GREEK DEFEATS AND RETREATS.

All Hope Abandoned.

ACTION ON PART OF THE POWERS.

Mitylene Islanders in Revolt.

LONDON, May 3.—A despatch from Athens says that the right wing of the Greek army has been repulsed by the Turks, but the left wing retreated behind the old frontier line to prevent being circumvented. The Greek army in Epirus, after its defeat at Peutipagodia, retreated to Arta. All hope of continuing the war has been virtually abandoned.

The fleet has returned to Volo for the protection of the inhabitants.

A correspondent of the Mail at Berlin says that the powers will not consent to leaving an indemnity upon Greece, and both Austria and Germany are trying to induce the Porte to modify its demands.

ATHENS, May 3.—It is reported that the Island of Mitylene, off the coast of Asia Minor, has revolted in favor of Greece, and that the Greek fleet will be sent there forthwith.

NEWS FROM THE CAPITAL

Opposition will Demand that the Reference Under Combines Clause be Made to Courts.

FRANCHISE AND SUPERANNUATION BILLS TO BE DROPPED.

New List of Superannuations.

OTTAWA, May 3.—The discussion on the tariff in committee will commence on Wednesday.

It is probable that when the Combines Clause of the tariff resolution is reached, the Opposition will propose an amendment committing to the courts the duty of determining whether the combines exist, and of applying the prescribed remedy.

It is understood that the government has informed the Opposition Leader that the Franchise Bill will be withdrawn, and that the Superannuation Bill will not be pressed this session.

On Saturday last a new list of names was handed in for superannuation. They are mostly in the outside service.

Release of Oscar.

LONDON, May 3.—Oscar Wilde has been released from prison.

MIXING POLITICS AND BUSINESS.

Politics is a better thing for a young man to have knowledge of than to actually experience. He should know what politics means, so that he can vote intelligently and conscientiously. One thing is certain: active participation in politics and in business do not go together.—Edward W. Bok, in May Ladies' Home Journal.

SUCCESSFUL ISLAND STUDENTS.

Montreal papers at hand to-day contain the result of the recent examinations in Arts and Applied Science at McGill University. As usual the Island students make a splendid showing.

The graduates in arts upon whom the degree of B. A., was conferred include Laura A. Young, Charlottetown, and Talmage McMillan, New Haven. The degree of M. A. was conferred upon William McNeill Townshend, Traveller's Rest. In the faculty of Applied Science, Geo. R. McLeod, Uigg, graduated in civil engineering, and George McKinnon, of Charlottetown, in mechanical engineering.

Mr. McKinnon won the Governor General's silver medal; honors in hydraulics, dynamics of machinery and mechanical engineering, laboratory work; British Association prize of \$25; prize for thesis on hydraulic press. Mr. McLeod was awarded the Riehele prize for thesis on belting.

In civil engineering W. M. McPhail, Orwell, T. T. Irving, Vernon River Bridge, and E. G. Matheson, of Oyster Bed Bridge, passed the primary examinations. T. A. McLean, Charlottetown, graduated in mining engineering.

Mr. McLean was awarded a prize for mining engineering, and Mr. McPhail was awarded a prize for a thesis on the Boston subway, and a prize for surveying field work.

From another source we hear that Talmage McMillan took first-class honors in classics and a gold medal, and that Wilfred Forbes took first prize in German and was well up in other subjects. We also hear that Lemuel Robertson, Marshfield, led in the second year intermediate examinations with prizes in Latin, Modern History and Mathematics.

The Ottawa correspondent of the St. John Sun says that never since 1879 has a stronger attack upon the national policy been made in the house than that of Mr. Fielding in his introduction to the new protective tariff. Whatever he may have said by way of comfort to the manufacturers he denounced the national policy right and left. Like the Cardinal of Rheims, he cursed with energy and perseverance.

The Cardinal rose with the dignified look, He called for his candle, his bell and his book!

In holy anger and pious grief He solemnly cursed that rascally thief! He cursed him at board, he cursed him in bed,

From the sole of his foot to the crown of his head; He cursed him at sleeping, that every night

He should dream of the devil, and wake in a fright; He cursed him in eating, he cursed him in drinking;

He cursed him in coughing, in sneezing, in winking;

He cursed him in sitting, in standing, in lying;

He cursed him in walking, in riding, in dlying;

He cursed him in living, he cursed him in dying!

Never was heard such a terrible curse! But what gave rise to no little surprise, Nobody seemed one penny the worse!

Mr. Fielding, if we may quote Lanrier's language again, "Cursed and cursed and cursed" the national policy, and the national policy as a principle does not seem to be much the worse. It will be remembered that Mr. Fielding frankly admitted, in introducing his tariff that the general list "would be largely the tariff existing today." Mr. Foster claims that nine-tenths of the old tariff has been retained. A careful analysis of the new bill, as compared with the old system, goes to show that Mr. Fielding's admission and Mr. Foster's contention are largely supported by the facts.

Mail and Empire: It is of the utmost importance to the business community to know at once whether the Government has received a despatch from the Colonial Secretary in reference to the differential duties. Uncertainty on the point embarrasses the import trade in certain lines. When the question was put to him by Mr. Davin on Tuesday, Mr. Fielding should have answered it instead of insolently refusing to do so.
