LEARN YOUR BUSINESS THOROUGHLY.

Young men or lads are sometimes discouraged at the prospect of long drudgery to a trade. They are not used to, and they appear unable to understand the discipline of method and of patience. Some of the brighter ones will revolt at what they call the waste of time spent in simple or uninteresting work; others despond because they feel themselves mentally slow compared with the "bright boys," and because they feel that all the good opportunities will be snatched up by those who are energetic. Let them take courage, and let them watch their opportunities. Many a man who has made a great name in the world has been a Scotch boy, "hand-deen doon" when he was young.

HOCKEY MATCHES LAST NIGHT.

The Senior Abegweits and Junior Victorias Each Win a Game.

The stormy weather of last evening interfered very materially with the attendance at the rink. But those who did attend were treated to two very interesting games of hockey.

The Abegweits first team won from the first Victorias by two points, and the second Victorias won from the second Abegweits by three points. Dr. H. D. Johnson made an excellent referee.

The match between the senior teams was the feature of the evening. Up to that time the game was a very close one, the Vics leading by one point, and the Victorias by two points, and the Victorias played the same team that went up against the Summersiders excepting that R. E. Smith played goal instead of W. Prowse. The Abegweits defended the northern goal and the Vics the southern. At twenty minutes after eight the referee's whistle sounded and the teams lined up. Robinson and Flood "faced off." After about ten minutes play Howatt shot the first goal of the evening for the Abegweits. Up to that time the game was playing a fast game. After this goal was taken, however, the Vics lived up, and made a big effort to even up matters. This they did about ten minutes later when McLeasie lifted the puck from cover and sent it flying between the Abegweits goal posts. The teams were now equal, and the play raged faster than ever. But for the remainder of the half neither side scored.

In the second half the Abegweits put up a more vigorous game, and their opponents were allowed to score but once. The Abegweits made two goals in this half, Howatt and Unsworth doing the work. Pickard scored for the Victorias. The score: Abegweits, 4; Victorias, 2.

The second team's line out as follows: VICTORIANS. Goal—B. C. Prowse. Point—John Collings. Cover Point—Clever Sullivan. Forwards—H. Mabon, W. Collings, J. Hyndman, W. McDonald.

ABEGWEITS. Goal—Art. Gaudet. Point—O. Wood. Cover Point—J. Birch. Forwards—W. McLeod, C. Beer, B. McQuillin, J. Praught.

The Vics had things pretty much their own way in the first half, and when half time was called they had seven goals to their credit while the Abegweits had three. Macdonald and Hyndman each shot three goals for the Victorias and Mabon one. McQuillin made two goals for the Abegweits and Praught one.

In the second half some changes were made in the positions of the Abegweits. Praught played point and Beer cover point, Birch and Wood playing in the forwards. The Abegweits scored twice in this half to their opponents once, the goal being captured by Wood and McLeod. Macdonald scored for the Vics. The score: Victorias 2; Abegweits, 5.

In the second half of the game between the senior teams McMillan had his lip badly cut, and Willie McLeod took his place. In the last half of the game between the second teams Mabon sprained his ankle and Bruce Wright played for him.

After the match Lorne Unsworth entertained the Abegweits at his home.

AT YORK.

A meeting of the Farmers and Dairymen Association was held on the 17th, and in reply to an invitation quite a number of the members of the Marshfield Association joined with us in the discussion of different subjects interesting to the farmers.

Mr. Roderick Munn spoke of a meeting to be held in Charlottetown on Monday next for the purpose of discussing the subject of dairying for the coming season, and Mr. A. Brown was appointed a delegate to attend that meeting.

The different questions came up in regard to the dairy business, binder twine, phosphate, etc. After a lively discussion we concluded this could be done to great advantage to the farmers.

Mr. Wm. Thompson recited a very appropriate poem for the occasion, entitled "The Farmers of Prince Edward Island."

Mr. George Vessey made a few remarks in regard to dairying and hog raising as the most profitable mode of farming at the present time. He is very much in favor of winter dairying. He stated that the old style of farming has exploded.

To a close a very enjoyable time was spent treating visiting friends to a cup of coffee and other good things provided for the occasion. Then all separated after singing "God Save the Queen."

New York people who read the SUNDAY HERALD saw in its Christmas edition a feature which elicited comment. An advertisement in colors covered two pages, as well as the margin between them. It was an announcement of the great department store of the Siegel-Cooper Company, and was the largest advertisement printed in colors that ever appeared in any publication. Undoubtedly it branded the name of the concern on the minds of many people, especially such as advertiser pays for such an announcement was in excess of 400,000 copies. The cost to the Siegel-Cooper Company was only \$5,000, or one cent and a quarter for each copy. What appeared at first as extravagant outlay settles itself into an advertising investment cheap and excellent at the price.

The ordinary reader is apt to consider only the price, without reference to distribution or circulation. The Siegel-Cooper advertisement, while in fact it is twice as dear. It is a knowledge of these things that marks the difference between the expert advertiser and the amateur, and makes it profitable for a beginner in advertising to consult some one who has made advertising the study of a lifetime.
