

KNOWS NO DISTINCTION.

Rich and Poor Alike Suffer From Catarrh in This Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarrh Tablets as the most successful and by far the safest remedy for catarrh yet produced.

One well known specialist, as soon as he had made a thorough test of this preparation, discarded inhalers, washes and sprays and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh, whether in the head, throat or stomach.

Dr. Hisdell says "in patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh I have had fine results after only a few weeks use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and antiseptic properties of the tablets destroy the catarrhal germs wherever found because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says, Stuart Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hawking, coughing and expectorating.

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief and being in tablet form and pleasant to the taste are convenient and always ready for use as they can be carried in the pocket and used at any time as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Guaiacol, blood root and Hydrastin.

All druggists sell the tablets at 50 cents for complete treatment.

DELAY OF MAIL.

DEAR SIR.—It seems strange that when we have two mails daily from Charlottetown to Montague our outgoing mail which is supposed to leave here at 12.45 p. m., and connect with train at Cardigan, laid over night in the office on the 5th ultimo, and did not go till Thursday morning, Dec 6th.

The mail courier between Montague and Cardigan would, no doubt, say that it was impossible to get to Cardigan, as the roads were unfit for transit. But we note that his neighbor started from here on the same day at one o'clock p. m., with an express load of trunks and arrived in Cardigan in time to catch the ingoing train to Charlottetown. It may have been that his hired man went on strike, and as the contractor is not in the habit of driving the mail coach himself there would be none left to take charge but his son, and I am informed that that gentleman is on the retired list, having received from the hands of the assistant P. O. Inspector his ticket of leave.

If the latter case is his reason for not even attempting to get to Cardigan with the mails, he has, no doubt, the sympathy of the people of Montague. If not, and provided he has not for some good reason secured a permit from the Government to stay at home every day that it should snow or rain, as the case may be, he is no doubt playing a little game of imposition on the business men of Montague as well as the public in general.

MURRAY HARBOR NORTH.

An Elector Protests.

SIR.—It is reported that Mr. Martin has lost his seat through the neglect of the deputy returning officer here not doing his duty. I think, and all right thinking electors think it is one of the lowest and meanest ways that could be brought up to unseat Mr. Martin and squirm McKinnon in when it wasn't the will of the people. What is the use of voting at all when they will do what they like? It could be plainly seen when the face of the ballot was clean and the proper mark after each respective name who the elector chose, and because there was a mark visible only by strong glasses on the back of the ballots they made a cry and chucked the poll out. They used everything available to work McKinnon in. As Mr. McKinnon was the first to detect these marks, he must have known something about them. I guess this dodge was cut and dried beforehand. Why didn't the Government send the ballot box and instructions to the returning officer a week before the election so he would know his duty?—not only giving them to him about ten o'clock the night before the election, and then he only got them from another returning officer.

Surely something will be done to keep down such outrageous acts, tampering with ballots. It is destroying and doing away with the people's liberties. I think, if Mr. McKinnon is elected something ought to be done as there were things done here by Mr. McKinnon's officers that would go hard against him. We shall soon be like the Uitlanders of South Africa,—we shall have to take up arms and fight for our rights.

Electors of Prince Edward Island turn out the corrupted rascals and don't give them a ghost of a show on the 12th. Put a party in that will do what is honest and give everybody their rights.

A PROPERLY DISGUSTED ONE.

PROGRESSIVE TEMPERANCE.

SIR.—I notice one name signed to the Alliance prohibition pledge which strikes me as very similar in spelling to that of the person who flooded our district with something stronger than water at the Wise-Douglas election. If this is true, will you please tell us which end of the prohibition string will be worked by Johnny Quinn. Surely prohibition will not separate such loving twins.
