HIDDEN CITY DISCOVERED.

Important Archaeological Find Made In Mexico.

A special from Oaxaca, Mexico, says Frank B. Lenark, an English archaeologist, who came to this country two years ago to make a scientific research of buried cities and other ruins in Chiapos, has arrived at New York. He brings information of the discovery of a hidden city in the wilds of one of the southern districts of that remote state. Lonark spent several weeks exploring the newly found city. He claims to have made discoveries among ancient ruins that will throw much light upon the early history of this country and will create a sensation in archaeology circles when made public. He is now preparing a formal announcement of his adventures which he will give out when he reaches New York a few weeks hence. He says the city he discovered had a population of fully 500,000 souls at the time of the wholesale decimation of its inhabitants, that the streets were broad and buildings large, and of handsome architecture as are now to be found in a measure.

GENERAL TELEGRAPHIC NEWS.

LONDON, Aug. 26.—The Times to morrow will publish a despatch from Tien-Tsin stating that an imperial edit has been issued in connection with the outrages perpetrated on missionaries, and the murder of Rev. James Wylie, a Presbyterian minister, who was recently killed at Lioa Yang by Chinese soldiers who were marching to Corea. The edict condemns the Chinese officers responsible for the good conduct of the troops, and orders that the actual murderers be beheaded. It is further ordered that the chapels which have been destroyed, be rebuilt at the expense of the people in the localities where the outrages were committed, and that compensation be paid to the relatives of Mr. Wylie.

ZACATECAS, Mexico, Aug. 26.—A courier arrived here from the mining camp of Minillos, this state, bringing news of a terrible dynamite explosion which occurred in one of the mines there on Saturday. The explosion resulted in the killing of six persons and several animals, besides doing great damage to the property.

LONDON, Aug. 26.—A despatch to the Times from Lima says that a band of 600 insurgents, armed with Winchester rifles, are reported to be moving northward from the southern frontier. The government has sent further reinforcements south, and a collision is daily expected.

ROME, August 26.—The propaganda has received letters from a number of influential persons in America seeking certain labor societies to receive the condonation of that church. The matter will be submitted to the holy offices. The pope opposes the request. His holiness proposes shortly to deal with the subject of strikes and other questions affecting the labor and with anarchism in a general document.

LONDON, Aug. 26.—Cottagers on the Braemar estate in Scotland are grumbling because the Duke of Fife, the largest landlord in the neighborhood, has refused to let them take lodgers during the season. It is understood that the Duke acts in behalf of others who resent the intrusion of visitors. Most of them are women who sit on camp stools all day in front of the lodge gate of the large castles, reading and sewing and peering at the princes and princesses.

LONDON, Aug. 26. — The National League for the Abolition of the House of Lords, made a demonstration in Hyde Park yesterday. The demonstration was much advertised, and was expected to be an imposing affair, but it was a fiasco. Hardly ten thousand persons were present. Dispersed among twelve speakers and platforms, they looked pitiably few. Wm. O'Brien, Dr. Tanner, Thomas Curran, all the Irish members of Parliament delivered the principal speeches. They elicited little enthusiasm. William O'Brien warned the Government that the continuation of Irish support would depend on its fidelity to the crusade against the lords and their policy of blocking the way to reform.

The British Foreign Office has received confirmation of the news of the arrest at Bluefields, of Mr. Hatch, Consular Agent of Great Britain. No details, however, were given in the cable message received by the Foreign Office. The Standard, commenting upon the arrest, says: The arrest of Mr. Hatch [illegible] of the gravest [illegible] the whole incident has a savor of comic opera. We do not doubt that the United States will support our demand for satisfaction against Nicaragua.

CURED TO STAY.

DR. E. A. ROSE DISAPPOINTS THE DOUBTERS—HE ONCE HAD DIABETES BUT HAS IT NO MORE—ATTENDING TO HIS BIG PRACTICE.

Portland, Ont., Aug. 20.—The account which appeared in many Canadian papers a few months ago of Dr. E. A. Rose having been cured of diabetds by Dodd's Kidney Pills, attracted widespread attention at the time. Many doubters, though, protested that the cure was not a permanent one. The best proof that these doubters were wrong is the fact that for a year back Dr. Rose has been attending to his practice, which was always a large one, in this village and the surrounding country, and has never had any return of the disease. His health is first-class and the doctor is not compelled to take any of the precautions as to diet or otherwise, that are always orderse for people threatened or troubles with diabetes.

Plain Living and High Thinking.

The two go together. But high living cannot be associated with high thinking. It utterly deranges the system and makes mental labor of any kind an effort. It leads to dyspepsia, which, however, may be completely cured, as it has been in hundreds of cases, by a systematic course of Hawker's nerve and stomach tonic and Hawker's liver pills. They are sold by all druggists.

Beware of Fruit Skins.

With regard to the eating of fruit an important caution must be given: Fruit skins carry germs and are no more intended for human sustenance than potato skins, melon rinds or pea pods. The bloom of the peach is a luxuriant growth of microbes, that of the grape only less so; and when these skins are taken into the stomach they find most favorable conditions for their lively and rapid development, which causes the decay of the fruit before it is possible to digest it. This is the reason that many persons think they cannot eat raw fruit. If they would in all cases discard the skin they could derive only good from the fruit itself. Nature provides the skin for the protection of the fruit from the multitude of germs which are ever ready to attack it, as is evidenced when the skin is bruised or broken in any way. The microbes at once begin their work of decay, and the fruit is unfit for food. Children are chief offenders in respect to this rule, and should be carefully watched and frequently cautioned. A daintiness as to the condition of fruit should also be cultivated, to prevent its being eaten unripe, or too old, on the verge of decay. Remember that it is sweet and ripe fruit, in prime condition only, that is recommended.

To Produce Frosted Gold.

In boiling pure gold plates and foil in hydrochloric acid, Professor A Liversidge, of Sidney, has produced on the surface a beautiful crystallization or frosting. The crystals are more or less regular and very small, giving an appearance somewhat resembling that familiar to us in tinplate and galvanized iron. It is suggested that the effect may be utilized for decorating jewelry and other articles.

One Way to Frame Photographs.

A cheap and easy way of framing two or more photographs is to take four pieces of ribbon and stitch each two of them together at intervals just as wide as a cabinet photograph. Fringe the ends and slip the picture in between the ribbons at both top and bottom. By arranging the pictures at angles with each other they will stand upright.

Helpful Hints.

A broom should be dipped occasionally in hot water to toughen it and should always be hung brush down.

Wash calico dresses in bran water if you are afraid they will fade.

To keep moths from cutting woolen carpets sprinkle salt over them before sweeping.

A Costly Sewer.

London Truth charges that the Manchester Ship Canal is a little better than an open sewer, for all the rivers along its route are drained into it.
