U.N. truce negotiators who have been pressing the Communists for a full accounting of more than 50,000 unlisted Allied prisoners hold out little hope that they are still alive. Recently received from a pro-Soviet source, this picture purportedly shows American prisoners-of-war during a "hall hour reading period" at a North Korean prison camp. The men in the group, all unidentified, appear to be looking at literature that is obviously Red propaganda printed in English.
