GYPROC FIRE PROOF WALLBOARD

Gyproc Fire-protective Wallboard is a rigid wallboard made of pre-cast gypsum plaster encased in heavy paper. It is the ideal pre-fabricated material for lining walls, ceilings and partitions, in modern dry-wall construction.

Gyproc Wallboard makes the ideal interior finish for partitions, wall or ceilings. It is readily nailed to wood studs and joints in wood-frame construction, or to furring strips over masonry or to steel studs in metal framing.
