THE S. S. CORAN sailing from Montreal Friday morning, August 9th, will be due at Charlottetown, Monday morning, August 12th. It will sail for St. John, Nfld., via Sydney. For further particulars as to freight and passage see advertisement later or apply to Peake Bros & Co.

A CELEBRATED CASE.—The row between the two brothers, to which reference was made in yesterday's issue, will be aired at the police court tomorrow. The eldest son, the one who was struck with the poker, has summoned his brother to court for assault. The case promises to be interesting.

A SUSPECTED THEFT.—Hattie McDonald, whose native place is P. E. Island, is in the hands of the police on a charge of theft. On May 15th she is supposed to have stolen two gold watches and \$14 from Chas. Mayall. Hattie is 28 years of age. She has played in police circles before.—St. John Telegraph.

A GREAT LOBSTER.—We are informed, on good authority, that the largest lobster of the season was caught by Samuel Jolly more, at Mill Cove. The following are the dimensions given us: Length of body, 22 inches; length over all (claws included) 35 inches; weight, 18 lbs. (If these figures are correct we are almost positive that it must be the king of crustaceans.—Western Chronicle.

A VALUABLE FIND.—While walking across lots near Seabrook, N. Y., a few days ago, a man named Walker struck his foot against something sticking out of the ground, which he found to be an old ramrod. He suspected that it might mark a treasure, buried perhaps in the war times, and began digging. At a depth of six feet he found a jug which contained almost \$500 in gold coins.

A GOOD TURNOUT.—The Benevolent Irish Society and the Ancient Order of Hibernians marched from their respective halls to the railway station this morning, en route to Emerald, where the first-mentioned organization is celebrating the anniversary of O'Donnell's Birthday in a royal manner. The Citizens Band headed the procession. There was a good turnout of both societies, and they presented a splendid appearance.

DON'T MISS IT.—Mr. Smily possesses a rare and subtle power of expressing his own genuine humor both by voice and gesture. In addition to his histrionic talent and his other powers, Mr. Smily wields effectively the gift of ventriloquism, which he brings in play in his charming comedy, "Behind the Scenes" to be presented at the Opera House on Aug. 7th. All the selections upon the programme are entirely original, the artists' own compositions.

HAVEY'S FOUNDED HIM YET.—A sure and somewhat spectacular method of suicide was taken by James Fisk, who killed himself at Beaver, Or., a few days ago. He stored a great quantity of giant powder in his house—under his bed, from all that could be surmised after the event—and blew himself and most of his house into nothingness. The coroner would not hold an inquest in the case, because all that could be found of the suicide's body was part of a foot.

ANOTHER VICTIM.—William Allard, a French-Canadian of Lowell, Mass., has been swindled out of \$170 by green goods sharpers. They used the usual method of "depositing" with Allard \$2000, for which he was to care for an alleged child for a year. While the swindler went for the child, the satchel, with \$2000 supposed to be in it, was left with Allard, who saw \$470 as security. The men never returned, and the satchel was found to be filled with waste paper.

ORDER OF FORESTERS.—A court of the Canadian Order of Foresters was inaugurated last evening, to be known as "Court Charlottetown." This is the pioneer court of the Canadian Order here, and stands under the usual method of circumstances. The officers are: J. P. C. R. Geo. Dewar, M. D.; C. R. Thomas D. Rogers; V. C. R. W. W. Moore; R. S. John McLaughlin; F. S. B. Rogers, jr.; Trees, Thos. Dovers, Chas. Neil McNeill; S. W. J. H. Anderson, J. W. Henry Piggett; S. B. G. Gillespie; J. B. Samuel Wood.

FOUNDER FOR AGENTS.—Attention is directed to the advertisement of F. F. Gillespie, which appears elsewhere in to-day's issue. Mr. Gillespie has lately been making extensive alterations and improvements in his premises on the corner of Queen and Sydney streets. Amongst other things he has had ten large ample rooms fitted up for the accommodation of commercial travellers. These rooms are all well lighted and neatly arranged, and there is an elevator and office in connection. The elevator runs from the lower flat to the top, and is a great convenience. It was made by A. White & Son, and is pronounced "a first-class job."

DIDN'T KNOW IT WAS LOADED.—A young man, lately over from P. E. Island, has been hawking with some town boys for one of our M. D's. In turning over some he called the boys to help him catch some handsome little animals he saw skipping around. He insisted on catching the big one, as it was he that did the work. The boys caught the little one, but they were harmless. He threw his coat over his prize. He screamed and threw down his net. The boys asked him if he was bitten. He gasped for breath and said no, but was, he was poisoned and smothered. He stayed in the woods all night. When asked if he did know what snarks were, he said he had heard tell of them but thought they were big dog animals.—Chatham World.

CRIME IN MONTREAL.—Montreal is having its hands full with murder cases just now. Napoleon Demers has been committed for trial on a charge of murdering his wife. The prisoner's guilt hangs largely on the fact that blood was found on his trousers and that there was practically no one else to do the crime with which he is charged.

Another man, Azarie Gauthier, has also been committed to trial for killing his intended wife, Selma Czogzy. This latter murder was clearly premeditated, and there is no doubt whatever as to the guilt of the man. When brought before the police court on Thursday last he endeavored to put in a plea of insanity. He had tried previously to make people believe that he was an epileptic and irresponsible when he killed the unfortunate girl.

THE WORLD OF SPORT.

The Turf. Robert J. and Joe Patchen pace at Buffalo, N. Y., to-morrow for \$5,000.

The races at Summerside will take place to-morrow. With a good field of starters in each event, the races promise to be most interesting. Train will leave Charlottetown at 9.15.

Below we give the list of entries making second payments in the two-year-old (Futurity) race to be held during exhibition week this autumn on the Driving Park here. The colts are highly spoken of, and most of them took part in yearling races last season. This race has now become one of the events of the two days' trotting during the Exhibition, and this one bid fair to equal, if not surpass, any preceding one. It is expected that there will be a keen contest among these youngsters for first place, and the race ought to draw a lot of people to witness it.

The Charlottetown police have been notified to keep a close eye after bicyclists riding along the sidewalks. It is to be hoped they will make an example of the first wheelman found violating the law in this respect.

St. Stephen's town council has passed an ordinance directing that no bicycle shall be driven at a faster rate of speed within the town limits than eight miles per hour, and that every bicycle must carry a bell at all times and a lantern at night.

New York is agitated over a new bicycle with an original mechanism, which sped up the hill at Riverside drive and Ninety-second street a few days ago. The inventor asserts that the wheel will save its rider a vast amount of exertion and give him a high rate of speed. The most noticeable point about the working of the machine was that, while the motion of the wheelman's feet was far slower than on the ordinary bicycle, a high rate of speed was maintained. The motor consisted of two radials, beams, fulcrums, one on either side, to the rear of the frame. From the forward ends of the beams arms were attached. At the angles formed by the beams and the pedals driving rods connected with the cranks, which were placed as in the ordinary bicycle, diametrically opposite each other. The wheelman's foot, instead of describing a circle, made an oblong curve. Riding a wheel geared to 100 inches, each time one foot was turned the wheel covered a space of 26 feet and two inches. The rider, who was said to be a non-professional, when timed, made the last third of a mile in 40 seconds.

The King. Jolinie Griffin has signed articles to box George Dixon's twelve rounds before the Suffolk club of Boston Aug. 23. The gross receipts of the Dixon-Connolly contest were \$1,300. The boxers' share was \$648. Connolly and his manager had \$168 for their portion.

Dan Creedan and Frank Craig, the Coffee Coker, have been matched to fight for a purse of \$2,000 offered by the National Sporting club of London. Date, Sept. 23rd.

Yachting. Advice from Providence state that the Defender is to have a new steel boom and gaff. It has been estimated that there will be a reduction of weight by this move from wooden spars of something like a ton, while the stability will be all the better, as cylinder spars can be trussed inside with steel spurs all way along in the same manner as steel spars of Valkyrie III, regulated.

BEER BROS. THE WEATHER.—Light to moderate winds; generally fair; not much change in temperature.

This was the best time made, giving Parnell third money. Mr. Brown will stay here until after the races to-morrow.

ACCIDENT.—While Miss May Sharpe, daughter of Mr. Jas. Sharpe, of this town, and her cousin, Miss Nancy Yeo, of Boston, were driving out of the yard last evening, Mr. Cannon came along the sidewalk on his wheel at his usual pace and not noticing the horse in time ran right between the animal's legs. The horse took fright and bolted at once, upsetting the buggy and throwing the young ladies out against a building on the other side of the street.

Miss Sharpe was able to get up and walk home but Miss Yeo had to be carried. Two doctors were sent for, and after an examination pronounced Miss Sharpe's collar bone broken, and so far as we can find out Miss Yeo is badly hurt about the back. GENERAL TELEGRAPHIC NEWS.

SALT LAKE CITY, Utah, Aug. 4.—A special to the Tribune from Fruta, Col., says: Miss Jennie Knox was shot and instantly killed last night by James Powell, a discarded lover. Powell was a laborer working for her father. They had a terrible struggle, he tearing off most of her clothes. He then turned the gun on himself and sent a shot through the centre of his forehead. Powell is not dead.

CONSTANTINOPLE, Aug. 4.—The reply of the Porte to the demand of the powers for reform in Armenia is conciliatory, and on many points agrees with the powers' demands. It proposes to appoint Christian assessors to assist the Turkish provincial government and to admit a proportional number of Christians to the offices of officials, police and gendarmes, and also promises to restrain the Kurds from violence. As it also declares that some of the powers' demands are unacceptable, or impossible of execution, it is probable that the powers will not be satisfied with the reply.

CHICAGO, Aug. 4.—A special from Macsout, Ill., says: News has reached here of a fiendish outrage committed in the name of a practical joke near Venedy Station a few miles east of here. Blazer Eli, a well known character of the community, aged sixty-two years, had been on a three week's spree, and his associates packed his pajamas with shavings and dice chips of fire, intending, it is supposed, to tantalize the old man with the amount caused thereby. The coal set the shavings ablaze, and in a few minutes the would-be joker found his victim burned to death. The fire was extinguished but the old man died a few hours later.

HALIFAX, August 5.—Holmes, the murderer and swindler under arrest in Philadelphia, is believed by the police authorities here to be the same man who was arrested here with one Brecken on the charge of robbing a bank in this city. Brecken was with Prince George on board. Forty-eight pounds of dynamite were found in their room at the Parker House. A baggage check also found called for a Boynton rubber bag containing a quantity of dynamite in a parcel at the depot. The accused had visited the warehouse and rowed close to her side in a boat. They were arraigned here on the charge of attempting to blow up the ship, but the indictment was changed to unlawfully having explosives in their possession, as there was no law to cover the other charge. The accused were sentenced to a year in jail. They made a confession that they had come here to blow the ship up and were to have received \$10,000 each. Photo, age and description strikingly correspond with the description of the murderer.

LONDON, August 4.—A despatch from Cape Town says that the Cape Colony House of Assembly passed a bill annexing British Bechuanaland to Cape Colony. During the debate on the bill the Opposition severely criticized the British conditions relative to the liquor, land and native jurisdiction questions as pertaining to interference with the colony's institutions. No free people, the speakers declared, could accept these conditions and retain their self-respect, and the British Government would not care to attempt to force such conditions in the Australian colonies.

OTTAWA, Aug. 4.—In the post office banks there was on deposit on the 30th of June the sum of \$26,805,542 or \$547,074 more than at the close of the last fiscal year. In ten years the savings have increased eleven million dollars.
