

### ON FIRST DAY OF HOLIDAYS

Landing this three and three quarter pound sea trout on the first day of his summer vacation was the unusual experience of Basil Gallant, Rustico, (right). A son of Mr. and Mrs. Alyre Gallant, general merchant, North Rustico, the 20-year-old youth had been released from his first

Large selection fresh and cured meats, poultry and fish.

### Annual Meeting Held Of The Montague Curling Club

Mr. R.R. Beck, Montague was elected president of the Montague Curling Club for the 1958-9 term at the annual meeting held at the Curling Club on Thursday night. Mr. Athol Robertson was elected first vice-president, Mr. Homer Moar second vice and Mr. H.M. Smith was re-elected secretary treasurer for the seventh term.  
The meeting was presided over by the retiring president, G. Ar. Aid Wightman, who in his report expressed the opinion that it had been a successful year. He called on the committee chairman for reports, which were presented. The financial report showed that the club was in a sound condition but it was felt by the retiring executive that a larger membership was necessary.  
Following the election of officers, the new first vice-president took the chair in the absence of the newly elected president.  
At the March meeting a committee was appointed to bring in recommendations on a rural or farmers section. This recommendation was presented and with a slight alteration the plan was adopted. The new plan will encourage a larger membership both local and rural.

### Potato Marketing Board In Comment On Current Prices

The P.E.I. Potato Marketing Board issued the following statement last night:  
"The potato market at the present time leaves much to be desired price-wise, and such a condition is of grave concern to the growers of this province and elsewhere.  
"If we compare the situation so far as supplies are concerned, with May 1st, 1957 holdings, we have in Canada slightly less potatoes this May 1st. New Brunswick holdings are slightly less than last year, but P.E.I. is down approximately five hundred cars, according to official estimates furnished by the Markets Information Section of the Canada Department of Agriculture.  
"After May 1st, 1957, Canada imported from United States 2,200 cars, a situation which we will not be encouraging this year because of the higher price in the United States. To sum up the situation at this date, we find that supplies for the next few months are deficient as compared with 1957 to the extent of approximately 2,200 cars by virtue of our holdings minus American imports of last year.  
"In 1957 the Canadian potato trade was able to market our crop independent of the New York Merchantile Exchange or any other influences.  
"A year ago we blamed the depressed market on the prevailing low price in the United States. It should be reasonable to think that this year our market should parallel that of the United States, or at least if not, then place the blame where it belongs, namely, the potato trade starting with the grower and following straight through to the distributor.  
"At this point may we be pardoned for placing emphasis and blame on the producer who is endeavoring to force immediately on the market, a quantity of potatoes which is normally capable of being absorbed at a profitable price in the next two months. The shippers position is such that when deliveries are made too freely to him, for financial reasons and otherwise he is forced to find a home for the product at sacrifice prices. This we have been experiencing for the past month and will continue to do so if pressure continues.  
The companies argued the duty is essential if they are to compete with flourspar imported from Mexico, Spain, Italy, Germany and elsewhere. However, aluminum and steel producers Wednesday expressed varying degrees of opposition.  
The Aluminum Company of Canada and Atlas Steels Limited

### Judge's Face Was Bit Red

Irvine Embleton, well known Jersey Judge from Harvey Station, N.B., attended the New England Jersey Heifer Sale at Northampton, Massachusetts, a few days ago.  
Mr. Embleton was asked to select from the fifty heifers the one that was to be Miss New England for 1958. He gave the honors to Violet the Blonde Merry, a dashing young lady of most attractive shape and appealing eye.  
However, when the announcement was made and Miss New England introduced to the audience, Irvine found that he had selected the only Canadian bred heifer in the sale, and she came from the well known herd at Harvey Station, owned by Sterling Brown and Sons.  
Irvine reports that it was a rather embarrassing situation for a few minutes, but the heifer sold for \$560.00, and Irvine felt his judgement had the financial backing of the breeders present. "To add a bit to my own embarrassment, I noticed after the sale that she also shares my birthday," says Irvine.  
A daughter of Brampton Sixth Generation, she is therefore a half-sister of the All-Canadian Heifer and the reserve All Canadian Junior Bull for 1957, also bred at Harvey Station in the Crapburn herd of Charles Robinson and Sons.

### Drama Festival At St. Teresa's

On Thursday evening, May 1st, the pupils of St. Teresa's presented four plays for adjudication by Mrs. E. Willett.  
The plays presented were: Calico cat, Doctor Manners, and The Gingerbread Family, all presented by the younger pupils, and The Glorious Whitewasher with Tom Sawyer by the older pupils.  
After the presentation Father Hammill convener of Junior Drama, introduced Mrs. Willett, who made some helpful criticisms of the plays. Special mention was made of the acting of Kathleen Curran, who acted as Snow White; Mabel Anne Smith, who took the part of Little Two Eyes; and Robin Curran, who played the part of Calico Cat. The play Doctor Manners was chosen as the best and will be presented in the Drama Festival Finals at the end of May.  
Junior Drama while helping to train children in speech and drama also gives them some training in citizenship. It trains them to work together for the success of their plays and by having someone adjudicate their plays they learn to have respect for the opinion of others.

### School Concert Held Last Night

A crowded auditorium greeted the performers in a delightful school concert held last night in the Montague High School.  
An appreciative audience heard some fifty numbers which included solos, choruses, choirs, and rhythm bands, and especially enjoyed the tiny tots who were performing for the first time.

### Expect Cloak, Dagger Duel

NEW YORK (AP)—One of the greatest cloak-and-dagger duels in modern history may be waged in the next three months for a stake of \$350,000,000.  
The \$350,000,000 is the face amount of bonds of German cities and corporations, looted by the Russians from Berlin bank vaults after the Second World War. By treaty, the United States, West Germany and other NATO nations outlawed these bonds. Most were sold originally in the United States market.  
The validation board for German dollar bonds, set up by the U.S. and West Germany, set Aug. 31 as the deadline for registration of 92 issues of German dollar bonds. After that unregistered bonds are worthless.  
In five years the board has validated German bonds with a face value of \$246,114,400. Another \$17,000,000 worth are believed to be valid but thus far have not been registered, says Douglas W. Hartman, American board member.  
The validation board has caught 54 attempts to seek validation of outlawed bonds coming from the Russian loot.

### Tariff Board Ends Hearing

OTTAWA (CP)—The Tariff Board Wednesday concluded a two-day public hearing on a request by Canadian flourspar producers for the protection of \$10-a-ton duty on imports of the mineral used by the steel, aluminum and chemicals industries.  
The board was asked earlier this year by Finance Minister Fleming to consider whether a duty was necessary on flourspar and if so at what rate. The \$10-a-ton figure was proposed by St. Lawrence Corporation of Newfoundland Limited and Huntingdon Flourspar Mines Limited of Madoc, Ont.  
The companies argued the duty is essential if they are to compete with flourspar imported from Mexico, Spain, Italy, Germany and elsewhere. However, aluminum and steel producers Wednesday expressed varying degrees of opposition.  
The Aluminum Company of Canada and Atlas Steels Limited

### N.S. Tech Holds Convocation

HALIFAX (CP) — James Waterbury Gosnell of Saint John Wednesday was awarded the Governor - General's Medal at a convocation of the Nova Scotia Technical College. He got it as the senior student with the highest standing in junior and senior years. He also received the Association of Professional Engineers Prize.  
C. M. Anson, vice-president of Dosco, told the graduating class of 125 that they should invest their physical, mental and monetary resources in increasing the well-being of their fellow Canadians. "Rewards from such investments are yours for the taking. Their extent will be in proportion to your contribution."  
Mr. Anson and R. L. Weldon, president of the Bathurst Power and Paper Company, were given honorary degrees.  
A unique feature of the exercises was the fact that the graduating class included a girl for the first time — Miss Norma Ann Eddy of Bathurst who got her degree in chemical engineering.

### Is Critical Of Quebec Drivers

VICTORIA (CP) — A United States highway safety official Wednesday criticized Quebec drivers.  
M. R. Darlington, managing director of the U.S. inter-industry highway safety committee, said in an interview that British Columbia's drivers are "very courteous and give plenty of signals" but said this contrasts with an experience he had driving between Montreal and Quebec.  
"When I drove east recently," Mr. Darlington said, "I was terrified by the roaring, screaming traffic between Montreal and Quebec City."  
"Maybe it's the French influence."

### To All Tubeless Tire Owners

We have just installed one of the most up to date tubeless tire repairing machines in the Maritimes, known as the Giant Air Spotter, for repairing nail holes, glass cuts, and small sectional repairs. All repairs made with this new machine carry our full guarantee.  
Come in and inspect this machine and see the difference yourself.
