SECOND EDITION

THE DAILY EXAMINER.

FEBRUARY 14, 1880

A RECEPTION was given to General Grant at the Vice-Regal Palace in Havana, on the 4th inst.

PRINCE EDWARD ISLAND and St. Stephen Bank bills are now taken at their face at the Bank of New Brunswick.—*St. John Sun*

DONNA FRANCESCA, Garibaldi's new wife, was the nurse of his grandchildren: by her he had two children, named Manlius and Clelia.

CHOCOLATE CARAMELS and other choice confectionery received by *Northern Light*. B. BALDERSTON. [Feb. 11, 80]

YESTERDAY His Worship the Mayor forwarded to Dublin £500 stg. for the relief of the distress in Ireland. This is not all; other remittances will be sent sufficient to fully sustain the high character of Halifax in works of charity.—*Hx. Herald*, 10th inst.

THE EMPRESS EUGENIE'S VISIT TO ZULULAND.—The *London Times* states that it has now been decided that the Empress Eugenie, who will embark in the Union Steamship Company's Royal Mail Steamship *German* at the end of March will be accompanied by Sir Evelyn and Lady Wood, besides four other ladies and gentlemen, whose names have not yet been made known, and seven servants.

TRADE WITH THE WEST INDIES.—The first visit of the steamer "Beta" from Halifax to Kingston, Jamaica, has been well received by the Kingston merchants, and it is expected a most profitable trade will ensue. Mr. Morrow, of S. Cunard & Co., visited Kingston, and received most encouraging indications of a prosperous trade by steam between Canada and Jamaica.

FREIGHTS IN NEW YORK.—A telegram from Messrs. Scammell Bros., New York, which appears in the "Globe," states that freights have become suddenly active, and there is considerable enquiry for vessels of large tonnage. Rates, however, remain firm at previous quotations. This news will be hailed with gratification by ship owners, particularly by those whose vessels have been lying for weeks past in American ports awaiting cargoes.

Gifts to Princess Louise.

The *Liverpool Post* of January 23rd says: "We understand that the Princess Louise received on board the *Sarmatian* a very handsome young St. Bernard dog, from the far-famed West Kirby kennels, Blucher by name. The dog is a son of Mr. McDonald's Bayard, winner of the first prize at London and Birmingham dog shows, and will prove a worthy companion for Bertha, which the Princess was so pleased to take out with her to Canada upon her first trip last year. Another presentation was made to the Princess by Mr. W. Gibbs, of London, through Captain Chater. This was a casket of navigantine, a new preparation, alleged to be a specific against sea-sickness. The casket was made of beautifully polished Spanish wood, strapped with gold, and bore the name of Her Royal Highness, as well as that of the Marquis of Lorne. The Duke of Edinburgh personally acknowledged the gift on the part of the Princess.

The Ladies-in-Waiting to the Princess Louise.

A correspondent of the *Halifax Evening Mail* writes: "The Ladies-in-Waiting on H. R. H. the Princess Louise, at this time, are Lady Pelly, daughter of the Right Hon. Francis, Wemyss and March, a Scottish peer; who goes under the title of Lord Elcho. He is M. P. for Haddingtonshire and resides at Gosford House, Haddington, Scotland. The Hon. Mrs. Langham, is the daughter of the late Right Hon. Godfrey Wentworth Bosville MacDonald, of Armadale Castle, Sleat, Island of Skye, commonly called Lord MacDonald of the Isles. The Ladies-in-Waiting are therefore both Scottish ladies, of the oldest and most honored of Scottish families. Many Highland persons who have settled in Canada, from the Island of Skye, will be delighted to learn that the Hon. Mrs. Langham, whom they knew in the Highlands, as the Hon. Eva-Maria Louisa MacDonald, is now one of the ladies in waiting on H. R. H. the Princess Louise at Rideau Hall. The Earl of Grosvenor, Lord Lorne's cousin, is at Montreal, and will be at the Vice-Regal residence at Ottawa for some weeks.

Weather Bulletin.

Probabilities for the next 24 hours for the Maritime Provinces.

TORONTO, Feb. 14, 10 a. m.

Fresh to brisk winds, gradually shifting towards the west; cloudy weather with snow or in southwesterly districts rain, followed by fair weather to-morrow.

THINK nothing profitable which will ever force thee to break thy word, to lose thy self respect, to hate, suspect, curse or deceive any one, or to desire anything that need be covered with walls or veils.

IRISH RELIEF.

AUSTRALIA'S NOBLE CONTRIBUTIONS—THE WORK OF THE PAST WEEK.

(By Telegraph to the *Halifax Herald*.)

DUBLIN, Feb. 9.—The Dublin Mansion House Committee acknowledges receipt of the following additional contributions:—A fourth subscription from Melbourne of £4,000; £1,000 from Sydney, N. S. W.; £300 from New Castle-on-Tyne; £100 from Quebec, and £500 from Greenock.

The past week has added but little to the evidences of extreme distress, while it has largely augmented the resources of the Relief Committees and provisions of the Government. The beneficial effects of the grants of the Relief Committees is seen in the quieter tone of the press and the cessation of the cry of alarm. There are still deplorable accounts from some districts, but they are generally more hopeful in spirit. The extent to which the land owners have embraced the opportunity of obtaining loans on easy terms, is sufficient proof that the supposed barrier of red tape has not been thought insurmountable. The *Post* of this week says the number of new applications were two hundred, and the amount applied for £111,000, which makes an aggregate of £376,000 since the 22nd of November.

The Earthquake in Cuba.

A letter from Havana, dated Jan. 31, says of the recent earthquake in Cuba: "All the public buildings and most of the private houses, except those of wood, in San Christobal, are heaps of ruins, and the Government has sent a company of engineers to the place to clear away the rubbish. The church, the prison, the guard house, the telegraph building, and the consistorial building are in ruins, but all those structures are known to have been already in a ruinous state; and, as they were isolated were easily ruined by the earthquake. No lives were lost, but seventeen civil guards were wounded by the fall of the guard house. The shocks were in almost every instance accompanied by a rumbling noise, resembling thunder, from under the ground. In several parts of the Vuelta Abajo sulphurous eruptions took place, and the mineral waters of San Diego assumed a milky color.

The Wedding.

At the end of the first year comes the cotton wedding; at two years comes the paper; at three, the leather; at the close of five comes the wooden; at the seventh anniversary the friends assemble at the wooden, and at ten comes the tin. At twelve years the silk and fine linen; at fifteen the crystal wedding. At twenty, the friends gather with their china, and at twenty-five the married couple that have been true to their vows for a quarter of a century are rewarded with silver gifts. From this time forward the tokens of esteem become rapidly more valuable. When the thirtieth anniversary is reached they are presented with pearls; at the fortieth come the rubies, and at the fiftieth occurs the glorious golden wedding. Beyond that time the aged couple are allowed to enjoy their many gifts in peace. If, however, by any possibility they should reach the seventy-fifth, they are presented with the rarest gifts to be obtained, at the celebration of their diamond wedding.

FORGETFULNESS.—What a boon is the faculty of forgetfulness of little things! To day's troubles look large, but a week hence they will be forgotten and buried out of sight. Says one writer: "If you would keep a book and daily put down the things that worry you, and see what becomes of them, it would be a benefit to you. You allow a thing to annoy you as you fly to settle on you and plague you; and you lose your temper—or rather get it—for when men are surcharged with temper they are said to have lost it—and you justify yourselves by being thrown off your balance by causes which you do not trace out. But if you would see what it was that threw you off your balance, and put it down in a little book, and follow out and ascertain what becomes of it, you would see what a fool you have been in the matter. We cannot afford to wear ourselves out with petty worries."

HAY FOR HOGS.—Few farmers are aware of the fact that hay is very beneficial to hogs, but it is true, nevertheless. Swine need rough food as well as horses, cattle, or the human race. To prepare it you should have a cutting box or hay cutter and the greener the better. Cut the hay as short as oats, or shorter, and mix with bran shorts or middlings, and feed as other food. Hogs soon learn to like it, and if soaked in swill or other slop food is highly relished by them. In winter use for the hogs the same hay you feed your horses and you will find that, while it saves bran, or other food, it puts on flesh as rapidly as anything that can be given them. In summer the use of hay can be commenced as early as the grass would do to cut, and when run through the cutting box can be used to advantage by simply soaking in fresh water until it sours.

A BONE SPAVIN ON A VALUABLE HORSE.—Blistered, fired, rowelled, and did everything without any benefit. A neighbor advised me to try Giles' Liniment. I bought a quart bottle. To my intense satisfaction, the bony deposit disappeared, also the lameness. H. B. Edwards, Park Hotel, Oceanport, N. J. Send to Dr. Giles, 120 West Broadway, N. Y., for pamphlet containing full information. Giles' Pills cure rheumatism. Trial bottles 25 cents.
