PEACE AND WAR.

Mr. Timothy Healy Blows Cold and Then Hot.

DUBLIN, August 26.—Mr. Timothy M. Healy, member of Parliament for North Louisa, addressing a meeting at Dublin, last evening, said he regarded the new local Government act as the vestibule of home rule. There were two ways, he said, of winning the latter—either by turning the fleets and armies against the British Government, or by enlisting the sympathies of British statesmen. He favored the latter policy and therefore considered the refusal of the Dublin corporation to join in a national memorial to Mr. Gladstone as one of the gravest blunders ever committed by any public body. In conclusion, he said: "If America should insist that Ireland was equally entitled to self-government with Cuba and should refuse any friendship or alliance with England until that was granted, an incalculable blessing would result."

Strathy's Reinstatement.

OTTAWA, Ont., Aug. 27.—Major-General Hutton has disclaimed all responsibility for the reinstatement of Lieut-Col. Strathy, of the 5th Royal Scots, which was ordered the day following the gazettement of Colonel Hutton as major general. The Government organ here says that it is not likely that his first act would have been so gross an affront to Major-General Gascoigne. It states further that the late commanding officer refused to reinstate Lieut-Col. Strathy, though the request was urged by two Ministers and Lord Aberdeen. The gross affront, so called, which Major-General Hutton repudiates, and which two Ministers, to say nothing of the Governor General, insisted upon, is attributed to Colonel Lake, until recently quartermaster general, who acted as commanding officer during the interregnum. As a matter of fact, the explanation is unnecessary, because the order had passed Council before Major-General Hutton had assumed command. It is curious, however, to find that the Liberal press characterizes the action of a Liberal Government as a gross affront to an official who retired with the encomiums and confidence of his Minister.

Flour and Hay.

MONTREAL, Aug. 27.—Manitoba millers report that the demand for flour is increasing. The local business is active, and all orders are for immediate shipment. It is thought that consumers have about reached the bottom of the barrel, and that they must now replenish their stock. The supply of hay is still much in excess of the demand, and the market is dragging. We quote hay at \$4 to \$5, good to choice, \$7 to \$8, with occasional cars of choice bringing higher; No. 2, \$5 to \$6 per ton in car lots.

THE MILLENIUM MAY BE COMING.

The Czar of Russia For Disarmament.

FURNISHED ALL THE FOREIGN DIPLOMATS WITH A NOTE

Suggesting that the Governments Should Appoint a Conference.

[SPECIAL TO THE EXAMINER.]

St. PETERSBURG, Aug. 29.—By an order of Emperor Nicholas, Count Muravieff, the Foreign Minister, on the 24th inst, handed the foreign diplomats at St. Petersburg a note declaring that the maintenance of peace and the reduction of the excessive armaments now crushing all nations is an ideal for which all governments ought to strive. The Czar at this moment is favourable to the inauguration of a movement looking to this end and invites the powers to take part in an international conference as a means of thus assuring real and lasting peace, and terminating the progressive increase of armaments.

LONDON, Aug. 29.—The Czar's proposition for an international conference for the purpose of securing real and lasting peace among the powers is likely to produce a sensation throughout Europe, and coming from such a quarter and with evident sincerity of purpose, it is likely to have important effects. There is no doubt that with Russia taking the lead in such a step, Germany, France and the other nations will be ready to follow.

BRITISH M. P. DEAD.

[SPECIAL TO THE EXAMINER.]

LONDON, August 29.—Arthur Pease, Liberal Unionist Member of Parliament for Darlington, is dead.

Crow's Nest Pass.

MONTREAL, Aug. 25.—According to the latest reports received by the Canadian Pacific Railway, work on the Crow's Nest Pass Railway is making rapid progress. There was considerable difficulty in getting sufficient labor, particularly after the report of the Government commissioners, but that has been overcome, and matters are going smoothly, the men being content with the way in which they are treated. The idea, however, of bringing out Old Country labourers, with the thought of having them take up land after the work was finished and becoming citizens of the country, has had to be abandoned owing to the reports which the first batch of laborers sent home as to the conditions, which in their unfamiliarity, appeared worse than they really were, as judged from the standpoint of the trained navy. The wages now are a dollar and seventy five cents a day, with deduction for transportation.

Venezuelan Commissioners.

London, Aug. 27.—Sir Robert Threshid Reid, formerly Solicitor-General and Attorney-General, has been appointed additional counsel for Great Britain in the Venezuela boundary arbitration.

Abolition of Tolls.

CHICAGO, Aug. 27.—The first active step in securing the abolition of the Welland Canal tolls has been taken by the transportation committee of the board of trade. At a meeting of that committee it was determined to ask the directory to name a committee of three to confer with the boards of trade at Minneapolis, Detroit, Milwaukee, and other northwestern points, for concerted action before the Anglo-American convention at Quebec. It is expected a strong delegation will be sent to Quebec, to work for "an open door" to the lakes. The transportation committee took this action after hearing from a delegation of marine men.

AFFAIRS IN SPAIN

The War Will Not Be Discussed in the Cortes.

[SPECIAL TO THE EXAMINER.]

MADRID, Aug. 29.—Premier Sagasta is quoted as having, in the course of an interview, made some important statements, declaring that it was the Government's intention to repress the discussion of war topics in the Cortes.

He said that as soon as the Cortes met the Government would submit a bill authorizing peace negotiations, and next a measure relating to suspension of constitutional guarantees.

A PARRICIDE.

A Young Man Kills His Father Because He Was Cruel To His Mother.

Buffalo, N.Y., Aug. 27.—Early yesterday morning John Carrigan, about sixty years of age, a carter, living at 32 Illinois street, was brutally murdered by his son, Frank, aged thirty-three years, while he slept. The old man's head was nearly severed from the body by an axe which was found on the bedroom floor. Carrigan was arrested later, after making a desperate resistance, during which he was several clubbed. He was taken to the house and shown the result of his work. "I did it, I admit it," the prisoner said. A few minutes later, while waiting for the patrol wagon, Carrigan, the murderer, said: "I did it because he broke my mother's arm. He abused her, and I wouldn't stand it."

A Thief Captured.

SAN FRANCISCO, Aug. 27.—A mining engineer, who has just returned from Alaska, tells of the arrest of Arthur Pearce, the partner of Alexander McDonald, the so-called "King of the Klondike," for the theft of 22,000, half the amount taken from a claim owned by the men. Pearce is said to have escaped on the steamer Governor Stoneham. He was captured and taken on board the steamer Monarch, by a Canadian official. The miners on board the vessel threatened trouble and Pearce was quickly transferred to another vessel and sent back to Dawson.

Brockville, Ont., Aug. 25.—At the regular meeting of the Cheese Board here yesterday 3,285 boxes were boarded, of which 2,092 were coloured, balance white; 7 13-16c was bid for white, and 8 1-16c for coloured. The board adjourned without any sales being made.

[SPECIAL TO THE EXAMINER.]

LONDON, Aug. 29.—A despatch from Cairo Hemair opposite the Island of Cable Raven says that the Anglo Egyptian expedition has suffered a rather serious loss by the sinking of the gunboat Saffire.

The boat sprang a leak when near Shendi and within a few minutes went down.

All on board were saved. From Ravenhill here, Omdurman is just visible.

A nephew of Gen. Gordon first descried it by a flash of white on the horizon reflected from Madhis Toomb.
