about the middle of May. Catalogue will appear in due time.

SOME POTATOES.—Since September last 26,000 bushels of potatoes have been sent from Amherst station by rail. Nearly all went to Boston, the remainder going to Halifax. Picton shipments this year amount to 20,000 bushels.

The Vancouver, B. C., council has received notification of the acceptance of the proposition of the city by London capitalists for the erection of a smelter here, the city giving a bonus of \$25,000. The smelter is to treat fifty tons of ore a day and will be built immediately at a cost of \$75,000 or 100,000. The company building it has secured mines sufficient to supply a smelter without buying any ore and will enlarge the works as the ore offered for sale increases. The smelter will supply a want long felt.
