## BEER BROS.

Ch'town, March 20, 1889.

## STANDARD-BRED STOCK BY AUCTION.

I WILL SELL at Public Auction, on my premises, St. Eleasers, on

Thursday, March 28th,

instant, at 12 o'clock, noon, the following high-bred HORSES:—

1st. B. m. Sappho, 5 years old, (standard and registered), sire, Hernando 291, dam by All Right 5317, in foal to Crayton 4346, rule 7.

2nd. B. f., 3 years old, sire, Hernando 2891, dam by Sir Dandie, 2nd dam the well-known Rendle mare, by Melnis Pony, handsome and very promising.

3rd. B. m., 3 years old, sire Dartmouth, he by Volunteer 55, dam by All Right 5317, in foal to Crayton 4346.

4th. B. f., 1 year old, sire, Westlawn 5033, dam by All Right 5317, 3rd dam by Saladin. This filly owing to its choice breeding, and being of a good size, ought to be valuable, either on the track, road, or as a brood mare eligible to register, rule 7. In fact the above lot has sufficient blood in them to make them valuable as brood mares.

5th. Wine b. c. Graduate 7653, 2 years old in July next, sire, Principal 6229, dam Sappho, by Hernando 291, 2nd dam by All Right 5317. This colt being very stylish and of a good size, ought to make a valuable stock horse (rule 6).

6th. B. m., 2 years old, sire All Right 5317, dam (a celebrated road mare) by Randolph Morgan. This colt being large, with good gait, and action, should make an excellent carriage horse, if not a trotter.

7th. Black Shetland pony mare, 7 years old, well broken to harness, both single and double, being of kind disposition and a good roadster, safe for ladies or children to drive; just the thing for a family horse.

8th. Messenger mare, 7 years old, in foal to the standard-bred horse Physician 7349. This is a good looking animal, and would make a desirable carriage and brood mare.

9th. Hernando filly, coming 3 years old, well broken, of good style, and promises to be speedy.

10th. Administrator filly, 10 months old. If the above date should prove unfavorable, the sale will take place on the following Wednesday.

TERMS.—A credit until the 15th November, 1889, will be given on approved notes of hand.  
WM. T. HUNT,  
St. Eleasers, March 18, 1889.

ESTATE OF ROBERT BELL, ALBERTON. TRUSTEES' SALE.  
TENDERS will be received by the undersigned until SATURDAY, 30th March, inst., from persons disposed to offer, the Account Books, Book Debts, Judgments and Notes of Hand due to the Estate of Robert Bell, of Alberton, P. E. I.  
TERMS.—Twenty per cent. cash; balance, half in THREE and half in EIGHT months—with approved security.  
A list of the same may be seen at the office of Carvell Brothers, Charlottetown.  
The undersigned will not be bound to accept the highest or any tender.  
Dated at Charlottetown, 16th March, 1889.  
LEWIS CARVELL,  
Trustee of the Estate of Robert Bell.

## PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY.

WEDNESDAY, March 20, AFTERNOON.

Hon. Mr. Sullivan submitted a bill relating to constables and fence viewers. He explained that the bill provided for the consolidation of the statutes; for the increase of the fine imposed in case of refusal to act as constable or fence viewer, and for the reduction of the list prepared by the Grand Jury to the exact number of constables and fence viewers to be appointed.

The bill was read a first time. The bill respecting mortgages on personal property passed a second reading, and was submitted to a committee of the whole House.—Mr. Kelly in the chair.

After some discussion, progress was reported.  
House adjourned.

## Dominion Parliament.

(Hansard, March 14.)

NEW LONDON BREAKWATER AND HARBOR.  
Mr. Welsh asked, Is it the intention of the Government to repair and improve the New London breakwater during the coming summer?

Sir Hector Langevin.—I have inquired from my chief engineer with regard to this question, and his answer is as follows: The department is not aware, from the report of any of its officers, that repairs or improvements are required on the breakwater at New London.

Mr. Welsh asked, Is it the intention of the Government to send the steam dredge to dredge the channel of New London harbor during the coming summer?

Sir Hector Langevin.—I am afraid the engagements made for the steam dredge, next season, will make it very difficult for the department to send it to New London, during the coming summer.

PIER AT CHINA POINT.  
Mr. Welsh asked, Is it the intention of the Government to rebuild or repair the pier at China Point, Prince Edward Island during the coming summer?

Sir Hector Langevin.—I must ask the hon. gentleman to be kind enough to wait until the Supplementary Estimates come down. Perhaps he may then have an answer.

HARBOR OF PINETTE AND WOOD ISLAND.  
Mr. Welsh asked, Is it the intention of the Government to have surveys held on the harbor of Pinette and Wood Island during the coming summer; and if so, in what month?

Sir Hector Langevin.—It is the intention of the Government to make surveys at Pinette and Wood Island, and, as recommended by the chief engineer of the Maritime Provinces, they will be proceeded with at once, to take advantage of the ice for soundings and borings.

HICKEY WHARF.  
Mr. Welsh asked, Is it the intention of the Government to have the pier called "Hickey Wharf" put in a good state of repair during the coming summer?

Sir Hector Langevin.—The authority has already been given for that work.

PIER AT MOUNT STEWART, P. E. I.  
Mr. Welsh asked, Is it the intention of the Government to build a pier at or near Mount Stewart, Prince Edward Island, as prayed for by the inhabitants of that section?

Sir Hector Langevin.—This matter is under the consideration of the Government.

MR. PERRY CONVICTED.  
Mr. McDougall, of Cape Breton, pointed out one of the many inaccuracies in Mr. Perry's speech on the budget. He said: "There is another point to which I desire to refer, and it is contained in a statement made by the hon. member for Prince Edward Island (Mr. Perry), last night. During his address he made particular reference to the articles which entered into the consumption of fishermen, and he enumerated fish hooks, twine entering into nets and seines, as articles that were taxed by this tariff, and on which the people engaged in the fisheries had to pay duty. The hon. gentleman was mistaken. If he had only consulted the proper authority he would have seen that those articles are exempt from duty, and that nearly every article that enters into the business of the fisherman is free from duty."

HOW IT OPERATES.  
Mr. McDougall, M. P., (Cape Breton) quoted statistics proving a large development of the coal interests of Canada to the material advantage of the miners, the Province and the country at large, and said: "Then we have to add to this the benefit derived from the employment of this labor in the mines, the employment of a large number of horses which consume large quantities of hay and grain, which are furnished by the Provinces of Nova Scotia and Prince Edward Island, so that not only does the protection of coal benefit Nova Scotia, but also Prince Edward Island. In addition, our miners are large consumers of the article of flour, and, as hon. gentlemen know, flour is not manufactured in Nova Scotia nor Cape Breton, where a large portion of these mining operations are carried on. They get the flour from the Province of Ontario, nearly all of it. In previous years they imported it largely from the United States, but to-day that is not the case. I am happy to bear testimony to the fact that to-day the flour that is supplied from Ontario to the people of Nova Scotia and Cape Breton is an article that gives satisfaction, both as to price and as to quality. I was astonished, the other evening, to hear the statement by the hon. member for Kent, Ont. (Mr. Campbell), who is a large manufacturer of the flour which is consumed to a large extent in Nova Scotia; the productions of

that hon. gentleman's manufacture, I may say, enter more largely into the consumption of the people of the Island of Cape Breton to-day than the production of any other miller in any other part of the Dominion. Yet we heard that hon. gentleman make the bold statement on the floor of this House that this duty was a tax on the people of Canada, and he ventured to say that the coal duty should be removed, because it is a tax on the people. Well, the money derived from the development of that industry goes more of it into his pocket, I may say, than into the pocket of any other man in the upper provinces. I am sorry to find that the hon. gentleman has been so blind to his own interests and to the interests of his own province, and of the people who want to get a market for their flour. I am sorry to find that a gentleman so prominent in the manufacture of flour should make such a statement. He seems to me to be cutting off his nose to spite his face. I would advise my hon. friend to leave the nose where it is, and the face as well. Leave the coal duty where it is, and it will benefit not only the people of the neighborhood of the mines, but it will also benefit the people of Ontario.

## Local and Other Items.

BOARD OF TRADE.—New Glasgow, N. S., has decided to organize a Board of Trade.

Did you notice that fine head of hair at church last Sunday? That was Mrs. B.—She never permits herself to be out of Hall's Hair Renewer.

THE STANLEY left Georgetown for Pictou at the usual time this morning. She will be placed on the Charlottetown-Pictou route as soon as navigation permits.

A ROUGH PASSAGE.—The Halifax papers report that the steamer Halifax had a rough time on her last trip from Boston. Her sea-going qualities are highly spoken of.

THE DEFENDANT WINS.—The case of Webber vs. MacNutt was concluded to-day before Justices Mellich and Heard, and judgment given in favor of the defendant; the plaintiff's suit being dismissed.

Ayer's Medicines have been satisfactory to me throughout my practice, especially Ayer's Cherry Pectoral, which has been used by many of my patients, one of whom says he knows it saved his life."—F. L. Morris, M. D., Brooklyn, N. Y.

ANNUAL MEETING.—The annual meeting of the Young Women's Christian Association will be held on Friday next, the 22nd of March, at 3 o'clock in the basement parlour of the Y. M. C. A. Friends and members are requested to attend.

That tired, debilitated feeling, so peculiar to Spring, indicates depraved blood. Now is the time to prove the beneficial effects of Ayer's Sarsaparilla. It cleanses the system, restores physical energy, and infuses new life and vigor into every fibre of the body.

CONGRATULATING PARNELL.—Many large meetings have been held in various cities of Australia, at which resolutions were adopted congratulating Parnell on his victory in the matter of the charges made against him by the London Times. Large sums of money were raised at meetings for the benefit of the Irish cause.

THE COACHMAN AGAIN.—The daughter of a wealthy citizen named Stewart, of a suburb of New York, eloped recently with her father's handsome coachman. The pair were traced to Bard Plouffe, a village north of Montreal, by a Pinkerton detective, who had little difficulty in inducing her to abandon her partner and return home.

ST. JOHN'S COTTON TRADE.—The Sun says: The St. John cotton mills turned out last week 62,500 lbs. of manufactured goods, the largest amount, said Mr. Parks, for any week in the history of St. John's cotton manufacturing. The figures were 30,000 lbs. for the New Brunswick mill and 22,500 lbs. for the St. John mill. The factory is now working on several large orders from the islands.

CRUCIFIX ROBBER.—Advices from St. John state that the Baptist Church at Portland was broken into a few night ago, and a number of things stolen. What the thief did not want, or what he could not carry away, he upset and scattered about in the most sacrilegious manner. The poor boxes were pulled down and riddled of the few cents they contained. The sacrament clothes and napkins were stolen.

A SUGGESTION.—The London Times publishes a letter from Clifford Lloyd, formerly the bitter coercionist magistrate, proposing the abolition of Lord Lieutenantcy of Ireland, the sweeping away of Dublin Castle, the substitution of county governments, the placing of constabulary on an impartial footing and the readjustment of taxation. With adoption of these measures by the agreement of both parties, the writer says national disaster would be avoided.

PERSONAL.  
J. W. Barnaby, ex-Collector of Customs at Kentville, N. S., has left for the States. He was, it is said, in arrears with his cash.

Mary Anderson, the actress, is very ill in Philadelphia. Her indisposition is said to be the result of mental worry over recent criticism of her acting.

Her Majesty receives as Queen an annual salary, termed the Civil List, of \$1,925,000; as Duchess of Lancaster she draws annually \$204,000, and a pension of \$4,015 "in lieu of prise and butlerage on wines imported into the duchy," whatever that may mean. This sum of \$2,000,000 odd is always clear profit. Her Majesty does not even have to be charitable out of her own pocket, for Parliament grants every year about \$7,000 for royal charities and bounties.

DIED.  
At head of Hillsborough, Lot 38, on the 19th inst., Mary Florence, infant daughter of Anselm and Matilda McMillan, aged 2 months and 21 days.

"Suffer little children to come unto me, and forbid them not, for of such is the kingdom of heaven."
