Roberts Is Rated Close To Dean And Hubbell

PHILADELPHIA, (AP)—Is Robin Roberts in the same class as a pitcher as Dizzy Dean and Carl Hubbell?

Gus Mancuso, in his day one of the best catchers in the National League, says "almost." Mancuso caught Dean and Hubbell in their prime.

Mancuso, a baseball analyst for a St. Louis radio station, was talking in the Connie Mack Stadium press box Tuesday night after Roberts shut out St. Louis Cardinals 5-0 for his eight victory of the season.

Gus cited the first inning when the Cards loaded the bases with one out and Roberts, brilliant Philadelphia Phillies righthander, appeared to be on the ropes. The old warhorse, Enos Slaughter was at bat.

Enos slashed a low liner that

Roberts leaned over and grabbed in his gloved hand. He threw to first baseman Earl Torgerson to double Stan Musial off first.

"That's the kind of pitching that makes a guy great," said Mancuso. "Did you see how calm and deliberate he was pitching to Enos? That's why he can't miss being great. That kid is going to be one of the greatest pitchers in baseball. And right now he's almost in a class with the two greatest I ever caught, Carl Hubbell and Dizzy Dean."

Is Roberts the equal of Hubbell, Gus was asked.

"Not yet, but he has the same steel nerves and control."

Is he as fast as Dean?

"He's not as overpoweringly fast as Diz was, but his control is better and he has more to upset a batter."

Lowther. The meeting closed with the Mizpah Benediction, followed by lunch and a social hour.

18 Per Cent Of Households Overcrowded

OTTAWA, (CP)—Federal statisticians estimate that some 641,820 homes, or 18.8 per cent of all households in Canada, were "overcrowded" when the census-taker had a look at them in 1951.

The bureau of statistics, in making this report public Friday, defined a crowded household as one in which the number of persons exceeds the number of rooms in the home. Neither the ages of the persons nor the size of the rooms are taken into account in the survey.

The survey showed that Quebec had the most crowded homes with 216,955; Ontario, 151,730; Alberta, 56,300; Saskatchewan, 50,770; British Columbia, 48,100; Manitoba, 39,675; Nova Scotia, 27,615; New Brunswick, 24,130; Newfoundland, 23,130; Prince Edward Island, 3,515.

Crowded homes averaged 6.7 persons, compared with an average of 3.4 persons in uncrowded homes. About 60 per cent of the overpopulated dwellings were occupied by their owners. The average rent for the crowded house was \$28 a month, compared to \$36 a month for the uncrowded household.

But while rents were lower for crowded homes, they generally had less conveniences than the uncrowded ones. In 1951, for example, only 48.8 per cent of the crowded homes had a private flush toilet, and only 36.1 had a private bath or shower.

STANHOPE W. I.

The monthly meeting of the Stanhope Women's Institute was held on May 5th at the home of Mrs. Isaac Lawson.

The president opened the meeting by the singing of "The More We Get Together", followed by the "Collect" repeated in unison. Seventeen members answered the roll call, by exchanging a plant or seeds. Ten visitors were welcomed.

The minutes of the last meeting were read, approved and signed. Sick committee reported on calls made, and the school committee reported there was nothing needed. New committees were appointed as follows:—

School, Mrs. Louis Marshall; sick, Mrs. Herb Kiely and Mrs. James MacLauchlan; lunch, Mrs. Horace Marshall and Mrs. Reg Ross; program, Mrs. James MacLauchlan and Mrs. Malcolm MacLauchlan.

Correspondence was read and discussed, and it was agreed to pay one third of the account for the hall curtains. A committee was appointed to make the necessary arrangements for us to have some entertainment at the hall, those appointed being: Mrs. Mary MacLauchlan, Mrs. Horace Marshall, and Mrs. Alva MacLauchlan.

An auction sale of miscellaneous articles to be held that night, with members donating the articles.

Mrs. Malcolm MacLauchlan was appointed to act as secretary for the balance of the year. One quilt is to be sent to the Red Cross.

MORRIS CAR SETS WORLD RECORD

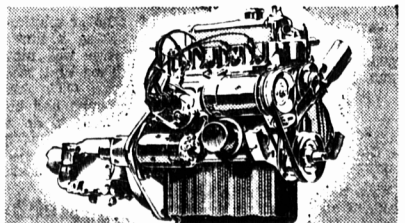

Only car on the road ever to achieve 10,000 miles non-stop. Road test of Morris Minor's new overhead valve engine proves economy... efficiency.

At Goodwood Race Track, England, 10,000 miles non-stop proved that the Morris Minor is built to last... built for trouble free driving. At the end of a 9 day, 8 hour test—the most gruelling road test ever made—engineers checked every part. They found: the car ran as

smoothly as the day it came off the assembly line. During 224 hours of continuous turns on the circular track (turns required extra power equal to climbing 66 miles) gas consumption averaged 43 miles per gallon!

Mobile Dry Dock was specifically built for non-stop test. When car entered dock both vehicles synchronized their speeds. Workmen fueled and serviced test car while driving crews were changed.

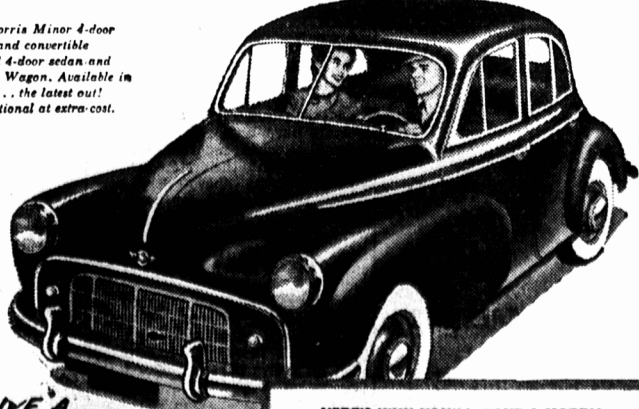

New Overhead Valve Engine was used in test car. The new 4-cylinder engine is a standard feature of all new Morris Minors. Engine has mixture control and throttle interlocked—gives faster starts, even in coldest weather.

ILLUSTRATED: Morris Minor 4-door sedan. Also in 2-door and convertible models; Morris Oxford 4-door sedan and Morris Oxford Station Wagon. Available in attractive new colours... the latest out! White sidewall tires optional at extra cost.

Churchill Seeks Support For Big Four Parley

By ARTHUR GAVSHON LONDON, (AP)—Prime Minister Churchill will ask eight fellow Commonwealth prime ministers here next week to back his project for an early east-west parley. British sources say.

Churchill thus hopes to strengthen his hand, these informants say, at his June conference in Bermuda with President Eisenhower and the new, still-unchosen premier of France.

Mrs. Louis Marshall kindly invited the members for the June meeting. Roll call to be answered by making a donation to the Salvation Army Appeal. Collection amounted to \$2.55. One member paid her fee.

The singing of the National Anthem brought this part of the meeting to a close.

Mrs. Malcolm MacLauchlan then read a poem which she had composed, for Mrs. J. E. Misener, who is leaving the district, and a
