

of this Act or of any Regulations made under it shall constitute a separate offence, and may be punished accordingly.

Further, Section 16, sub-section 4, inculcates that "all materials, implements or appliances used shall be confiscated to Her Majesty." This necessarily includes boats, traps, boilers, tables, everything yet open to my mind whether the Government officers have or have not the power to seize and shut up and label for condemnation any factory habitually used for purposes of illegal manufacture.

Laws, however, are meant to be repressive, not vindictive, and no greater exercise of authority should be made than what will serve for repression. My orders from the Hon. the Minister are that while performing my duties as Fishery Magistrate strictly, to carefully distinguish between strictness and tyranny.

In this case Mr. Sawyer appears himself to have given orders to keep within the Regulations; but an infringement by having "in possession," having been definitely proved to the extent of ten—say five—illegal lobsters, which number, only, complainant can swear that he actually counted of the large quantity he saw on the table, I have to impose the full penalty of \$20 each, namely one hundred dollars penalty with costs of prosecution, which penalty must be paid into court to-day in cash, certified cheque, or other security, in name of the Receiver General.

It is further my duty to mention that when the requirements of this decision have been complied with, an appeal lies to the Minister of Marine and Fisheries, within four days, as specified in the amendment to the Act regulating the action of Justices of the Peace out of session.

CRICKET.

THE unexpected victory of the Crescent Cricket Club, on Saturday, has given a new turn to affairs in our little world of cricket. It seems that our friends of the Phoenix Club imagined that there was no Club on the Island fit to match with them. Like many other vain persons they were doomed to disappointment by those whom they vainly thought unfit to cope with them. But they are, we believe, too plucky to accept defeat after one, or even a number of trials; and so we may anticipate a lively cricket season.

It is worthy of remark that the batsman who carried off the honors on Saturday had previously read and profited by the article on crickets which was published in the EXAMINER a few days ago. Moral: read the EXAMINER!

The Attacks of Insects.

FARMERS are often at their wits' end how to defend their crops from the attacks of insect which prey upon the plants. A correspondent writing to a contemporary, suggests a remedy which he has practically tested. For some years he has used some peat charcoal in sowing every kind of seed, with the most absolute success in every case, and in the foulest soil. As to the turnip and mangold, the application of this material causes the seeding plant to rush up into the broad leaf so rapidly that the fly can never touch it. Hence a crop is insured without any second sowing. The attacks of the slug, the wireworm, the onion maggot, and turnip fly are futile where peat charcoal has been sown with the seed or sprinkled over the young growing plant. The writer referred to has such an exalted notion of the value of this material and its wonderful preserving powers, that he looks upon peat charcoal as one of the greatest boons ever conferred on farmers and gardeners who use it.

Salmon Fishing.

THE Commissioner of Fisheries has issued a circular to the fishery officers in Quebec and New Brunswick, instructing them how to act in the event of persons fishing for salmon beyond tidal water under titles to Riparian lands, which are assumed to convey inclusive fishing privileges. He quotes the following regulation:—"Fishing for salmon in the Dominion of Canada, excepting under the authority of Leases or Licenses from the Department of Marine and Fisheries, is hereby prohibited."

And remarks: "This regulation was passed under the provisions of the nineteenth section of the Fisheries Act 31 Vic., Cap. 60, any doubts with respect to the legality of which are set at rest by the judgment of the Court of Exchequer in the case above mentioned. Therefore, all persons unlawfully fishing without a lease or license, as required under the Statute, will be liable to interruption and fine, together with the seizure and forfeiture of fishing materials, boats, &c., no used, and of salmon so illegally caught."

The following figures relating to bankruptcy in Canada will be interesting reading in view of the loud lamentations of the Grid party over the "failure" of the National policy:—

Table with 2 columns: Bankruptcies and Liabilities. Rows show data for 1874, 1875, 1876, 1877, 1878, 1879, 1880.

This shows that the liabilities of insolvents in 1880 were only about one-third what they were in 1878. It may be said, "Look at 1879." Well, the National Policy was only in force for 9 months of 1879, and the great proportion of the failures of 1879 were in the first quarter of the year.—Hx. Herald.

Meeting in Market Hall.

The Water Works Question.

A requisition having been sent to His Worship the Mayor by a number of the citizens, in accordance with a resolution passed on Saturday evening at a meeting of the rate-payers of Ward 4, His Worship convened a meeting of the citizens on Monday evening, 13th instant, at 6 o'clock. At the time appointed His Worship opened the meeting, and after making a few remarks called upon the meeting to appoint a chairman. Mr. John Jury was appointed chairman and the undersigned secretary.

Moved by John Brecken, Esq., and seconded by James Curtis, Esq.—Resolved, That it is the opinion of this meeting that the introduction of Water Works into this city at the present time when the industries of the place are almost helplessly crushed by the burdens of taxation, is not only oppressive to the best interests of the citizens, but will ultimately lead to the financial ruin of the city, and that an engagement or contract whatever should be entered into by the City Council for the construction of such works until the question is first submitted to the taxpayers at the polls. Carried unanimously.

Moved by Charles Hertz, Esq., seconded by Capt. John Hughes—Resolved, That while we as Citizens under ordinary circumstances would be unwilling to question the legality of the City Council, yet in the introduction of water works in opposition to the wishes of the citizens, we are necessitated to state that as at present constituted, we will not recognize any contract, entered into by the City Council for that purpose as legal or binding upon the corporation. Carried unanimously.

Moved by Henry Lawson, Esq., seconded by J. P. Tanton, Esq.—Resolved, That a committee of six members of this meeting be appointed to wait upon His Worship the Mayor and City Council, and request them to favor the meeting with their presence and state their views and intention relative to the water question. Carried unanimously.

The following committee, viz., Messrs. Henry Hooper, James Curtis, Matthew Stevenson, George W. Millner, Capt. John Hughes, and Henry C. Douse, waited upon the Mayor and City Council, and received this reply: "We decline to come."

Moved by James Phillips and seconded by William Ladner, Esq.—Resolved, That whereas this meeting, having first by advertisement then by deputation requested His Worship the Mayor and City Council to favor it with their presence and to state their views, and intentions on the contemplated water scheme, and having received the reply, viz., "we decline to come."

Therefore resolved, That the present City Council is no longer the representatives of the citizens, and we hereby request them to resign their seats and test the water question at the polls. Carried unanimously.

Resolved, That a report of this meeting be sent to the DAILY EXAMINER and Daily Patriot for publication.

Mr. Jas. Curtis was called to the chair and a vote of thanks was then tendered to the Chairman.

Meeting then adjourned, JAMES PHILLIPS, Sec'y.

Cheese Factory and Creamery.

ACCORDING to a notice, a meeting was convened in the Mill View School room on Wednesday, 8th inst., for the purpose of negotiating with parties willing to undertake the establishment of a cheese factory and creamery in this place.

Geo. O'Neill, Esq., was appointed to the chair.

Senator Carvell and Fenton T. Newbery, Esq., being present, addressed the meeting, explaining the operating of cheese factories in other countries they had visited, giving a glowing account of the prosperity attending districts they had seen abroad, where farmers who were in poor circumstances, became prosperous and in many cases rich as a consequence of cheese factories being established in their neighborhood. They remarked that in all the places they had visited they had seen no place more adapted to undertakings of the kind than this Island. Those gentlemen gave an incalculable amount of valuable information, for which the farmers of this vicinity feel deeply indebted.

After considerable discussion on the subject by several gentlemen present, P. M. Bourke, Esq., stated that he and a company would undertake to establish and operate a Cheese Factory and Creamery in this place, and pay no less than seven cents nor more than eight cents per gallon for the milk, providing they obtained a sufficient number of cows for that purpose.

This offer seemed acceptable to the farmers, and the meeting was adjourned until Wednesday, the 22nd inst., at the hour of four o'clock, p. m., for the further hearing of the said P. M. Bourke & Co's offer in full, and close negotiations concerning the same.

Messrs. Carvell and Newbery having left before the close of the meeting, it was unanimously passed that the thanks of this meeting be tendered them through this medium for their attendance and the valuable information imparted by them.

After a vote of thanks to the Chairman, the meeting dispersed. J. R. BOURKE, jr., Mill View, June 8, 1878. Sec'y.

Murder Will Out.

A few years ago "August Flower" was discovered to be a certain cure for Dyspepsia and Liver Complaint, a few thin dyspeptics made known to their friends how easily and quickly they had been cured by its use. The great merits of Green's August Flower became heralded through the country by one sufferer to another, until, without advertising, its sale has become immense. Druggists in every town in the United States are selling it. No person suffering with Sour Stomach, Sick Headache, Costiveness, palpitation of the Heart, Indigestion, low spirits, etc., can take three doses without relief. Go to your Druggist and get a bottle for 75 cents and try it. Sample bottles 10 cents.

Supreme Court—Prince Co.

SUMMERSIDE, JUNE 14. The June Term of the Supreme Court opened here this morning. Chief Justice Palmer presiding, and an unusually large number of the bar in attendance. After the usual proclamations the following gentlemen were sworn in as Grand Jurors:—

Arthur Irving, foreman, Cape Traverse; John F. Holland, Baddeck; James Webber, Lot 6; Thomas Clark, Lot 3; Thomas E. Ramsay, Lot 17; John Auld, Lot 8; Nelson Clark, Cape Traverse; Thomas Crabb, Lot 17; U. G. Trudell, Egmont Bay; Murdoch Ross, Lot 25; Roderick McLean, Lot 16; Daniel H. McDonald, Lot 25; Maurice Galant, Lot 1; Peter McRae, Baddeck; Robert Price, Lot 27; Isaac Wright, Carleton; William A. Leard, McCallum's Point; Louis Green, Summerside.

The Chief Justice then delivered his charge to the jury, and they are now in session considering the criminal matters.

On motion of Mr. Hodgson, Q. C., Francis J. Conroy was duly admitted and enrolled as a Barrister of the Court.

William G. Strong, Esq., the High Sheriff, was returned by the late Sheriff as a member of the Grand Jury, but, as of course, relieved by the Court from attendance as his duties as Sheriff required his constant presence in Court.

There are 23 Jury cases docketed, and many of them are very important. The Court will likely last a fortnight. One slander case alone has over thirty witnesses subpoenaed for the plaintiff's side. There are nine appeals.

The criminal calendar is eight, and consists only of a few petty larcenies; but nearly all the culprits have relieved the court of much trouble and the country of some expense by going into voluntary exile.

Local and Other Items.

SENATOR HOWLAN and wife are at the Rankin.

MR. O'BRIEN, R. C. A., is in Halifax, making preparations for the Academy exhibition.

NOMINATION took place in Pictou and Truro on Saturday. As usual, both sides say they are sure to win.

BEST of Sir John McDonald, Hon. Messrs. Blake and McKenzie, to be had at the Family Grocery.—R. K. BRACE. 114

The examination at the Model School commences at 10 o'clock to-morrow. Parents and friends of the pupils are requested to attend.

The case of the alleged murderers of the late Sultan Abdul Aziz has been referred to the Turkish Minister of Justice with a view to bringing up the accused for trial.

A SUCCESSFUL ISLAND STUDENT at THE UNIVERSITY of EDINBURGH.—We are pleased to see that our esteemed fellow-citizen, L. W. Watson, at the April examination of the Edinburgh University, has taken first-class honors in anatomy—not second-class, as stated in King's College "Record."

DURING the visit of the Governor General, in July, a regatta under the auspices of the Royal Nova Scotia Yacht Squadron will be held in Halifax harbor. The programme comprises races for schooners, fishing boats, single and double sculls, men-of-war's boats, boats manned by soldiers, gigs, wharries and flats, canoes, etc.

MORRISSEY'S FOUNDRY and MACHINE SHOP. This very valuable property situated at the east end of Kent Street, and admirably located and arranged for foundry or factory purposes, will be sold to-morrow on the premises by Mr. Dodd, the auctioneer. This sale presents a splendid opportunity to an enterprising man to secure a valuable factory property. Sale positive to close the estate, and to commence at 12 o'clock sharp.

AN Ottawa telegram to the Toronto Mail says:—"Mr. Wallace W. McLeod, the newly appointed post office inspector for Manitoba, arrived at Ottawa on Wednesday evening with his wife and family from Prince Edward Island, where he has been post-office inspector for a number of years. He will remain at the capital for a day or two, to receive instructions from the Post-office Department, when he will leave for his new field of labor."

THE HOLMAN OPERA COMPANY opened last night at the Academy of Music, and at the expiration of the opera it was pronounced by one and all the finest evening's amusement ever given a Charlottetown audience. The house was splendid and comprised some of our best musical critics, who judging from the uproarious applause and enthusiasm shown, found the entire Company a grand success.

A correspondent furnishes a very good criticism of the singing of the leading members of the Company; and as our space is limited we shall simply say that we endorse all that he has said in their favor, and strongly recommend our citizens to go to-night and judge for themselves. The costumes were fine, the choruses grandly rendered, and the effect of colored lights thrown on the characters, finer than ever before witnessed in Charlottetown.

Mrs. Holman, a pianist of great ability presided at the piano. To-night the Company do "La Fille de Madame Angot," and we expect from the impression made last evening, the house will be crowded. Everybody should see and hear them during the opera of "Madame Angot."

A Good Account.

"To sum it up, six long years of bed-ridden sickness and suffering, costing \$200 per year, total \$1,200—all which was stopped by three bottles of Hop Bitters taken by my wife, who has done her own housework for a year since, without the loss of a day, and I want everybody to know it for their benefit."

Civic Taxation.

LETTER FROM JUDGE ALLEY. To the Editor of the Examiner. SIR,—On certain personal grounds which I am fully prepared to establish all the proper time and place, I have found it necessary to appeal from the civic taxes imposed on me. This is a right accorded by law to every citizen. But it appears that its exercise on my part has afforded some cowardly and contemptible fellow an opportunity of indulging in maliciously false innuendoes respecting my motives, in a letter published in your paper, which he had not the courage to subscribe with his own name.

I have no intention to engage in a newspaper discussion on this subject with any anonymous scribbler, as no well founded conclusion with regard to it could be reached in that way.

The letter affords some idea of the malignities of its author, and the public will be enabled to judge of his honesty when they are made aware of his name.

I am quite prepared to explain and justify the course I have taken at the proper time and place, and will only remark that while I am prepared to pay all just taxes imposed on me, I am not disposed to submit to exactions which I have good reason to consider unjust and illegal.

It is a well-known fact which I believe the Council are cognizant, that grave objections exist as to the legality of the Income Tax, and to my mind the extraordinary valuations of the Assessors can only be accounted for on the assumption that they could never have seriously expected the tax to be paid. Before I had given notice of the appeal, I suggested to the Mayor to submit all the objections to the assessment to the Supreme Court for decision in the form of a special case in the interest of the citizens generally. He seemed disposed to adopt this suggestion, and promised to see the Recorder on the subject, but the matter has not yet been formally assented to by the Council. As my right of appeal expired on the day of our conversation, I served the notice in order that my legal rights might not be forfeited in case the Council should not agree to test the validity of the assessment in this way.

Yours, &c., GEO. ALLEY.

The Entertainment Last Evening.

DEAR SIR,—Being one of the favored ones who had the great pleasure of witnessing the performance of "Olivette" by the Holman Opera Company, in the Academy of Music, last evening, I may state that the audience, as well as myself, were greatly delighted with the performance. The singing and acting, as well as the costumes, were excellent, and reflect great credit on the Company. Miss Sallie Holman is a charming singer, and will, I am sure, be a great favorite with the Charlottetownians. Miss Blanche Bradshaw sang and acted her part as the Countess admirably. She ought to use greater care in taking her high notes, as she invariably sings them sharp, particularly her F's and G's. Her very high notes are good. Not one fault can be found with the fine singing of Mr. Redstone. He is a true artist. Mr. Dalton delighted the audience with his singing and acting. Mr. Holman and all the other members of the Company did well. I would like to hear the words spoken more distinctly in the choruses. The piano accompaniments were far too loud in the solos, and that incessant thumping of the air continually, impaired the effect of the beautiful solos, so well sung by Miss Holman, Miss Bradshaw, Messrs. Redstone, Dalton and Holman. To such singers as these, all that is needed is a well-played accompaniment, and not to have the notes of the treble hammered after them all the time, drowning their excellent voices. The pianist should or ought to know that when a singer makes a crescendo or crescendo that he or she ought to do the same. To-night I am glad to hear Madame Angot is to be given. To any person, male or female, who has a note of music in his or her soul, I say go and enjoy a rich and rare musical treat.

Yours, &c., PRESTO.
