# MARKETS and FINANCE

## New York Stocks

By RADER WINGET  
NEW YORK (AP)—The stock market was caught in the grip of caution last week, and prices declined.

The Associated Press average of 60 stocks advanced only one day, the final session of the week, and it lost \$1.80 in the five days. It closed at \$162.50. That is \$4.30 under the record high established April 28 just before the present decline got under way.

On the international front last week, the green light was given to a major four-power conference, and at the same time Russia made enough concessions to assure an Austrian independence treaty.

Wall Street had to guess whether that means the beginning of the end of the Cold War, and if so, whether defence industries will cut back their activities.

Brokers who went out looking for something else to worry about figured that the current boom in the market has been going for six months now, and that makes profit-taking a more attractive proposition.

Some of the most active issues on the New York stock exchange were Sunray-Mid-Continent Petroleum preferred (when issued) unchanged at 25 1/2; General Dynamics off 1/4 at 58 1/2; Benguet Consolidated Mining off 1/4 at 13 1/2; Textron up 1/4 at 18 1/2; and Montgomery Ward up 1/4 at 78.

Among Canadian issues on the New York exchange, Dome Mines fell 1/4 at 64 1/2; McIntyre gained 1/4 at 71; Canadian Pacific lost 1/4 at 31 1/2; Hiram Walker added 1/4 at 70 1/2; and Distillers Seagrams gained 1/4 at 37 1/2.

On the American exchange, Lake Shore lost 1/4 to 5 1/2; Giant Yellowknife gained 1/4 to 6 1/2; and Royalite added 1/4 to 11 1/2.

## U.S. Steel

CLEVELAND (AP)—Steel inventories in the United States are growing and demand should ease before long, Steel magazine says.

But no one expects the bottom to fall out of the steel business, the U.S. metalworking weekly added.

"The steel business could ease and still be high," there's increasing belief that steel demand won't drop so low as was estimated earlier, for business in general has strengthened.

Steel said the inventory buildup is apparent from reports of finished steel shipments in March, 7,268,795 net tons, the second highest monthly output in history.

## Scrap Metal Collectors Killed By Burst Rocket

By SHIRLEY MORRIS

Canadian Press Staff Writer VALCARTIER, Que. (CP)—Three persons, including a teenage girl and her father, were killed Wednesday night when a scrap metal collector in this army camp 15 miles north of Quebec.

Three members of one family were involved, the mother escaping with serious injuries.

The dead, all civilians, were identified as Paul Odilon Daigle, 25, Marie Claire Daigle, 16, and Adrien Labranche, 21, all of St. Gerard—Macella, a community eight miles from the base.

Mrs. Odilon Daigle walked two miles for help after the explosion, despite a badly injured arm. She now is in hospital where officials said they expect her to recover.

Army spokesmen said the group sneaked on to a rocket range by a prohibited road at the rear of the camp. They had collected about 50 expended rockets when they touched off the live one.

Officials said the victims apparently were collecting the rockets to sell the copper casings as scrap metal. They had parked their car just outside the camp limits and were carrying the rockets from the range.

The range is located more than a mile from the main barracks and the group apparently slipped past the sentry to reach it, army spokesmen said.

An army spokesman said residents of the area have been warned repeatedly to stay off the ranges but they have continued to slip through to collect the scrap metal. Signs ordering civilians to keep out had been posted on all sides of the camp.

AWARE OF RISK

"There is no doubt that anybody in his right mind who travels inside the fenced firing areas must know he is taking a great risk," an army spokesman said.

"In this case it appears the victims were carrying out quite an operation," he said. "There were from 40 to 50 expended shells near their automobile."

There are 12 firing ranges on the camp, ranging in length from 100 to 1,000 yards. Each range is fenced and has warning signs posted.

Provincial police, the army and the RCMP have joined in investigating the explosion.

Mr. Prudham said the police lost consciousness after the explosion and revived to find the dismembered bodies of her three companions lying beside the car. She then dragged herself to the nearest house for help.

VICTIMS DISMEMBERED

The army said the used rockets are usually left lying on the range for a time after they are set off. They are then collected by the army and sold.

The victims were dismembered by the blast, the army said. Mrs. Daigle, although not in critical condition, was expected to lose an arm as a result of the explosion.

The accident occurred about 10:30 p. m., but was not reported until about midnight. An investigation was launched early this morning.

The road at the rear of the Valcartier camp leads from the civilian village of Valcartier to Lac St. Joseph, a resort centre to the north. Provost officers patrol the rear of the camp grounds but the group apparently used darkness as a cover to sneak through, the army said.

OLD BANKERS

The Babylonians had developed a sort of banking system as early as 2000 B.C.

## MECHANICS WANTED

Three qualified mechanics required with experience on late model cars. Apply in person or write stating qualifications to Mr. William Long, Service Manager, Allison MacLeod, Charlottetown

## Toll Charges On Causeway

HALIFAX (CP)—Highways Minister Mackenzie Friday announced the toll charges for the Canso causeway to be opened to highway traffic at 1 p. m. ADT May 20.

Mr. Mackenzie said there will be no toll on the \$23,000,000 span linking mainland Nova Scotia and Cape Breton island for foot passengers, teams and animals, and bicycles. Motorcycles will pay 25 cents for each trip.

Automobiles will be charged 75 cents with no additional charge for passengers. The toll for commercial vehicles will vary according to weight, ranging from 75 cents for one 6,000 pounds or less to \$3 for a vehicle registered at more than 48,000 pounds.

## Announce Cut In Tea Prices

TORONTO (CP)—Wholesale tea companies and some retail stores here have announced a reduction in the price of tea of about eight cents a pound.

Bulk tea prices under the new level will range from about \$1.25 to \$1.35 a pound.

Tea company officials said the drop is a result of a reaction to the high tea prices which had weakened the tea market and caused a drop in price at the source.

To Confer On Coal Problems

OTTAWA (CP)—Three federal ministers will go to Halifax for a May 20 meeting with Premier Hicks on problems of the Nova Scotia coal industry.

Mines Minister Prudham told the Commons Friday he has been invited along with Labor Minister Gregg and Works Minister Wilton on problems of the Nova Scotia coal industry.

Mr. Prudham said these matters, along with other difficulties and problems of the coal industry, will be discussed at Halifax.

He said no conclusions were reached at a meeting he held with Premier Hicks when the premier was here for the federal-provincial conference about two weeks ago.

City Consumer Price Index Firm

OTTAWA (CP)—City consumer price indexes remained fairly stable between March 1 and April 1 with five of them registering changes of less than 0.2 per cent, the bureau of statistics reported Friday.

The food index for St. John's, Nfld., advanced 0.6 per cent due largely, the bureau said, to higher prices for eggs and fresh fruits and vegetables.

Total indexes for the cities at April 1, covering food, shelter, clothing, household operation and other commodities and services, with the March 1 percentages in brackets: St. John's 103.5 (102.9); Halifax

114.6 (114.5); Saint John 117.4 (117.6); Montreal 116.7 (116.7); Ottawa 116.9 (116.8); Toronto 118.4 (118.2); Winnipeg 115.3 (115.2); Saskatoon-Regina 113.9 (113.7); Edmonton-Calgary 112.2 (114.2); Vancouver 117.2 (117.9).

St. John's index is based on June, 1951 equalling 100 and 1949 is the base year for the other cities.

SAINT JOHN WANTS Night Liquor Sale

SAINT JOHN, N.B. (CP)—The common council decided Wednesday to ask the New Brunswick liquor control board to keep one store in Saint John open until 10 p. m. Mondays through to Saturday, for a six-month trial period in an effort to curb bootlegging operations.

Mayor G. B. Peat said board officials had told him the board could authorize such action if the common council requested it.

The liquor stores close at 6 p. m. Monday to Friday and 1 p. m. on Saturday.

CRIMINALS TO SEE How Air Exploit Looks On Film

LONDON (CP)—Five senior RCMP officers, veterans of one of the most daring air raids of the Second World War, flew into Britain Friday to see how their exploit looks on film.

They are the only Canadian survivors of the famed May 1943 attack on the Moehne and Eder dams in northwest Germany. Next week they attend the royal premiere of the film "The Dam-busters," based on Paul Brickhill's book about the hazardous air raid by the RAF's No. 617 squadron, led by Wing Cmdr. Guy Gibson, VC.

The five Canadians are Wing Cmdr. Joseph McCarthy, formerly of the RCAF's No. 4 training school at Penhold, Alta.; Wing Cmdr. D. Revie Walker of Blaine, B.C.; Lt. Col. J. MacLean, Toronto, assistant commander of the air navigation school at Winnipeg; Sqn. Ldr. Kenneth W. Brown of Moose Jaw, Sask.; a flight commander with No. 408 Photo Squadron, Rockcliffe, Ont.; Sqn. Ldr. Donald A. MacLean, Toronto, assistant director of armaments and engineering, RCAF headquarters, Ottawa; and Flt. Lt. Percy E. Pigeon of Williams Lake, B. C., an instructor at the radio officers school, Trenton, Ont.

These five were among 29 Canadians who volunteered to join 133 RAF men in the spectacular raid 12 years ago. Nineteen Lancaster bombers left Britain on the night of May 16 and 11 returned from the successful raid.

## Canadian Army Flag Etiquette

OTTAWA (CP)—Canadian Army flag etiquette favors the Red Ensign over the Union Jack.

Maj.-Gen. Leo Brennan, adjutant-general, in an order to all army units says "use of the Union Jack should be the exception, not the rule."

Either flag may be flown at the discretion of commanding officers, as selected forts, armories, drill halls and a number of buildings, and by army stations outside Canada.

Dated May 6, the order also said that at army stations in Canada and the United States where Canadian flags are flown alongside the Stars and Stripes, they should be lowered to half-mast on such occasions as the Stars and Stripes are half-masted.

FRENCH EXPLORERS

First white men in Illinois were the French missionaries and traders late in the 17th century.

## Will Urge Other Form Of Capital Punishment

By JOHN E. BIRD

Canadian Press Staff Writer OTTAWA (CP)—A Commonsense committee this session will recommend to the government retention of capital punishment in Canada but that another form of execution be substituted for hanging.

A high informant said the joint parliamentary committee on capital and corporal punishment will urge that either electrocution or the gas chamber be used to execute condemned persons.

The committee will recommend abolition of hanging on grounds that it belongs to the middle ages. Its report will say that electrocution or the gas chamber is more humane.

PREPARE REPORT

The committee Thursday held its last public meeting in a two-year study to determine whether capital punishment should be retained or abolished and whether a different form of execution should be employed if the death penalty is to be retained. It now will hold a series of closed sessions to prepare its report to Parliament.

The committee hopes to be able to present its report early in June. However, no legislative action on any proposals acceptable to the government is expected this session.

Thursday's meeting was the 55th held by the committee in the last two years.

Bulk of the evidence submitted to the committee has been in opposition to capital punishment. Nearly all witnesses recommended that if the death penalty is to be retained a less brutal form of execution should be used.

POLICE WANT PROTECTION

The witnesses most violently opposed to capital punishment were psychiatrists, welfare workers, criminologists, sociologists and representatives of public bodies. Those who wanted it retained included police officers, judges, crown attorneys and some prison officials.

The main submission of witnesses recommending abolition of capital punishment was that it is not a deterrent to murder. However, police officials feared the lives of law enforcement officers would be further endangered if

114.6 (114.5); Saint John 117.4 (117.6); Montreal 116.7 (116.7); Ottawa 116.9 (116.8); Toronto 118.4 (118.2); Winnipeg 115.3 (115.2); Saskatoon-Regina 113.9 (113.7); Edmonton-Calgary 112.2 (114.2); Vancouver 117.2 (117.9).

St. John's index is based on June, 1951 equalling 100 and 1949 is the base year for the other cities.
