

SOME MEMBERS of the eight-member committee formed to investigate clearing up of Charlottetown harbor pollution are seen at a public meeting in Spring Park School last evening. Among various topics under discussion was the harbor survey to be conducted this summer by city and provincial governments.

# No Solution To Pollution Problem Seen Before '64

Little hope is in sight for the solution to the Charlottetown harbor pollution problem before 1964, it was revealed at a meeting of residents of the city area last night in Spring Park School.

C. J. Arsenault, chairman of city council water and sewage committee, said the planned "arsenault" survey of the harbor would not likely be completed before the latter part of next summer, as the firm conducting the survey would be unable to begin until spring.

Coun. Arsenault estimated cost of the survey at \$8,000, of which \$4,500 is to be paid by the provincial government and \$3,500 by the city, with Parkdale and Sherwood contributing the remainder.

Commenting on the Red Cross water safety swimming instruction classes abandoned last year because of the pollution hazard, Coun. M.D. Corrigan, chairman of the city recreation committee, suggested that the YMCA pool might be used this year for swimming classes.

She said the only other alternatives would be to abandon swimming classes for 1963 or transport children to a public waterfront area which was not polluted.

## EXTRA DOLLAR ADDED TO FEE FOR DRIVERS

Islanders who have yet to get their operators' and chauffeur's licenses for 1963 will find that they have to pay one dollar more than last year.

Effective yesterday, the cost of operator's and chauffeur's licenses was increased to \$2 and \$3.50, respectively.

It is understood that the provincial government proposed the increase at a cabinet meeting Tuesday.

One cabinet minister said yesterday the increase brings the price of licenses in line with that of other provinces.

There has been no change in the cost of registering a vehicle.

Former prices were \$1 and \$2.50, and anyone who purchased 1963 licenses prior to yesterday escaped the price increase.

It was also reported that recent cases appearing in the courts pertaining to cruelty to animals have been brought to the attention of the proper authorities through the work of the SPCA.
