WORSE THAN THE MACHINE.

The Prince Edward Island Government has incurred popular disapproval; and local bye-elections now in progress may end its existence.

Sir Louis Davies has gone to its rescue. Here is his appeal to the electorate as made in a recent speech:

"It is essential that the Local and Dominion Governments work together, that they work in unison at this juncture is very necessary. If a Conservative Government is elected in Prince Edward Island it will hinder, perhaps stop, the construction of the public works now in contemplation."

The people of the Island ought not only to resist this immoral threat, but after asserting their manhood they should turn upon the man who made it, and render it impossible for him to threaten them again.—Mail and Empire.

This great kidney cure is sold by all dealers at 25 cents a box, and has proved most effectual as a remedy for the many ills to which woman is subject.

Geldert, 8 days from Alberton, P. E. I., arrived last night to J. C. Crosbe with a cargo of oats. Owing to bad weather the schooner had to anchor in Trepassey for several hours.

PICTOU'S WATER SYSTEM.—Pictou for the present is, according to the Standard, without very encouraging prospects for a water system, but the idea of procuring water for the town has not yet vanished. When the first bore-hole was sunk bed-rock was met at thirty feet. This depth would have assured the advisability of the "driven-well" system. When Mr. Thorpe and his assistants went to work bed-rock was encountered at the surprising depth of 12 to 18 feet, seven wells being sunk. Nothing more was done as this depth would not permit of the "driven well" system. But a citizen of Pictou is said to be about to present a feasible proposition to obtain water the cheapest and soon Pictou may have a satisfactory water system of its own.
