FRAGRANCE —The aroma of "SALADA" TEA B834

etokens the perfection of the leaf. Famous for 30 years, Salada never aries the excellence of its quality.

ENTERPRISE BLAZER PIPELESS FURNACE

ONE TON IN THREE IS WHAT YOU CAN SAVE WITH A PIPELESS FURNACE—and it burns any old kind of fuel—hard or soft coal, wood or coke.

With Pipeless Heating the entire system is in the cellar but all the heat is in the house. Not a degree is wasted or absorbed by cellar pipes, none is thrown off around the furnace, and your cellar is always cool—just right for storing fruits and vegetables.

You can change to Pipeless Heating in a single day—there is nothing at all to the installation. If we start today, we'll be through tomorrow and your heating troubles will be ended. No matter what next winter has in store, you'll be warm and comfortable.

We have not the space to say all we'd like to in this advertisement, but if you'll call in, we'll turn the furnace inside out for you. 32

Get your share while they last. (Raw cotton has advanced 10 cents per pound.) Mens' big warm winter Ulsters, double breasted, nice brown colors, sizes 36 to 42, for $16.50. IVES & MURDOCK, LIMITED.

THIRTEEN KILLED MANY INJURED

UDINE, Italy, Oct. 4.— Thirteen men were killed when an explosion occurred in a plant making fertilizer from old shells brought from the battlefields.

The "dud" which was the cause of the explosion, set off other shells. In addition to those killed many persons were injured.

TESTING THEORIES WITH MICE FAMILY

NEW YORK, Oct. 4.—Predetermination of sex, goal of many scienific experiments with birds and fowls, is being attempted with mamals for the first time at the Carnegie Institute's station on Long Island. A careful chosen family of mice has been segregated for the experiment.

Biologically mice are more similar to man than any specimens previously used in seeking predetermination of sex, according to those making the experiments. If successful with mice they plan to apply the results to humans.

Probing Into Mystery Of Searle Death

METHUEN, Mass., Oct. 4—Dark rumors of long standing that the death of Edward F. Searles, eccentric Methuen millionaire, had been "helped along" were brought to a head today when District Attorney Donnell, of Essex County, ordered the body exhumed for autopsy.

Donnell issued a statement in which he declared that he had no evidence to warrant the belief that the millionaire had met death through violence or poison, but that the autopsy would set at rest all rumors and determine their truth or falsity. The death of Searles, nearly two years ago, was supposed to have been from heart failure. An anonymous letter, in which the writer declared Searles had been poisoned, started the investigation. Following O'Donnell's receipt of this letter, Dr. Victor A. Reid, Assistant Medical Examiner, admitted that certain symptoms shown by Searles were "compatible with arsenic poisoning." A conference between Dr. Reed and Donnell today resulted in a decision to perform an autopsy.

After Searle's death wonderment was caused here by the fact that the millionaire recluse, who during his life had spent many thousands in public benefactions, had not left a cent to anyone or any institution in Methuen. The only beneficaries are Arthur Walker, of New York, his former secretary, and Albert Victor Searles, nephew. Walker was left all the vast Searles fortune, said to amount to $50,000,000 with the exception of $250,000 left to his nephew.

Albert Victor Searles contested the will and received a settlement said to have been the sum of $4,000,000. His attorney, Sherman L. Whipple, claimed that his client was the victim of a sinister plot. Since this settlement various attempts have been made to get large chunks of Albert Victor's fortune. His wife received a divorce and settlement involving a large amount. He is defendant in a breach of promise suit for $2,000,000 brought by a Portsmouth woman. He is alleged to have paid $150,000 in settlement of Scott W. Pauls' claim against him for alleged alienation of Mrs. Paul's affections.

Delicate Problem For French Army

PARIS Oct. 5.—Among the many delicate problems arising out of the return of Alsace-Lorraine to France is that of the admission as officers into the French army of Alsace-Lorrainers who have already served with the Germans before and during the war. It was naturally accepted that, seeing they were conscripted by the Germans they could not be blamed for having served the enemy. But if this applied to private soldiers, the question was whether it could also be applied to men having held commissioned rank in the German army. The Germans, it was argued did not easily give commissions to Alsatians unless convinced to the letter they were thoroughly loyal and friendly. Now it appears however, such differentiations cannot be made.

During the war, when suffering from a great shortage of officers, the Germans simply commissioned whom they pleased, so that many Alsatians may have been as unwilling officers as they were soldiers. The cases will be carefully examined of course, but there seems no intention to exclude candidates for French commissions merely on the grounds that the applicants held commissioned rank in Germany in the past. It is therefore possible that French recruits may sometimes be trained by an officer who may say that he bombed Paris during the war, simply because he was forced to do so, and because it is a soldier's duty to obey.

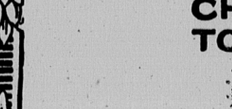
She needs it—
"The Iron Food for Vitality."

The Iron Food for Vitality

True Beauty Food
is an "iron food" like raisins. Serve daily as a breakfast fruit for best results

Stewed Raisins
Serve for breakfast every morning and get your daily iron this way.

Cover Sun-Maid Seeded Raisins with cold water and add a slice of lemon or orange. Place on fire; bring to a boil and allow to simmer for one hour. Sugar may be added but is not necessary, as Sun-Maid Seeded Raisins contain 75 per cent natural fruit sugar.



Raisin Pie
Men are quickly refreshed at night by a dessert like this.

A more delicious breakfast dish than stewed raisins served with cream never has been known—just try and see.

You'll want it *every morning.*

The food-iron of the raisins will be an every day supply, if this becomes your regular fruit dish. The blood absorbs the iron; and vigorous vitality, if you possess it, is thus protected. Where vitality is lacking, it is frequently restored in this delightful way.

The greatest charm of woman is vitality. Its signs are bright eyes, healthful energy and a pretty rose tint on the cheeks.

You need but a small bit of iron daily, yet that need *is vital.*

Pale, tired women are given this attractive dish for breakfast at a famous sanitarium in Battle Creek. For physicians know that value of the raisin.

SUN-MAID RAISINS

Use Sun-Maid Raisins, made from California's finest table grapes—American raisins, processed and packed immaculately in a great modern California plant.

Seeded (seeds removed); Seedless (grown without seeds); Clusters (on the stem). Also a fine, *ever-ready* dessert.

Raisins are cheaper by 30 per cent than formerly—see they are served regularly in your home.

Free We'll send 100 luscious Raisin Recipes in a *free book* to anyone who mails coupon below.

HARDER WORK WANTED, SALARY NO OBJECT.

Rev. William Aitchison, Vicar of Rerry Pomeroy, a small rural praish near Totnes, Devonshire, G.B., is resigning in order to become Vicar of Withycombe Raleigh, Exmouth, a town parish with a population of 7,000. In his parish magazine he explains that he is making the change so that he may do harder work before he gets too old. Mr. Aitchison graduated at Oxford in 1899 and was ordained, after being called to the Scottish Bar in 1905. According to "Crookford's," it appears that Mr. Aitchison is giving up a net salary of 284 pounds and house for one of 203 pounds, house and four acres of glebe.
