WORDS FOR THE WORLD

These sanctified Mirrors, these Day-Springs of ancient glory, are one and all, the Exponents on earth of Him Who is the central Orb of the universe, its Essence and ultimate Purpose. From HIM proceed their knowledge and power; from HIM is derived their sovereignty. The beauty of their countenance is but a REFLECTION of HIS image, and their revelation a SIGN of HIS deathless glory. They are the Treasuries of Divine Knowledge, and the Repositories of celestial wisdom.
Words of Bahá'u'lláh in "Bahá'u'lláh World Faith"

Strange But True

By F. R. MacArthur

When a native of the Kingdom of Arakan greets a friend he removes his sandals. And when he enters a house he removes his stockings.
Did you know that most forgers find it easier to falsify somebody's signature upside down? The reason is that when they try to forge right side up, their own personal handwriting habits show up noticeably, on the other hand, if they forge the signature upside down it eliminates those characteristics and they are merely doing a tracing job.
There were two famous Sir Walter Raleighs. The first lived in the time of Queen Elizabeth I. The second was an English essayist and biographer who lived in England from 1861 to 1922.
It takes one gallon of maple sap to make three ounces of sugar. Few trees yield more than 30 gallons of sap, if the tapping is done right, the average production of sugar from a single tree is about five and a half pounds.
The Chinese language contains about 330 words. It has four accents, the high, the low, and the returning, which multiply every word into five organs, that is, five different tones.
Barrages of atomic bullets can preserve food.
Army chemical corps scientists have rounded out five years of experiments with the new system which is called irradiation.
Safe storage of spuds, meat and other foods can be greatly prolonged because the atomic bullets kill micro-organisms that cause decay and they also destroy food infesting insects.
The atomic bullets are in the form of highly penetrating rays emitted by spent fuel elements removed from nuclear furnaces operated by the Atomic Energy Commission.
A sensible girl is one who is more sensible than she looks because a sensible girl has more sense than to look sensible.
A bachelor never quite gets over the idea that he is a thing of beauty and a boy forever.
"Common sense would prevent another war," says a pundit. The trouble is, though, human beings rarely resort to using common sense until its too late.
Drive carefully: the life you save may be that of a fellow who owes you money.
Considerate thieves devoured a turkey dinner at the home of John Dunsford, Moncton, N. B., and when they departed left a note that said: "Don't want to disturb you folk with running water, so we left the dishes dirty."

In loving memory of

of my dear Father, Chester E. Shaw, who passed away May 28th, 1954.
Down a road that's calm and peaceful,
Guided by God's knowing hand
He has gone upon a journey
To a distant brighter land.
And although our hearts are heavy
With the sorrow we must bear,
But it helps to bring us comfort,
Knowing he is happy there.
Do not ask us if we miss him
Oh! there's such a vacant place
Often we think we hear his footsteps,
And see his smiling face.
Always Remembered and Sady Missed by his Wife Edith.

In memory of my dear Father,

Chester E. Shaw, who passed away May 28th, 1954.
Always a smile instead of a frown,
Always a hand when someone was down,
There wasn't a thing too big or too small
That you would not try to do for us all.
Treasured memories are all we have left,
Of a Father we loved and will never forget.

Always Remembered by Evelyn, Stewart and Family.

In loving memory of our darling son Francis Gallant who died on June 1st, at the age of 8 years, 4 months.
Just how much we miss you Francis
No one will ever know,
For the ache in our hearts is here today,
As it was seven years ago.
Sady Missed by Mummy, Daddy, Brothers and Sister.
