

THE DAILY EXAMINER.

JULY 8, 1895.

WANTED-A REFORMATORY.

A course of correction and reform for bad boys has long been needed. A movement towards the establishment of one was begun many years ago. But sufficient support was not given it. The Chief Justice has still to lament that our courts are compelled to send juvenile offenders against the law to jails and penitentiaries to herd with hardened criminals. We feel sure that the regret lately expressed by the head of our judiciary is felt by every humane man and woman. There are in some communities of this Province droves of boys who seem, occasionally, to care for neither man nor God. Natural depravity, or the need of religious instruction at home or in the schools, or a weak and flippant discipline, or all combined, have produced classes of boys and young men who will, if not reformed and taught respect for the law, menace society and fill our prisons. To permit these boys to become criminals and then sentence them to terms in jails will but increase the evil. A reformatory is needed. We trust that our leading public men will see to it that the need shall be supplied.

THE EGDMONT BAY DISTRICT.

Advices from Egmont Bay state that the tactics which two years ago resulted in a deficit of an eighth of a million of dollars in our small Provincial Treasury, are now being continued in the Egmont Bay district. As we announced a few days ago, the Commissioner of Public Works has been there, and a sufficient number of votes to turn the election in favor of the Grits will, if possible, be bought with money borrowed from the banks, for which the people at large will, in the future, be compelled to bear increased taxation. The corruption of the present administration is rank, it smells to heaven. But we shall be greatly disappointed if Messrs. Peters and McLean succeed in the Egmont Bay district. That district has heretofore been accounted one of the purest in Prince Edward Island. The arts of the briber have, in the past, failed there. We trust that they will fail now. If a few men should play the traitor for the sake of a new road not needed by the public, or some dollars here and there spent upon pretence of buying rights of way or paying for labor on the roads and bridges, we trust the honest electors of the district will show their resentment of such electoral corruption and prostitution by voting for the Opposition candidate. The Patriot may prate about Mr. Stephen E. Gallant. But nothing practically will be gained by supporting the Government candidate, and thus condoning the Government's political rascality, while the honor of the district will be sacrificed and lost. The Government, which was begun in deception and is continued by a nefarious system of bribery and taxation, will not scruple to, metaphorically, snap its fingers at the Egmont Bay district once their object has been accomplished. We sincerely trust that those who united in support of the honorable gentleman who, as a tribute to the constancy of the Acadians of this Province was lately elevated to the Senate, will stand united in support of his successor, the Liberal-Conservative candidate for the Third District of Prince County, Mr. Lawrence Arsenault.

NOTES AND COMMENTS.

Sarah Bernhardt drew a large audience to a Paris civil court lately, where she was sued for not paying a horse dealer's bill. She said that she always destroyed receipts, but that she had paid this one, and being asked if she would swear to it, said "Je le jure" and won her case. According to the Vancouver News-Advertiser the bank meetings that have been recently held "are playing a game" with Mr. Lester's theories. The Mail and Empire remarks, the Opposition leader should at once introduce a bill prohibiting the publication of bank statements. Here is a plot for Gilbert and Sullivan. On H. M. S. Ringarooms on the Australian station the captain recently reprimanded the surgeon for some slight breach of duty, whereupon the latter put the captain on the sick list. The captain ordered the surgeon under arrest. The surgeon reported that the captain was suffering from mental disease and incapable of commanding the ship, but the captain had him court-martialed and dismissed. Very many persons in Charlottetown and throughout the province will hear with deep regret the death of James Peake, Esq., which occurred at Vancouver B. C. yesterday after a brief illness of paralysis of the brain. Mr. Peake was a brother of George Peake, Esq., of this city, and was for many years a member of the well-known firm of Peake Bros & Co. He left this province for the Pacific Coast about fifteen years ago. We sincerely sympathize with his wife and family. It would seem that the next great war to take place will be between Russia and Japan, and before many months will have passed by. The Japs do not seem to be at all alarmed by the prospect of the proposed war with Russia. Nevertheless, if the conflict should really come, Japan must not expect to meet with such cowardly and undisciplined opponents as she faced in the fight with China. Perhaps she knows this and is prepared to take the chances. In any case she does not seem to be greatly disturbed by the growl of the northern bear. Her pluck calls for admiration, whatever may be thought of her tenacity. The Toronto Globe says: "Let us have an infusion of patriotism into the commemoration of the national birthday. Let us have our banners on the outer walls. Let us wear the maple leaf elsewhere than on our lawns. Let us give young Canada a few more fire crackers to burn, even if the 24th of July may become less splendid as a result. Let us call upon our orators to speak of Canada on Dominion Day in such fashion that the world will read the speeches next morning, and admit the growth of Canadian national spirit. Yesterday was a sort of national picnic day. Let next Dominion Day be that also and something more." The London Chronicle publishes what purports to be a confidential document summarizing the government's policy under three headings. Under the first head is the imperial policy, including a strong navy. The second head is devoted to the colonial policy, including the development of Africa and improved facilities of intercourse between the mother country and the colonies. The third treats of the domestic policy, embracing poor law reform, easy transfer of land and removal of registration grievances, restriction of immigration of pauper aliens, fiscal reform, amending employers' liability act, improved dwellings for the poor, facilities to enable workmen to purchase dwellings, agricultural legislation and other matters. It is announced from London that invitations have been issued to newspaper men to witness a trial of a new typesetting machine, which will compose 50,000 letters an hour—a task equal to the labor of thirty-six compositors. The machine is the invention of Rev. Father Colondoli, a Sicilian. The difference in speed is so great, that instead of the letters being made to fall separately into the composing stick, entire words can be composed in an instant by the simple turning of a knob. The composition of words is in appearance like a harp, whose cords are replaced by metallic tubes adhering to each other in four series. All these tubes communicate with a keyboard, divided into twenty-one small squares, covered with electric knobs. Each letter is printed on the little knobs. In the squares consonants are not repeated, but the vowels are triplicated in a very ingenious way, which permits the composition of words of all lengths with single finger in touching two knobs at the same time, as be, bi, bo, bu. In considering the refusal of the members of the Newfoundland Legislature to extend the Government's measures of economy to the sessional indemnities, the Montreal Star has the following editorial observations: "There are excellent precedents for such a conduct. In Canada the Opposition are always condemning the Government for extravagance, although, as every good Tory knows, the Ministers are almost invariably in their scrupulous regard for the public purse. But the same Opposition have never been known to refuse an increase of sessional indemnity when the Government proposed to subsidize the talkative members of long sessions. Consequently, on two occasions in the last ten years the Ottawa M. P.'s have voted themselves \$1,500 instead of \$1,000. So in Quebec the Legislature has fully denounced the overpayment of the Member of the Opposition at the expense of the province, but has not adopted the miserly policy of reducing the sessional allowance to its old figure. Even in Ontario, when the Premier's salary was increased from \$5,000 to \$7,000 the Opposition voted to reduce it to \$2,000, but Mr. Meredith, with incomprehensible austerity, declined it." Mr. Greenway's supporters have also been pleased to vote themselves \$100 additional. During the past month monuments to the memory of those whose names will ever appear prominently in the pages of the country's history have been erected at Ottawa, Montreal, Lewis, and Louisburg. Another is now in course of construction in Toronto, and another at Lady's Lane, to the memory of Canada's defenders. Each will impress upon every Canadian the fact that his country has a glorious history, and inspire him with the confidence that another at Lady's Lane, to the memory of Canada's defenders. INTERESTING ODDS AND ENDS.

It is the intention of the Emperor of Germany to send a squadron to visit the ports of the nations who were represented in the naval display at Kiel. A German correspondent writes from Metz that more than 20,000 persons have declared their adherence to the projected twenty-fifth anniversary of the battle of Metz. Baron Hirsch, the Jewish millionaire, has just leased the shooting on the estate of Cardinal Vasary. Prince Primat of Hungary, which extends over 77,000 acres. John N. Cooper, a man of social prestige and refinement, of White Plains, N. Y., was bitten a short time ago by his pet terrier, and last week died a terrible death of hydrophobia. Steps are being taken in London and Berlin to celebrate in a fitting manner in May next the centennial anniversary of the vaccination of the first child by Dr. Edward Jenner. The Bishop of Coventry, England, who recently got married, made everybody laugh on his return from his honeymoon by preaching a sermon on the topic "The Penitent's Return." The Danish painter Tuxen has gone to St. Petersburg, at the request of the Czar, to finish a painting representing the wedding of the Emperor and Empress, which is to be presented to the Queen of England. Three of a family of six named Tesch died last week at Stillwater, Oklahoma, from being poisoned, and three others are not expected to recover. SPECIAL DESPATCHES TO THE EXAMINER. THE NEWS FROM OTTAWA. No Change to Note in the Political Situation. A Few Months' Delay May See the Manitoba School Question Settled. OTTAWA, July 8. There is no change in the political situation. The Cabinet met just again on Saturday. At the close the Premier intimated that nothing of public importance had transpired, although it is settled that there is to be no remedial legislation this session. Public curiosity is yet unquenched with respect to the official announcements which are to be made to-day. In each branch of the Legislature it is generally conceded that the Government's decision to postpone legislation is a wise one. A delay of a few months may see the difficulty settled without the passage of drastic measures by the Dominion Parliament. An Encounter With Tramps. MONTREAL, July 8. Rev. M. Dutilly, vicar of Acton, Que., had a terrible encounter with two tramps who attempted to break into his residence. The priest fired a gun on the back of one tramp and knocked the other down but was himself struck with a bar of iron and stabbed in the breast. He fell unconscious and the tramps escaped. Found Dead in Bed. MONTREAL, July 8. Mrs. Leblanc, mother of Thomas Leblanc, proprietor of the Queen Hotel, was found dead in bed yesterday morning. Another Girl Baby. WINDSOR, N. S., July 8. W. H. Townsends livery stables were burned yesterday. Nine horses were burned to death. 100 boys' Flannellet Shirts for 25c. worth 50c. and 60c.—J. B. Macdonald & Co.
