is often the result of eye strain instead of drugs, in such cases the only reasonable and effectual remedy is

WHERE TO GO.—When you want high grade job printing—nothing smudgy about it—but nothing extra charged on that account come to THE EXAMINER.

SOME EGGS.—Eight hundred and fifty million dozens of eggs are used in the United States during the year. Placed end to end they would girdle the world twelve times at the equator. Yet this use is not excessive, since it allows less than three eggs a piece to each person in the republic.

CATTLE POISONING.—There in another case of cattle poisoning at Canterbury Station. One day last week a cow owned by William Jamieson there was found dead in the same field where the others were poisoned. This makes seven cattle poisoned there in this and last year. There seems to be every reason for a searching investigation.—St. John Gazette.

HUNTERS MISSING.—Word comes from Wabigoon, Ont., that two hunters who went into the northern wilds last fall have met with foul play. One was George Huntstetter, from the States. The other is unknown. A gun and a pack sack, the property of Huntstetter, have been found on the shore of a stream, and no other trace of the pair has been discovered. They are supposed to have been killed by Indians, who it is said, are jealous of white trappers.

TEACHERS ASSOCIATION.—The annual meeting of the P. E. I. Teachers Association will be held in Charlottetown on Thursday and Friday Oct. 6th and 7th. This meeting promises to be of more than ordinary interest as G. M. Hay of St. John Dr. Hall of the Truro Normal School and W. A. Hickman of Pictou are expected to be present and take part in the proceedings. The executive are to be congratulated on having secured the services of these eminent educationists and the teachers of the province should show their appreciation by attending in large numbers.

GOOD READING CHEAP.—We have made arrangements (see advt.) whereby we are enabled to offer the Montreal FAMILY HERALD and WEEKLY STAR in connection with THE WEEKLY EXAMINER for a trial subscription of TWENTY CENTS. This is a splendid chance to secure the best local news as furnished by THE WEEKLY EXAMINER and the best weekly family news in Canada at a low price. This offer is only good until October. The two papers will make an exceptionally good combination to have addressed to your friends abroad even if you do not yourself require them.

THE PLEBISCITE CAMPAIGN.—Rev B B Keefer will address prohibition meetings as follows: Monday, Sept 19th, Emerald or Freetown; Tuesday, Sept 20th, Malpeque; Wednesday, Sept 21st, Tyne Valley; Thursday Sept 22nd, O'Leary; Friday, Sept 23rd, West Cape; Saturday, Sept 24th, Boomfield; Sunday, 25th, 11 a.m., Elmsdale, Montrose, 3 p.m., Alberton 7 p.m.; Monday, Sept 26th, Tignish; Tuesday, Sept 27th, Centreville; Wednesday, Sept 28th, Crapaud. In above where the time is not mentioned, meetings will commence at 7.30 p. m. Silver collection will be taken at each meeting to assist defraying expenses.

DAIRY PRODUCE.

Cheese Firm and Higher—Butter Excited.

In Montreal, on Monday, according to the Gazette, cheese was firm, and higher prices were realized than a week ago by fully 4c per pound. The demand is due in part to a desire to procure the September make, but in addition to this the cable furnishes more encouragement from abroad, and the influence is naturally potent. We quote as follows:

Finest western, colored.....	8 1/2 to 8 3/4
" " white.....	8 1/4 to 8 1/2
" " eastern, colored.....	8 1/4 to 8 1/2
" " white.....	8 to 8 1/4
Liverpool cable, colored.....	3 1/2 to 3 3/4
" " white.....	3 1/4 to 3 1/2

According to the same authority the butter market was excited and extreme prices were paid both on spot and in the country, though the local position, despite the advance, was not on a parity with what late made creamery is costing in the country. We quote:

Extra finest creamery, boxes.....	19 1/4 to 19 1/2
" " tubs.....	18 1/4 to 19
Ordinary finest creamery, boxes.....	18 1/4 to 18 1/2
" " tubs.....	17 1/4 to 18
Dairy butter.....	14 to 14 1/4

A MOTORMAN'S ESCAPE.

How Benjamin Bacon Escaped from a Terrible Position.

TORONTO, Sept. 19.—Mr Benjamin Bacon motorman's No 150, in the employ of the Toronto Street Railway Co, tells the following story of his escape from a situation in which death menaced him daily.

"I have, for a year past, been a great sufferer from severe pains in my back. My doctor told me I had first stage of Bright's Disease. He could not help me, nor did the many advertised medicines do me any good. At length, I gave Dodd's Kidney Pills a trial. The result is that today I am a new man, sound and well and strong in every respect."

EATING FINGER NAILS

The chief finger nail chowers of the world are the French, and it was recently stated upon reliable authority that nearly two-thirds of French school children are addicted to the habit.

Even for grown people there is hardly any habit, aside from the confirmed abuse of narcotics, more difficult to overcome than the habit of biting the finger nails. It requires a strong mental effort and constant vigilance to do this, for once a person has become thoroughly addicted to the habit he does it unconsciously, and is only reminded that he is marring himself when he gets one of his nails gnawed down to the quick. All manner of remedies have been advanced for the cure of the finger nail biting habit, including the placing of injurious and bitter compositions on the ends of the fingers, but none of the remedies amounts to much.

The only way to stop biting the finger nails is to stop. The Americans are next to the French in the finger nail biting habit, probably because the Americans, as a whole, are an exceedingly nervous people. A man who accomplishes his determination to knock off biting his finger nails may, by incessant manicuring, get them to look fairly well within a year or so, but finger nail biting, if long persisted in, ruins the shape of the ends of the fingers, and the nails can never be brought to look as well as those of the persons who permit their nails to grow as they were intended to grow.—Washington Star.
