VOL. 26.—NO. 10

To Our Patients and Friends in P. E. Island.

IT GIVES US MUCH PLEASURE to announce to our patients, friends and the public generally that our "President" will visit your island for the third time, and may be consulted in towns on dates mentioned below.

As heretofore, we will continue to treat all private and chronic diseases; and we can assure all who desire to consult us on any subject, however delicate, not only of a candid opinion and the most skillful treatment, but that everything revealed to us being received in the strictest confidence.

The numerous letters of thanks, and the continued good reports from patients under treatment, are not only gratifying to us, but a guarantee that our services are appreciated and may be relied on.

DR. GEORGE A. BAYNES,
President of the Council of Medical Specialists,

May be CONSULTED FREE at the following Towns, on days and date mentioned:
Health is Greatest of Blessings.

It Cannot Last Forever.

I've a word of comfort for you, Who on Life's rugged road Are toiling 'neath the burden Of a heavy, hopeless load. It will make your heart grow lighter, Whatever be your wrong, And give you strength to bear it If you take these words along, And say, when clouds of darkness Round your pathway hover, 'The sun is shining just beyond— It cannot last forever.'

Just try them when you're wearied By each petty care and strife, By each little aggravation Of your common daily life; When angry words are rising That you can scarcely smother, And everything seems "twisted up" And tied in knots together— You'll find these words are like a knife Each to itself knotted to sever; Then straighten out each tangle with "It cannot last forever."

Or, if some great disaster Like an eye one sweep your sky, And stunned and helpless with the shock, Beneath the wreck you lie, Remember that no storm comes But has a clearing day, The darkest night a morning, An end the longest way; Then take these words to cheer you, You'll find them like a lever To raise your sinking spirits up, "It cannot last forever."

Lower Montague, June 2, 1890.

PROVINCIAL ELECTION.—The Ontario Election will take place on Thursday next.

FREE.—Call at the Diamond Book store and get a sample bottle of Underwoods Ink the best in the World—free.

SALVAGE CORPS.—The regular monthly meeting will be held at their room, on Wednesday next, at 8 o'clock p. m. J. C. Milford, Sec'y.

W. R. WATSON, Druggist is wholesale agent for K. D. C. It is sold by all druggists, and guaranteed to cure Dyspepsia and indigestion or the money will be refunded.

I. O. O. F.—Mr. Benj. Bremner, P. G. M., goes to Summerside this afternoon to assist in the formation of a degree team for Prince Edward Lodge. He will be absent several days.

TEA PARTY.—The parishioners of Palmer Road parish at a public meeting held on the 1st inst., have decided to hold a Tea party on the 10th July next. William Callaghan, Secy. 3 i wky.

CAME TO GRIEF.—An exchange reports that the Dominion Illustrated, a Montreal publication, which was a fine paper and promised well, has come to grief, and the company is to be wound up.

DOWN ON TOBACCO.—The W. C. T. U., lately in session in Montreal, has condemned the use of tobacco in all its forms. Young women who make smoking caps and embroider tobacco pouches for young men will please take notice.

FREEDOM OF THE PRESS.—A Japanese editor, for writing disrespectfully of Jimmu Tenno, has been condemned to four years' imprisonment, a fine of 150 yen, and two years' police surveillance. Jimmu Tenno was an ancestor of the present Emperor.

NATURAL HISTORY SOCIETY.—The next meeting of this society will be held in J. D. McLeod's Hall, corner of Queen and Grafton sts. (entrance Queen st.) at 8 o'clock p. m., on Monday the 9th inst., when Mr. Geo. F. Owen will read a paper upon Prince Edward Island, 100 years ago.

ACKNOWLEDGMENT.—The teachers and children of Spring Park School, are deeply indebted to Messrs. George Carter & Co. for their kind present of flower seeds for the school garden. They hope that another year they will be in a position to be more profitable customers of the Messrs. Carter's than they have been hitherto.

ENDED IN SMOKE.—A correspondent of the Boston Globe, writing in reference to an item appearing in that paper about the number of cigars smoked during the year 1889, says he consumed 65,000 cigars during the year. Putting the price of cigars at a very low calculation, this individual has spent some \$3,000 in smoke for a single year.

A CHEERFUL GIVER.—The Transcript says: In investigating the result of an envelope collection in one of the Moncton churches not long since, an envelope was discovered, signed with a fictitious name, and containing simply a card on which was written, "The lord loveth a cheerful giver." There was no money whatever in the envelope.

SCHOONER SEIZED.—The Sydney Advocate says: "The schooner Corsair was seized at Glace Bay, last Saturday, for having on board a small quantity of liquor. The vessel was from St. Pierre, bound to Prince Edward Island. It appears that the liquor belonged to a passenger on board, and that the captain had no knowledge of its presence. The vessel has been released.

It is natural for girls to love flowers, but they sometimes forget that young men love them, too, and appreciate the refining and elevating influence of the fair ones' handiwork in the culture and study of a flower garden. Now, dear ladies, to have flowers, they must be planted now (it is useless to sow seed too late). Gay & Son have the plants, well rooted, for sale at the Charlottetown Market and at home. See advertisement in another column. may 31 dy wy 21

A BAD CASE.—A Halifax despatch says: A young girl, who was a passenger on the steamer Halifax from Boston attempted to jump overboard to-day. She had been flirting with a young man, and wanted to sit next to him at dinner. He was, however, seated next another girl. This made her mad, and she was about springing over when she was caught by some of the passengers. Then she went into hysterics and it took six men to carry her to her stateroom.

SHORT WORDS.—It is a rule of the cable companies to treat as single words all that do not contain more than nine letters. But all words of ten or more letters are charged two rates. This regulation encourages the use of short words, which printers as well as the telegraph folk prize more highly than long and unwieldy vocabularies. To this young man, use a short word instead of a long one whenever the choice is offered to you. Words are often weak in proportion to their length and strong in proportion to their brevity.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup has been used by mothers for children teething for over fifty years with perfect success. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as bright as a button. It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. ap11890dyedwky1y

THE PROPOSED SUBWAY

SENATOR HOWLAN'S ABLE SPEECH

(Continued.)

There are people who believe that the National Policy has not been of any use in Canada. There are others who believe it has. I know in the Maritime provinces, towns have been built up which have given a great deal of work to people living near them, and the commerce of the country has increased, and the towns are growing in population. We know also that Prince Edward Island has been unable to avail herself of the advantages that have been afforded to the other Provinces under the National Policy. We have no manufactures in our Province, and cannot have them from the fact that we have no continuous communication with the outside world. If we had daily communication with the mainland, our people would be able to establish industries and manufacturing concerns which they have not at present, and for want of which they necessarily suffer. You may as well say that if you sever one leg from the body that the pulsations of the heart could follow it, as to say that the pulsations of trade and commerce, and the enterprise which marked this Dominion, can extend to Prince Edward Island while she has been isolated from the rest of Canada for so many months of the year. While we have fulfilled our portion of the contract, made with the Dominion many years ago, no public works of any account have been done in our Province. It is continually stated that the Dominion has paid for the railway on Prince Edward Island. There is

NOT ONE WORD OF TRUTH in that argument. Prince Edward Island entered into Confederation on a basis of 100,000 people, at \$48 per head. The calculation was made up on the then existing debt of Canada, and also some \$60,000,000 that were to be expended on the building of the Canadian Pacific Railway, and on that basis we took \$48 a head, which amounted to \$4,800,000. Out of that \$4,800,000 the first year we paid for the cost of our railway \$3,114,735. If we had not built the railway we would have had that amount to our credit to-day in the Dominion Treasury.

The several railways built by the Dominion in each Province, including the Intercolonial tranches and extensions, but not the main line as originally constructed, cost as follows:—

Quebec, including the Leup branch \$5,570,823 25

New Brunswick 3,371,854 74

Nova Scotia 7,821,070 19

Total \$16,763,748 19

So that while the Dominion spent some sixteen millions since then in building railroads in the other Provinces, less than \$200,000 was spent in Prince Edward Island in building some thirteen miles of railway to connect the mainland with Cape Breton. We find no fault with that. We know also that some miles of railway have been built across Cape Breton, at an expenditure of \$3,000,000. We find no fault with that. We know that \$175,000 a year for twenty years has been appropriated for building a ship railway at Chignecto. We find no fault with that. But we do think that our terms of union should be carried out. We have memorialized the Government and the Queen, and we have asked for consideration in every way. Now, with regard to the

POSITION WE OCCUPY TOWARD THE OTHER PROVINCES,

we are told: "You people in Prince Edward Island do not suffer." If we take the exports of Prince Edward Island, which form the basis of trade as shown in the blue-books, and enquire into what they are, we will find that Prince Edward Island is one vast farm. From the census of 1881 I find that the products of the Province were:

Cats \$35,928 99

Potatoes 6,847 91

Turnips 1,958 57

Total \$40,735 87

Horses \$ 25,182 68

Cows and calves 6,158 51

Working oxen 47,291 84

Milk cows 44,743 25

Other horned cattle 125,495 00

Swine 40,134 00

Sheep 228,065 00

Wool 14,945 00
