THERE are now twelve of the city pumps dry and out of order. Can not this be remedied?

THE question now agitating the Monctonian mind is, "How are we to welcome the new Governor General?"

SIR JAMES MALCOLM, Bart, took passage for Pictou yesterday evening, in the steam tug Henry Aitken.

THE Halifax City Council is making preparations for giving a suitable reception to the Marquis of Lorne and Princess Louise.

At the Stipendiary Magistrate's Court, this forenoon, Henry Mooney, drunk and disorderly on the streets, was fined \$2 and costs, or 8 days; John Phenny, for being drunk and incapable, was fined the same.

THE last of the Dominion elections in the Upper Provinces added two more members to the Opposition majority. In Chicoutimi, Mr. Cimon was elected by two or three hundred of a majority. In Gaspé, Dr. Fortin was elected by a pretty large majority.

THE Mount Forest Examiner bewails the lukewarmness of its party in the recent contest, and says: "Our Reform friends fight best in Opposition." They would have fought bravely enough on the 17th ult. had they possessed skilful leaders and a good cause.—Mail.

ARTICLES written in a Grit strain and appearing in the News and Telegraph, are only shams. In their hearts they mean to write good sound Conservative articles, and if the Herald will but exercise a little patience, it will soon find these papers safely on the Treasury side.—Moncton Times.

PRINCE ALBERT VICTOR of Wales is to remain for some time longer on board the Britannia training ship at Dartmouth, and is, says the Whitehall Review, to proceed ultimately to a military academy, most probably near Woolwich. His Royal Highness will enter the army at the age of 17.

AN AWFUL THREAT.—Patrick Daly was arrested yesterday afternoon on a warrant at the instance of Miss Mary Daly, who stated at the station that Patrick had threatened to cut her throat from ear to ear the first chance he got. Both parties live on Main street, Portland.—St. John Sun.

SECRETARY EVERTS ought to be ashamed of the rather unworthy position in which he has placed his Government and his country, by suing to the British Cabinet not to take that \$5,500,000, or, if they will take it, not to demand it at all—knock off a few hundreds at any rate. All this, too, in the presence of the fact that they have over nine millions of British money to which they have no right, and which they don't know what to do with, lying in their treasury. Step up Brother Jonathan, and pay your bill like a little man.—Ottawa Herald.

CURIOS.—Mr. James Stanley, printer, (late of Charlottetown) informs us that yesterday his throat a small stone, which has been secreted in a cavity in the lower part of his mouth for over a year, causing a periodical corruption and soreness of his throat. Yesterday, his throat becoming unusually sore, he was obliged to leave off work, and during the day, running his fingers down into his throat, and touching the sore spot, felt the little pebble, which is about the size of a pea, and brought it out, since when his throat has been growing better.—Moncton Times.

If there is a moment in a humble reporter's career (says one of the Halifax "Herald's" reporters, who, no doubt, got even with somebody of late) when that humble reporter feels that Time makes all things even, and that the press is the Archimedean lever which moves the world, it is the moment when at a lecture or meeting the minister who used to bulldoze him in his boyhood, or call the congregation's attention to his misdeeds at church, gets up to speak, and the humble reporter, shutting up his note-book and putting his pencil into his pocket, says to his reportorial companions, in a whisper clearly audible four rows of seats back, "Say, boys, we needn't give more'n a stick of this old idiots' slush."

ISLANDER ABROAD.—John Shea, a tramp, apparently thought he had a right to enter citizens' houses and take a night's lodging at his own sweet will. He accordingly entered the dwelling of the Mrs. Widow Botsford at the lower end of Main Street, on Monday night, and proceeding to the best room, made himself as comfortable as possible on a sofa. He was discovered, however, in his retreat, and an inmate of the house went for Marshal Steadman, who found him enjoying a sound sleep, and after spending some time in awaking him, gave him a lodging for the remainder of the night in the lock-up. Yesterday, John was before the Magistrate, and was asked to leave a deposit of \$3, or remain in custody, board free, for four days.—Moncton Times.

OUR esteemed friend, the Rev. Allan McLean, late of Dundas, has been laboring, with much acceptance, in his congregation in Glace Bay, Cape Breton. His people have been engaged principally in the coal trade, the locality being a mining district. Owing to the general depression in business and especially in that of the coal mines, many of his parishioners have had to leave, and he is going to move his wife and family to Dundas, where he owns a manse and farm. Many warm friends in Dundas where he has for many years labored arduously, faithfully and successfully, will be glad to see the face of their former pastor once more. He will labor in the vacant congregations on this Island during the winter.—Pres.

PATENT ON PUMPS.—Mr. C. C. Jones, of this city, pump manufacturer, has secured three patents on his combination barrel

pump in Canada, and one in the United States, securing his exclusive right to manufacture the same in the United States and Canada. He is manufacturing the said pump in this city, and is prepared to fill all orders. A company is being formed in New York to manufacture this patent in the United States. The pump has proved a success on this Island and elsewhere. The following is a copy of the report from the Agricultural Department:—

Department of Agriculture, Trade and Timber, Industrial Design, Ottawa, Canada, Sept. 28, '78.

Sir,—I beg to forward you the herewith enclosed certified duplicate of your Industrial Design, No. 301.

I remain, Sir, Your ob't servant, (Signed) J. C. TACHE, Deputy Minister of Agriculture.

Mr. C. C. Jones, Georgetown, P. E. I. W. H. JOHNSON (next door to our office) General Agent for Wheeler & Wilson's world-renowned Sewing Machines for the Maritime Provinces, challenges hereby the claims of other machines. He publishes testimonials in another column which go far to prove the Wheeler & Wilson new machine the best in the world. This statement it would seem, is attested to by the judges at the Centennial and American Institute in 1873-4-5-6-7, and sustained at all the great World's Fairs. Many improvements have lately been added, and the machine is, to all intents and purposes, perfect, almost noiseless, easily operated, cleaned and repaired, and rarely, is ever, liable to get out of order. A large number of the W. & W. are in use in this Province, where they give the utmost satisfaction; and it is well-known that in England they are prized beyond those of any other maker, which is proved by the fact that one thousand machines are shipped to the London head office monthly. Hc. Reporter.

Theo. L. Chappelle is the Agent for those excellent machines in this city.
