

WHEN AND WHERE DOES THE DAY BEGIN?—As we travel eastward the day begins earlier; near the equator starlight appears an hour earlier for each thousand miles going east. When it is sunrise in New York, the people of Europe have had sunlight for many hours, and the Californians are still in their beds dreaming. Evidently the day has a first beginning, and at the eastward. But how far and where? What are the people who first see the light of Monday morning? It is the sun which brings the day; where does he first bring Monday? If we could travel with him we might find out. Let us suppose the case. We will take an early start; at sunrise on Sunday morning, with the sun just at the point of peeping over the horizon behind us, we travel westward. As we go, the people give us a Sunday greeting; we bring Sunday with us to Pittsburgh, St. Louis, Salt Lake, San Francisco. At San Francisco our faithful chronometer informs us that we have been on the tramp about five hours. But we started on Sunday morning still. We go on, still on Sunday morning. Will this Sunday morning ever end? The quiet Pacific knows very little of Sunday or any other day, and our question scarcely receives an echo for reply. When we get to Yokohama in Japan, or Shanghai in China, we search for some Yankee, wide awake in the early morning, and we are told for the first time that Monday has come. Everywhere now we bring Monday, and in twenty-four hours by the chronometer after starting, we are in New York again, and find the merchants taking down their shutters, and the Monday newspapers telling us what has happened during our absence.—*Scientific American*.

The late Lord Kelly, who was remarkable for his rubicundity of nose, having spoken rather disrespectfully of a gentleman in the army, an Irishman present observed that if any man that lived, or had ever lived, or ever could live, had said the same of him, he would have pulled him by the nose. 'Yes,' replied Foote, 'I dare say you would, but in the present case that would not do; there are ways enough of revenging an insult, without running one's hand into the fire.'

Dr. Mounsey, a contemporary of Garrick, had some odd ways. Once he went to a party, with his servant carrying a clean shirt. This he changed in a room next the drawing room, but being fearful of being surprised by some of the company, he hurriedly put away his soiled garment in one of the Indian china jars that were about the room. Later in the evening the hostess, by some fatality, was directed to this very jar, which she brought for the company to admire, and the doctor's shirt was discovered.

STRAY SHEEP.

STRAY SHEEP.—There has been on the Subscribers premises, for the last four months, two SHEEP: the owner is requested to come and prove property, pay expenses, and take them away; otherwise said Sheep will be sold at Auction, at my Barn, on MONDAY, the 27th day of MAY next, at 12 o'clock, an order having been obtained from a Justice of the Peace for that purpose.

JOHN MATHEWSON.

Squaw Bay, Lot 49, March 27, 1867. pd

STRAY SHEEP.—There has been on the subscriber's premises, since last fall, Three stray Sheep. The owner is requested to come and prove property, take them away, and pay expenses; otherwise they will be sold at my Barn, on MONDAY, the 3rd day of JUNE next, according to law.

CHARLES STEWART.

Lot 48, April 3, 1867. pd

THE MOST RELIABLE FRIEND!
Holloway's Ointment.

Its Searching and Healing Properties are known and recognized throughout the World.

The number of years this invaluable Ointment has stood the test of public opinion (and the longer known the better appreciated) is a testimony of itself more convincing than anything that could be written in praise of its truly wonderful healing properties. In the cure of bad legs, bad breasts, sores, wounds, and ulcers, its effect is marvellous. For ring-worm, scald head, scrofula, and diseases of the skin generally, there is no remedy to be compared to it. When assiduously rubbed upon the skin (previously well bathed in warm water) this Ointment is quickly absorbed into the system, and cleanses, in its passage, every part to which it is applied.

Glandular Swellings, Mumps, Bronchitis, Quinsey, Sore Throats and Diphtheria.

In any of the above diseases, immediate and permanent relief is obtained by effectually rubbing this detergent Ointment, twice a day, upon the neck, chest and back. It acts upon the very mainsprings of life; for through the glands pass all new matter required for the body's reparation and all old particles detrimental to its preservation. The Ointment, used conjointly with Holloway's Pills, will act so searchingly and certainly as to effect cures in the most hopeless cases.

Rheumatism, Lumbago, Contracted and Stiff Joints.

Many thousands of martyrs from the above complaints have found life almost unsupportable; yet if Holloway's Ointment be briskly and perseveringly rubbed upon the parts affected, ease may be safely guaranteed, especially if the pores of the skin be previously opened by fomentations with warm water. The gross humors require expulsion from the system; it is therefore necessary to have recourse to Holloway's admirable Pills, which by purifying and strengthening the system, greatly assist the operation of the Ointment and facilitate and confirm the cure.

Bad Legs, Bad Breasts, and Ulcerations of all kinds.

There is no medicinal preparation in the world which may be so thoroughly relied upon, in the treatment of the above ailments, as Holloway's Ointment. Nothing can be so simple or safe as the manner in which it is applied, or its action on the body, both locally and constitutionally. The Ointment, rubbed around the part affected, enters the pores just as salt enters meat. It quickly penetrates to the source of the evil and drives it from the system.

Erysipelas and Scrofulous Sores.

In all irritations of the skin, sores, ulcers, burns or scrofulous enlargements of any kind, Holloway's Ointment presents a ready and easy means of cure. It manifests a peculiar power in restraining inflammation, removing stagnation, cooling the heated blood, and checking all acrimonious and unhealthy discharge.

Diseases attendant on Childhood.

Diseases incident to early life fall more under the management of the mother than the medical man. Holloway's Ointment should therefore be regarded by her as a "Household Treasure," as it never fails in bringing out the rash in measles and scarlatina; and for the removal of all skin diseases its effect is miraculous. In cases of whooping cough and croup, this invaluable Ointment should be rubbed twice a day upon the throat and chest, and the youngest invalid will derive therefrom the most soothing relief. Two or three of Holloway's famous Pills reduced to a powder, will augment the curative powers of the Unguent.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chilblains	Gout	Sore Throats
Bad Breasts	Chapped Hands	Glandular Swellings	Skin Diseases
Burns	Corns (soft)	Lumbago	Scurvy
Bunions	Cancers	Piles	Sore Heads
Bite of Moschetoes and Sand Flies	Contracted & Stiff Joints	Rheumatism	Tumours
Coco bay	Elephantiasis	Scald Heads	Ulcers
Chiogo-foot	Fistulas	Sore Nipples	Wounds
			Yaws

Sold at the Establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s 1½d, 2s 9d, 4s 6d, 11s 2s, and 33s, each Pot.

** There is a considerable saving by taking the larger size.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot. [March 23, 1867.]
