McKAY WOOLEN COMPANY

"Hello!!!"
TASSE WOOD & Co.?
"YES SIR."
"WELL, SEND ME TEN THOUSAND MORE TOSCANA CIGARS RIGHT AWAY."
MORE IN DEMAND THAN ANY CIGAR I KEEP.

TREES AND LUMBER.

The Norway spruce, well dry, weighs 32 pounds to the cubic foot.
 Well seasoned Spanish cypress weighs 27.56 pounds per cubic foot.
 Well seasoned red hickory weighs 52.37 pounds to the cubic foot.
 All splits and cracks, from whatever cause, necessarily impair the value of a tree for lumber.
 Foresters tell us that the best timber is that which grows from dark soil intermixed with gravel.
 American ebony is one of the heaviest woods known, weighing 83.18 pounds to the cubic foot.
 The weight of a cubic foot of cork is 15 pounds. Cork is the bark of a species of Spanish oak and not properly a wood.
 Yellow stains in either timber or lumber are an indication of dry rot and are regarded as an injury to the tree or wood.
 Timber is seasoned by the evaporation of the water, the extraction of the vegetable juices and the solidification of the woody tissue.
 The "heart wood" of a tree has ceased to take any part in the vegetative economy of the tree. Its only use is to strengthen the trunk.
 Antiseptic preparations may easily be forced into wood by causing them to follow the lines taken by its sap; otherwise it is exceedingly difficult fully to impregnate the wood with them.
 The lightest known wood is that of the Anona palmstris of Brazil, which is much lighter than cork. The heaviest is the iron bark of Australia, which weighs nearly 100 pounds to the cubic foot.—St. Louis Globe-Democrat.

NOVELTIES.

Greens, purples and reds are all represented in the leather novelties.
 Russian enamel is of frequent occurrence on chatelaines and buckles.
 Paper racks and paper cutters of brass are overlaid with enameling in colors.
 Bill folds for men are out in smooth morocco, monkey skin and seal and have small silver clasps.
 Velvet and leather chatelaine holders for eyeglasses and spectacles are mounted with gold or enameled silver.
 The candelabrum is to the fore as a dinner table decoration. The lights, softened by colored shades, enhance the beauty of the shining silver and glittering glass.
 Novel fittings for the writing table are cut in crystal with gilt mounts. A pleasing example is a block of crystal entwined by a gilt serpent, which serves as an inkstand.—Jewelers' Circular.

---AT THE--- DENTAL PARLORS

North Side Queen Square.
 You can have your teeth extracted free of pain by the means of either general or local anaesthesia. All kinds of work done satisfactorily.
DR. J. H. AYERS

PERSONALITIES.

Emperor William of Germany is a practical typesetter.
 The Duke of Sutherland owns 1,176,454 of the 1,297,846 acres in Sutherland county, Scotland.
 Mr. and Mrs. William Brinkman of Kokomo, Ind., are both blind. The husband is an expert piano tuner, and the wife is an elocutionist.
 The Rev. Henry Rupp, the oldest active clergyman in Illinois, now in his ninety-third year, is still strong and vigorous and preaches every Sunday.
 The Rev. O. W. Hutchinson of Watertown, Mass., who was recently elected president of Grant university, Chattanooga, has decided not to accept the office.
 Austen Chamberlain, the eldest son and heir of the secretary of state for the colonies, bears an almost absurd personal resemblance to his distinguished father.
 Baron Krupp, the great ironmaster of Germany, carries evidences of the trade with him when he goes calling. His cards are made of iron, rolled so thin that they are said to be a great success for social use.
 Count Nicholas Esterhazy, who died recently at Totis in Hungary, was well known on the turf in England, France and Austria. He gave orders that he should be buried in a red hunting coat, with all the honors of the chase.
 Ex Queen Liliuokalani of the Hawaiian Islands has been offered a snug sum of money to appear in public in this country as a singer. She has written several songs and is said to have a good and highly trained voice.
 Dr. John Lewis Smith is the patriarch of Methodism in Indiana, and he wrote in his eighty-second year a book of 450 pages, containing anecdotes of pioneer preachers and their charges in the west, together with a treatise on Indiana Methodism.
 All the Confederate officers who reached the full rank of general are dead. The number, including Lee, was eight. There were 19 lieutenant generals in the Confederate army, of whom seven survive—Longstreet, Buckner, Gordon, Hampton, S. D. Lee, Wheeler and A. P. Stewart.
 Captain Joseph Mannel (he followed the sea for 60 years) and his wife, Sarah, celebrated recently at their home in Kennebunkport, Me., the seventy-seventh anniversary of their wedding. They are the oldest people in the town. He is 101 years of age and she 99. He was born in Portugal and she in Maine.
 England's oldest duke, the Duke of Northumberland, has entered on his eighty-seventh year. Though he calls himself Percy, the duke is really a Smithson, the last male Percy having died in 1670. He is extremely religious, and, as his wife was an Irvingite, one seat is always kept vacant at his table for the Saviour.

SPECTACLES.

Over twenty-five years I have been in the Spectacle business and during that time have fitted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see a large 4 inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put off getting glasses much longer. Others have been fitted or rather misfitted, with wrong glasses by travellers, and charged a great deal more than they ought to have been. This year our traveller, Mr. C. H. White, intends calling on parties at their homes in the country, to test eyes and show samples of our goods. Should he call on you I bespeak for him your favorable consideration, and any order you may give him will be filled as soon as possible and guaranteed by me. Glasses can also be exchanged at the store, CAMERON BLOCK, City, if after a trial they do not prove as satisfactory as you wish.

E. W. TAYLOR, City

Just a Minute

You may be busy; so are we, and have been all the Spring. So busy that we did not have time to advertise and tell you all the fine things we have for this season and the low prices we are selling for, but the people find us out, for it takes over forty people to keep the orders we get made up, so it keeps us moving to keep everything going right. But for those who do not know, we might say that we keep all the old reliable cloths such as Bellwarp Coating and Serges, Tyke and Blenheim Serges, Fashionable Trouserings to no end. Come and see us and see our stock and the fine clothes we make.

 The Spectacular Siege of Sabastapol every evening,—the most gorgeous and realistic effects ever produced in Canada.
 An unequalled half mile track for speed competition.
 Exhibits carried at exceedingly low rates. Very cheap excursion tickets on all railways and steamboats.
 Full particulars later.
 Apply for prize lists, entry forms, and all information to
JOHN E. WOOD,
 Secretary, Halifax, N. S.

Warning!

I wish to inform the public that several parties are travelling the country using my name and pretending to be selling Spectacles for me. Mr. C. H. White is the only traveller that I employ. He is competent to test eyes and fit Spectacles properly. If any others call and say they are selling for me please ask them to show their licence.

E. W. TAYLOR,
 CAMERON BLOCK, CITY. OPTICIAN

BINDERS, MOWER AND RAKES

MAXWELL BINDER is recognized to be the best implement on the market. It is true only right hand cut, and also the simplest and surest knotting machine, never breaking twine.
MOER.—The highest cutting and strongest machine in heavy or light hay. Has all the best improvements—foot lifting spring, raising finger bar clear of all obstructions, stumps, roots, etc.
RAKES.—Tiger and Stihed. These Rakes are fitted with the new steel wheel, having 26 teeth and solid steel axle. Also, angle steel bar to hold teeth. The teeth are set to rake, not to harrow the ground. They are the most perfect Rake made to-day. Inspection of those machines invited, or write us for prices.
