PLUSH and Felt Hats, Wool Goods and Xmas Cards just opened.—R. W. TREMAINE, Nov 16 St

ATTENTION is directed to advertisement of Boston Seamans, published in our advertising columns.

Now is the time to lay in winter apples. 200 bbls. choice varieties, received by BERR & GOFF.—Nov 16 St

DURING the past season over 3,000 persons left one section of the Ottawa Valley for Manitoba, taking with them 300 carloads of freight

GENERAL SIR PATRICK MACDOUGALL was sworn in at Ottawa on Saturday, as administrator of the Government during the absence in England of His Excellency the Governor General.

500,000 Bottles Minard's Liniment sold in the United States during the past six months—the universal remedy, the king of pain, used by everybody. Try it. Price 25 cents.—Nov 16 wkly

PERSONAL.—We are pleased to see that Mr. W. T. Lawson, of the firm of T. & E. Kenny, Halifax, has returned to the city much improved in health.

Mr. John T. Morrison, the general representative of J. S. Maclean & Co., Halifax, is at the Rankin.

Y. M. C. A.—A very interesting meeting was held in the Young Men's Christian Association Hall last evening. A large audience was present. There will be a meeting to-night in the same place; subject—"I pray they have me excused." Lake 14, 16, 24 Chair taken at eight o'clock. The public invited. Young men especially welcome. Come.

CHOLERA IN THE ORIENT.—A telegram dated Djiddah, Nov. 6, announces cholera at Mecca, and increased mortality. On the 3rd, 4th, and 5th, the deaths were 55, 215 and 214 respectively. Caravans comprising 5,000 pilgrims left Mecca the 6th inst., and it is feared that the 400 Egyptian troops stationed at El Wadj will be unwilling or unable to prevent them from entering the town.

The steamer Carroll, Capt. Wright, arrived from Boston last evening with freight and the following passengers:—Miss Christina Sutherland, Miss Maggie McPherson, Miss Lucy McLean, Mrs. Conrads, Miss Christina McKenzie, Miss Kate Murtry, Miss Mary Wilson, Miss Maggie McDonald, Miss Esther McDonald, Thomas Preston, Thomas Murphy, Wm. Sellers, D. McKay.

POTATOES.—Advices from New York report a steady accumulation of stock with prices favoring buyers. During the past two weeks a decline of 30c. to 50c. per double-headed barrel has taken place, and quotations in that market Monday were: Early Rose, Eastern, per double-headed barrel, \$2.75 to \$3.12; do. Slate, per double-headed barrel, at \$2.50 to \$2.87; Prolific, Eastern, bulk, per barrel, at \$2.50 to \$2.87.

GLASGOW, Scotland, is in a peculiar position. One of its three M. P.'s is out of his mind and cannot, therefore, go through the form of accepting the Children's Bill, so as to vacate his seat. The city has, therefore, to put up with an insane member. It is somewhat strange, with the long experience in representative institutions Great Britain has had, that no provision has ever been made to meet such a case.

In his annual report, General Sherman says the military companies are too small for efficient discipline and economical service. He recommends Congress to repeal the law limiting the enlisted force of the army to 25,000. General Sherman maintains that no soldier should be compelled to menial labor without compensation or without the soldier's consent. West Point, he says, must continue to be the fountain source of military education in time of peace.

The annual meeting of the New Glasgow Literary Society was held in the Hall in that place, on Wednesday, the 9th inst., when the following officers were elected for the ensuing year:

President—Angus Gregor, Esq. Vice-President—Mr. Geo. Smith. Secretary, Treasurer and Librarian—Mr. A. McDonald.

Committee—Messrs. William Laird, A. Dickieson, Albert Laird, Jas. Moffat and Geo. Houston.

ABANDONED.—A despatch from Antwerp, Nov. 12, says: "The bark 'Maria Stoneman,' (British) McLarn, at this port from Philadelphia, landed the crew (except one, who was drowned) of the brig 'Lauretta,' Christie, from Liverpool, Oct. 24, for Charlottetown, which was abandoned at sea." The "Lauretta" was owned by Messrs. Welsh & Owen, of this city.

A despatch from London, Nov. 14, says:—Steamer "Colbie" rescued the crew of the British brig "Alie," Capt. Silver, abandoned in a sinking condition. The "Alie" was also owned by Messrs. Welsh & Owen.

The very beautiful farm and residence of Mr. L. Diney, at Point Pleasant, North River, known as "Riverside," was sold by auction by Mr. Dodd, on Monday, and bought by John J. Davis, Esq., of the "Rankin," for \$5,000. It is, we learn, the intention of Mr. Davis, during the summer months, to open "Riverside," and run it as a summer resort in connection with the "Rankin." This, we think, would be a movement in the right direction, and would be appreciated by pleasure seekers. "Riverside" has the best accommodation for guests, is most charmingly situated, and surrounded by beautiful woodland and river scenery. It has every facility for boating and bathing, and is only two miles and a half from the city. We congratulate Mr. Davis on his purchase, and hope he will succeed as his enterprise deserves.

A GROWING INDUSTRY.—Work has been commenced at the new iron foundry in connection with the Peters Combination brass works, and in a short time the manufacture of all kinds of iron hardware and locks will be commenced. The demand for the iron will be even more extensive than for the brass, and it is believed the profit is just as great. Most of the new machinery has been put in place, including two lathes of larger size than any heretofore in use. Some new hands have already been taken on. The department for plating, lacquering, etc., has been removed to the second flat and much enlarged on account of the great increase in those lines of work. The finishers also go to the second flat to make room for the heavy machinery below. Though the main building is 165 feet long, about 30 feet wide, and three stories high, the indications are that there will not be a great deal of room to spare in a short time. For some time past the establishment has been running night and day to place the managers in a position to meet the growing demand for their goods.—Morning Times.

TELEGRAPHIC NEWS.

Sir Charles Tupper's TOUR OF INSPECTION.

Special Dispatch to the Examiner.

CARIBBEAN, Nov. 16. Sir Charles Tupper and party inspected the line east to Souris and Georgetown, with all stations, etc., to-day. They found the track in excellent order and the stations generally in good condition.

At Souris Sir Charles was presented with an address, to which he replied at some length. He reviewed and answered charges brought against the railway management, and stated that it was his desire and intention to bring every department of the Railway to such a state of efficiency that there could be no reasonable complaint.

CANADIAN.

HALIFAX, Nov. 14. A despatch from Canso, Guysboro, says that yesterday afternoon, it being noticed that no one had been moving during the day on board the schooner N. P. Cortis, of Arichat, lying at Roberts' wharf, the cause was searched for, and it was discovered that the whole crew were suffocating in their berths. They were carried to the deck and medical aid obtained. It was then found that two of the six persons on the vessel were dead, and the other four, one the captain's daughter, were in such a state that they were with great difficulty restored. The captain, who is named Herriott, and his daughter, had gone to sleep in the cabin the night before, and his two sons with the other seamen in the fore-cabin, leaving heavy coal fires burning and the companionways closed fast. Their indiscretion was the cause of the sad affair. The eldest son of the captain was one of the two had perished before the alarm was raised.

UNITED STATES.

WASHINGTON, Nov. 14. The trial of Guiteau began at 10 o'clock, and the interest manifested was unceasing until the adjournment at 1, in consequence of the list of jurors being exhausted. The prisoner was exceedingly demonstrative, and insisted upon interrupting the proceedings, and protesting against the action of his counsel, Mr. Robinson, assigned by the Court for the defence. Guiteau became terribly excited, refusing to keep his seat until the Deputy Marshal had to resort to force to prevent him from addressing the Court. He early produced a roll of manuscript for a speech, and insisted upon delivering it to the Court, which, however, was not permitted. His conduct was that of an insane man, and, if assumed, was cleverly carried out.

The preliminary proceedings showed a want of harmony between Scoville and Robinson. The latter appealed for further time in order that a prominent lawyer whom he had consulted might be brought into the case and assist in the defence. The Court was about to grant the request when Scoville created a sensation by arising and protesting, saying that he had not been consulted and did not wish further delay, and unless his wishes and those of the family of the President were consulted he would abandon the case. The Court then ordered the case to go on.

During the proceedings Guiteau demanded that Robinson be retired from the case declaring that he was not a pauper and could defray the expense of able counsel. As the result of to-day's proceedings, five jurors were obtained out of 25 summoned. A new panel has been ordered for to-morrow morning.

HILLSBORO, Mo., Nov. 14. The house of an old man named Anson Vail, five miles from town, was burned on Saturday night and the old man perished in the flames. As he was supposed to have considerable money, it is believed he was robbed, murdered, and his house fired to conceal the crime.

NEW YORK, Nov. 14.

Mary Frances McVicker, wife of Edwin Booth, died on Sunday afternoon, at the residence of her parents, No. 13 West 53rd street. The cause of her death is said to be consumption. Mr. Booth is said to be in Philadelphia.

WASHINGTON, Nov. 14.

Judge Folger has assumed the duties of Secretary of the Treasury. Hon. Lionel Sackville West, the new British Minister, presented his credentials to-day. The customary speeches were made.

EUROPEAN.

LONDON, Nov. 14.

The Post, referring to the status and previous occupations of some assistant commissioners for fixing fair rent under the Land Act, says an influential member of Parliament, when Parliament meets, will move for a select committee to inquire into their antecedents and qualifications.

LONDON, Nov. 14.

Lord Lorne arrived to-day. The Princess Louise met the Marquis on board the steamer Sarmatian. They were received by thousands of people, who assembled at Birkenhead, on the landing of the steamer. There was also a popular and municipal reception at Chester.

ST. PETERSBURG, Nov. 14.

Diphtheria, scarlet fever and small-pox are devastating the centre and south of Russia. The severity of the diseases exceeds anything heretofore known.

PARIS, Nov. 14.

It was announced to President Grevy definitely that in the formation of a cabinet M. D. Freycinet would not enter the Ministry, consequently Gambetta has renounced the idea of assuming the Presidency of the Ministry without a portfolio, and will himself take the portfolio of foreign affairs. The new Ministry will be gazetted to-morrow.

ROME, Nov. 14.

The Pope to-day sat in council with a congregation of Cardinals to consider the Irish question.

Cash Buyers can depend on getting good value. OWEN CONNOLLY. Nov. 10, 1881—pat

THE Charlottetown Gas Light Company have imported some of "BRAY'S BURNERS," which they will supply and fit on Gas Brackets, etc., at a moderate cost to consumers.

These Burners are reported to be the best Flat Flame Burner yet produced, and will give a far greater amount of light than any other Burner with the same consumption of Gas.

Dr. Wallace, F. R. S. E., F. C. S., Gas Examiner to the City of Glasgow, in a lecture delivered by him, calculated that £130,000 (\$650,000) a year, are thrown away in Glasgow by the use of imperfect fittings. On the subject of Gas Burners he says: "Another and as I think a better Burner is that called Bray's regulator, and as I consider these the best union Burners attainable at moderate cost, I have selected them for a series of experiments."

The Report of the Committee of the British Association of Scientists to enquire as to the best means for the development of light from Coal Gas of different qualities—comprising Dr. William Wallace, Professor Dittmar, and Mr. Thomas Wills, F. C. S., F. I. C. E., showed that Bray's Burner yielded the greatest amount of light of all the two or three score of Burners reported upon which included all the Burners of repute in the market.

In a pamphlet upon Light and Heat, published by R. B. Taber, A. M., he says: "The cost of Gas as compared with other illuminants is much more economical when rightly used, than many suppose. From experiments made for this purpose, the following results have been obtained. They were made by burning samples of Devos's Brilliant Oil and ordinary Oils, and testing their illuminating power. It was found that Coal Gas costing one cent at \$3 per thousand feet, gave a light equal to 13 candles, while Devos's Brilliant Oil consuming 27.4 grammes costing half a cent, gave a light equal to 9 candles.

A good Argand or Johnson's Burner, the Burner's used in the last experiment, will therefore give the light of 2 ordinary Oil Burners in direct comparison, at no greater expense in the case of the finer and safer grades of Oil. Lights, however, on the authority of Scientists, are not to be compared in direct proportion, but in proportion to the squares of their powers, and such a comparison with the case of the use of Gas, its cleanliness, freedom from odor and dangers, renders its use desirable wherever it can be introduced."

As the above experiments were made with Gas at \$3 per 1000 feet, and not consumed through Bray's Burners, it will readily be seen how much more economical it is to consume Gas instead of Oil, when its price is only \$2.33 per 10.0 feet as now charged here when consumed, more especially through Bray's Burners.

Messrs. Goodwin & Co., of Philadelphia, the well-known manufacturers of Scientific instruments for testing the illuminating power of Coal Gas, etc., say in their Circular to Gas Companies: "In presenting the Bray's Standard Patent Silt Union Burners and Lanterns, for which we are the sole Agents in the United States, to the attention of the public, we are convinced that we are filling a want long felt." They further add: "The yield of light from these Burners is 12 to 20 per cent. greater per cubic foot of Gas consumed than that from any flat flame Burner hitherto introduced. [no 8 cod if

HORSES. HORSES.
