A DELIGHTFUL COMEDY DRAMA FROM THE STORY BY EDWIN LEVIN

She didn't advertise; she didn't want any showpans or bargain counter husband. She wanted one with money.

She knew widows had the inside track, so she became a rich widow, (with her roll of a single thousand) and hinted darkly at the mystery in her past life.

Can't you imagine the complications that would come to an innocent young thing like her.

Premier Meighen's Manifesto

Continued from Page One.

We have taken the strong, self-reliant course and have been able to pursue that course and maintain our prosperity regardless of the policy of any other nation.

For some years past, and very emphatically in recent years, a determined movement has been on foot seeking to reverse the tariff policy of the Dominion. The official opposition in the House of Commons, now led by Hon. Mackenzie King, has made repeated and varied demands in Parliament for the wiping out of tariff schedules. Finally, that party was called into convention in August, 1919, which convention unanimously passed the following resolution:

"That the best interests of Canada demand that substantial reduction of the burdens of customs taxation be made with a view to the accomplishing of two purposes of the highest importance. First—Diminishing the very high cost of living which presses so severely on the masses of the people. Second—Reducing the cost of the instruments of production in the industries based on the natural resources of the Dominion, the vigorous development of which is essential to the progress and prosperity of our country."

"That to these ends, wheat, wheat-flour and all products of wheat; the principal articles of food; farm implements and machinery; farm tractors; mining, flour and saw mill machinery and

the United States protective tariff, much reduced in 1913, was prohibitive level in force for many years. Even as their tariff stood they had sold this country in the last five years goods to the value of nearly eighteen hundred million dollars over and above the value of all they bought from us. They have now imposed high customs taxes with a view to purchasing such policy. They have placed almost prohibitive barriers against farm products of the country. Our dollar is already at a serious discount in the United States mainly because of our excessive purchases there compared with our sales. Under these circumstances it is indeed hard to conceive how serious minded Canadians can suggest as the proper course for us the wiping out entirely of our present moderate duties on farm products coming into Canada, and the general levelling down of our tariff in order that, while we are compelled to sell them less, we be induced to purchase more. To follow such a device means the loss of additional millions in the discount of the farmers of Canada. It means the curtailment or the closing down of many scores of industries, the discouragement and contraction of our towns and cities and the impairment of the best market for the products of our farms. It means the surrender of the advantage we have made as a self-contained, aggressive industrial nation, and reversion to a position of dependence upon a more favorable American fiscal policy will become more and more a national aspiration. The spirit of this country will not tolerate a course so weak and so disastrous.

U. S. Protective Tariff.

Against the tariff proposals of the Hon. Mackenzie King, and all whom in this contest he represents; against the tariff proposals of Mr. Wood and Mr. Crerar and all whom they represent, I ask the people of Canada to pronounce.

repair parts thereof, rough and dressed lumber; roofing, illuminating lubricating and fuel oils; nets, net-wines and fishermen's equipments; cements and fertilizers, should be free from customs duties, as well as the raw material entering into the same.

That revisions, downwards of general tariff duties, should be selected in the cost of wearing apparel, footwear, and other articles of general consumption, other than luxuries, as well as on raw materials entering into the manufacture of the same.

"That the British preference be increased to 50 per cent of the general tariff."

"And the Liberal Party hereby pledges itself to implement by legislation the provisions of this resolution when returned to power."

This resolution, though frequently evaded and more often avoided, sometimes paraded to entice Allies, sometimes entombed to conceal friends, nevertheless stands as the solemnly recorded and unanimously pledged of Hon. Mackenzie King and his party. It is not a declaration of principle but a concrete binding commitment to specific acts.

But a stronger and more menacing enemy has arisen. For some years past there has been growing unrest on the Prairies of the West, and later there has been a party of Eastern Canada, a party backed by a costly and persistent propaganda, the purpose of which is to reverse the tariff policy of this country. This movement, led by the Hon. T. A. Crerar, and Mr. H. W. Wood, has also set down its limited tariff demands in black and white. They need not be here repeated. The resolution of the Liberal Convention, quoted above, substantially embodies the deed was modeled upon the platform of the Wood-Crerar party. The latter, however, demand also the free entry of coal and vehicles, unrestricted reciprocity with the United States and free trade with England and other countries. The Federal Liberal Party of Alberta, merging its demands in the Agrarian platform, has officially demanded as well, free trade with the United States within five years. There is no need of drawing fine distinctions. The great masses of those subscribing to these demands are determined propagandists of free trade. They are determined opponents of any and every system in this country and their goal they are resolved to reach, by as rapid means as they can command.

The immediate enactment of which both sections of the opposition pledged to put into effect, inevitably mean the abandonment of the protective system. No system can be defended on any basis which strips hundreds of millions of the most essential industries of this country of all tariff protection and leaves less important industries in the enjoyment of tariff protection. It is, therefore, beyond dispute both because of the intent of the vast majority behind these programmes, and because of the logical consequences of the programmes themselves that the real thing we are called upon to resist at the present time is a free trade policy for Canada.

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raymus, Lindale, Alta., writes:—

"I was a great sufferer from kidney disease and lame back for more than a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and acting upon his advice I tried them. After I had taken one box I felt better, so I continued until I had used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pills to anyone suffering as I did."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

New Lamp Burns 95 Per Cent. Air

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity. Has been tested by the U.S. Government and 30 leading Universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 95 per cent. air and 5 per cent. common kerosene (read instructions).

The inventor, G. A. Johnson, 246 Craig St., W., Montreal, is offering to send a lamp on 10 days FREE trial, or even to give one FREE to the first user in each locality who will help him to introduce it. Write him today for full particulars. Also ask him to explain how you can get the money and without expenditure of agency make \$250 to \$500 per month.

Hogs Wanted

We will commence receiving crossed hogs on Tuesday next 11th inst, and would ask farmers having hogs to offer to communicate with us or our buyers, before selling elsewhere.

We want well-finished stock for which we are prepared to pay highest market values. Until weather becomes colder care should be taken to kill on cool days only.

As our plant is operated under Government inspection hogs must have organs attached to comply with Meat Inspection Regulations. SIMS PACKING COMPANY, Ltd
