IF YOU WANT apples or lemons, attend the auction at R. Beairst's sales room to-morrow morning at 11 o'clock. Last chance this season.

ADJOURNED.—The adjourned annual meeting of the Y. M. C. A., held last evening, was further adjourned until the 22nd inst.

LOST.—From the residence of A. S. Uquhart, King Square, yesterday, a Scotch collie pup. Finder will kindly return same to owner.

PROGRAMME COMING.—Look out for the programme of the concert in St. James' Hall on Tuesday evening next. It will appear to-morrow.

VOTERS LISTS.—Official voters lists for Queen's County may be had at the County Court Office at the reduced rate of 5 1/2 cents for each polling district.

GOOD PRICE FOR HORSES.—It is stated that at a sale of 30 Canadian horses held in London, England, two weeks ago, the average price realized was \$359 per horse.

"OUR SOCIETY"—On account of the increasing demand for this paper, the weekly supply has been doubled and a sufficiency may now be had at the Diamond Book-store.

Dyspeptique.—Is not a palliative, but a cure; it first relieves, then controls, and finally entirely subdues the irritation and inflammation of the stomach that causes indigestion and dyspepsia.

HILLSBORO' RINK.—Will the person who carried the s 2 9 skates from the ladies room in the rink Saturday afternoon last please carry them back and exchange them with the Janitor for the s 2 9 1/2 that were left.

HE WASN'T EXPERIMENTING.—Last Saturday a little boy of six years, son of Mr. Alfred Sandford, of Summerville, Hants Co., N. S., fell down the cellar stairs, cutting himself severely about the head. The day before, while looking down the stairs, he asked his father "how many steps he would have to fall to kill himself." His fall, however, was quite accidental and not in pursuit of information.

KNEW WHAT WAS COMING.—A prominent resident of Bloomfield, O., did on the 6th, under peculiar circumstances. In the morning he complained of not feeling well, and after eating sparingly of breakfast calmly notified his wife that it was destined he should die before night. So firmly was he impressed with the idea that he arranged his business affairs and sent for a number of friends, to whom he bade farewell, and then awaited the summons. It came at 1.30 o'clock.

CURLING.—A very keenly contested game, Kirk vs Methodists, was played Wednesday afternoon at the rink, and resulted in a victory for Mr. Beer's rink. The Methodists are now therefore, the champion team of the Club, having beaten both Church and Kirk. The rink's skips and scores in the match played Wednesday, are as follows:

Table with 2 columns: Kirk and Methodists. Lists names and scores for various players.

A VALUABLE INVENTION.—Mr. James E. Grant has shown THE EXAMINER an ingenious and novel invention which we have no doubt will be universally adopted by all canners in connection with the ordinary can used in hermetically sealed goods. It is known as the key attachment can. By means of this improvement no can-opener is required to get at contents. Each can has a key, by means of which a child can open the can, leaving no ragged edges endangering the cutting of fingers, etc., and enabling the contents to be turned intact. Mr. Grant states that the additional cost is infinitesimal. We certainly think that the goods of packets adopting this improvement will take precedence over the goods put up by packers using the old-fashioned can. Mr. Grant has the controlling interest of the patent for these provinces. THE EXAMINER wishes him success.

SOME GOOD WORK.—Yesterday a novel sight was presented to the passers-by on Fitzroy Street, east, opposite the residence of Mr. Edward Skerry. Sitting upright upon their keels were four nicely built and neatly painted boats. Our reporter was immediately attracted by the novel turnout, and called upon Mr. Skerry, whom he found in the second story of his shop, working away upon a fifth boat, which was almost completed. Mr. Skerry is one of our most enterprising mechanics, and although engaged in fishing during the summer season he never sits idle in winter. He spent last winter beyond the Rockies rather than spend it idly here, and at present he has a contract from the Portland Packing Company for the construction of ten boats. These boats are 17 feet keel, of the lap-streak and reinforced build, and are for the lobster fishing business of the above Company, which is represented here by Mr. Timmarsh, of Nova Scotia. They are substantially built, and reflect much credit upon Mr. Skerry as a workman, and we trust he will make a good profit out of his undertaking.

SPECIAL DESPATCHES TO THE EXAMINER.

TERRIBLE EXPLOSION.

Boiler Explodes at Quebec.

THIRTY PERSONS KILLED.

Fifteen Wounded.

QUEBEC, Feb. 13. A terrible accident occurred this morning at the Quebec Worsted Co's Factory. The boiler exploded, causing great damage and wrecking a large part of the building. Thirty persons were killed outright and fifteen are wounded. The mill had been shut down for some time undergoing repairs and work had just been begun again. It is not known what caused the explosion. The scene in the neighborhood of the wrecked factory is a horrible one. Many bodies have been recovered from the ruins in a terribly mutilated condition. The wounded have been taken to the Marine Hospital. Thousands of willing hands are continuing the work of extracting the bodies from the debris, which has been going on actually since morning. The police are keeping order among the crowd and the firemen are on hand to prevent the flames from breaking out among the ruins.

Ex-Governor Wilnot Dead.

ST. JOHN, N. B., Feb. 13. The Hon. Robert Duncan Wilnot, ex-Lieutenant of the Province of New Brunswick, died at his home, in Sunbury County, to-day of paralysis. He was born in October 1809, was elected for the County of St. John, N. B., in 1846, and with the exception of one term held that seat until the consolidation of the Provinces. He succeeded H. D. Reid Christie as Speaker of the Senate in 1878. In 1880 he was appointed Lieutenant-Governor of his native province and served his country in this position until 1888, when he was succeeded by Sir Leonard Tilley.

New Brunswick Politics.

ST. JOHN, N. B., Feb. 13. The Queen's Co. Liberals have nominated King, ex-member, against Baird. The Chatham Advance, the only gilt newspaper in Northumberland, is out very strongly in favor of Adams and against Peter Mitchell and Unrestricted Reciprocity. This has paralyzed the Opposition here.

They Don't Want Unrestricted Reciprocity.

ST. JOHN, N. B., Feb. 13. The Grits of York Co., have nominated the Hon. Fred Thompson to oppose Temple. Gibson, the New Brunswick lumber king, a life long Liberal, has signed Temple's nomination; so have hundreds of his employees. They don't want Unrestricted Reciprocity.

The Newfoundland Trouble.

OTTAWA, Feb. 13. It is reported that an amicable settlement regarding the Newfoundland fishing difficulties has about been reached by England and France.

Mr Charles at Amherst.

ST. JOHN, Feb. 13. Sir Charles Tupper spoke at Amherst to-night, and Hon. Mr. Foster at Woodstock. Both speeches had immense gatherings to hear them.

Weather Bulletin.

TORONTO, Feb. 13.—10 a. m. Moderate to fresh winds; partly cloudy, with local sleet or rain.

Personal.

E. Hackett, Esq., Inspector of Fisheries, is at the Hotel Davies. Sir Charles Tupper will be the guest of Mr. Edward J. Hodgson during his visit to the island. We are very sorry to hear that our old friend Mr. R. H. Crawford, has been laid up with a very severe cold for the last ten or twelve days, and has had quite a fever. Dr. McLeod has broken up the fever however and expects to have Mr. Crawford out again soon, in his usual good health. We had a pleasant call to-day from Mr. G. T. Fulford, of the firm of Fulford & Co., Brockville, whose Nasal Balm, as a cure for catarrh and cold in the head, has achieved a reputation for excellence from one end of the Dominion to the other, and there is probably not a hamlet from the Atlantic to the Pacific in which some sufferers from these distressing and annoying diseases have not had occasion to feel grateful. Messrs. Fulford & Co. are firm believers in the merit of printers ink as a medium for letting sufferers know of their excellent remedy, and are probably the most extensive advertisers in the Dominion, their contracts covering upwards of 500 newspapers. Their advertisement will be found elsewhere in this issue.

CURLING.—A match came off at the rink yesterday—East of Prince street v. West of Prince street. Two full links were in operation. At the close, the scores stood—West, Morson, 4; M-R e, 7—11 East, Longworth, 15; Pops, 11—26 Majority for East, 15

POLITICAL.—At the Liberal Convention at Georgetown yesterday, the old team, McIntyre and Robertson, were nominated. The Prince County Conventions have not made any nominations yet. They will likely do so this afternoon, however, on the arrival of the delayed delegates.

A REJECTED SUITER KILLS HIMSELF.—William Bodley, a railway brakeman, living at Barry, Ill., who was discharged on account of drunkenness, went to see his sweetheart a few nights ago, but in his inebriated condition she would have nothing to do with him. In consequence he procured another brother's blacksmith shop, heated and iron rod red hot, fixed it in a vice and then pressed against it. The gleaming weapon penetrated his body.

The Commodore.

THEN. The Commodore has spoken, And given a sure token That he'll support John A. A letter he has written, In which he gives the mitten To Wilfred Laurier.

NOW. The Grits have now consented That they be represented By such a man as this. We strive to look quite solemn, But must in pity call him A metamorphosis!

Do the People Like to be Galled?

IF NOT, HOW IS IT THEY WILL PATRONIZE WORD COMPETITIONS? Why do they buy Shoddy for Cloth? Why do they send, in answer to a foreign newspaper advertisement, for a SOLID GOLD PLATED CASE WATCH, with WALTHAM style movement, when they can get the GENUINE article at a less price than is often paid for the imitation. Watches have been brought to us by the hundred from parties who have sought as above, and which no respectable Watchmaker could repair and guarantee. Glass for jewels, brass where steel ought to be, and iron for steel. They will give when carried, \$5.00 to \$25.00 is often paid for a Watch that is not literally worth more than the price of old metal. Now there is no need or excuse to keep up such a trade, for the cheapest Watches made by the large American Watch Companies—the Waltham, the Elgin, the Rockford, the Hampden, the Columbus, and even the despised Waterbury—are far away ahead of the best of these imitation articles, and can be had in those days of perfected machinery at prices far below their actual value.
