

AT 99 SHE LIKES MIKE

Mrs. Dorothy Taylor, 99, was one of the first Canadians to cast a ballot in the Nov. 8 general election. She went to an advance poll in Toronto and said she kept her traditional support of the Liberal party. Her first vote had been for the party of Sir Wilfred Laurier. (CP Wirephoto)

Premature Count Made

OTTAWA (CP)—A premature count in one of the advance polls for the Nov. 8 election was reported Tuesday by Nelson Castonguay, chief electoral officer.

The Canada Elections Act provides that the count in advance polls, where voting was held Saturday and Monday, be made at 9 p.m. local standard time on election day, next Monday.

Mr. Castonguay said that a deputy returning officer at Maric in the Quebec constituency of Villeneuve held a count in his advance poll and the results were given to scrutineers for the candidates.

The deputy, whose name Mr. Castonguay doesn't know, was dismissed.

In the last election, in 1963, there were premature counts in seven advance polls in six constituencies.

Lions Planning Another Clinic

The Parkdale Lions Club decided at a recent meeting in the Fire Hall to hold another Glaucoma Clinic in the near future. Stevie MacDonald gave a report on the last clinic which was the third held during the season.

Seventeen cases were discovered which required immediate treatment. There were 10 members in attendance and five new members have been accepted by the board and will be at the Parkdale Club's dinner meeting in November.

Following the Halloween party, held at Parkdale High School, members of the Parkdale Lions Club went to Sherwood Hospital with treats for all the patients. The committee included William Matthews, Percy Gay, Ron O'Leary and Tom Kays.

RENSSELAER, Ind. (AP)—An original painting by 19th-century artist Giovanni Bellini has been reported stolen from St. Joseph College. The painting, The Virgin and Child with St. Nicholas of Bari and a Donor, was valued at \$350,000.

ARE YOU UNDECIDED?

If you are among the estimated 11 per cent of Prince Edward Island voters who are weighing every election issue before coming to a final decision, we offer some facts for your consideration - important facts about three vital projects affecting all of us on the Island . . .

THE CAUSEWAY

This is the greatest project ever undertaken by any Canadian Government for Prince Edward Island and the effect it will have staggers the imagination. The Liberal Government has called tenders for the construction of this \$148 million combined tunnel, bridge and causeway to physically join P. E. I. with the rest of Canada.

It means, in terms of prosperity to P. E. I., at least one million visitors every year with direct and indirect benefits to everyone. It means bigger markets, higher prices for our primary and factory products. It means lower production costs and consumer prices because of year-round highway and rail transportation. It means, most of all, that P. E. I. now is heading in no uncertain terms to becoming a "have" province rather than a "have not" province.

This is a Liberal undertaking and a Liberal Government wants to see it through to its completion.

AGRICULTURE

"Butcher, baker, candle-stick maker" . . . the economy of everyone on the Island rises or falls with the state of P. E. I. agriculture. One of the highlights of the Liberal Farm Policy is its dairy price boost plan which calls for a national average return of \$3.50 per hundredweight to milk producers, an increase of 23.2 per cent. This means increased annual payments to the 6,000 P. E. I. dairy farmers of from \$50 to \$300 each. When the Canadian Dairy Commission is officially established, producers will have control over prices, quotas, quality and exports. This eventually should lead to an average price of up to \$400 per hundredweight for all manufactured milk used in the domestic market.

But this is only part of the Liberal Farm Policy to strengthen our economy. Other highlights include: crop insurance by July, 1967; formation of a livestock feed board; doubling of the amount of loans available to farmers; unemployment insurance and extension of housing aid for farm workers; a new general ARDA agreement with the provinces, representing \$125 million, and the establishment of a \$500 million Fund for Rural Economic Development.

This Liberal farm program means more to P.E.I. than any other Canadian province.

FISHERIES

The Liberal Government has taken important steps to assist P. E. I. Fisheries and the Canadian Economy. These steps include: Extension from three to 12 miles of the coastal fishing limit; extending the scope of low cost fishing vessel insurance available under the Fishermen Indemnity Plan; increased assistance for vessel construction with P. E. I. fishermen now getting assistance for smaller vessels and higher rates of assistance; and raising from \$4,000 to \$10,000 the maximum loan available under the Fisheries Improvement Loans Act and extending the period from eight to 10 years.

And even more important:—

At the all but unanimous request of the P. E. I. Fishermen, your four Liberal Candidates immediately after their nomination made urgent representations to the Minister of Fisheries on behalf of P.E.I. Lobster Fishermen. Effective action followed at once. The Minister of Fisheries assured them that legislation in consultation with the fishermen themselves will be introduced to limit the number of lobster licences issued, and to set a limit to the number of traps set by each licensed fisherman on P.E.I. The fishermen spoke and your Liberal Candidates acted at once. Good things happen speedily and effectively—when you are represented by candidates who care about people.

Liberal expenditure on industrial development to modernize the catch processing and handling methods is 411 per cent above the level of two years ago; and Government research to help the fishermen is 50.5 per cent over the level of two years ago. More evidence that the Liberals care about people.

IN TWO AND A HALF YEARS OF MINORITY GOVERNMENT, THE LIBERALS HAVE ALREADY IMPLEMENTED SOME 27 OF THE 34 MAIN PLANKS IN THEIR PREVIOUS PLATFORM — MORE THAN 80 PER CENT. THINK WHAT CAN BE ACCOMPLISHED OVER THE NEXT FOUR YEARS WITH A STRONG LIBERAL MAJORITY GOVERNMENT.
