CURRENCIES

MONTREAL (CP) — The U.S. dollar Wednesday closed at a discount of 3 1/2-1/2 per cent in terms of Canadian funds up 1/2. Pound sterling 2.66%, unchanged.

TORONTO

TORONTO (CP) — The stock market Wednesday lost the support it had gained Tuesday and industrials were thumped hard for the third time in four sessions. Mines and western oils also were lower.

Western oils had four losses for each gain, although their index didn't reflect the depth of the decline, ending only a bit more than one-half point. Senior issues were fractionally easier but losses among lower-prices stocks ranged to 30 cents.

The base metal index recorded a loss if nearly a point. High-priced stocks moved down in a price-conscious range. Coppers, uranium and golds were lower with declines ranging to 25 cents. Index losses: Industrials 4.35 to 420.04; golds .77 to 77.07; base metals .90 to 166.63; western oils 61 to 151.86.
