Sure is Easy with a
CO-OP UNIVERSAL Front-Opening MILK COOLER

The **CO-OP UNIVERSAL COOLER IS -**
FASTER
EASIER
THRIFTIER

FASTER because a constant flow of icy water sprayed at the cream line lowers milk temperature of a capacity load to a safe 46 degrees in 60 minutes . . . keeps it safe for a 12 hour holding period. Exclusive air injection system plus rapid water circulation assures you of faster, safer cooling.

EASIER because low front-opening eliminates heavy lifting . . . makes your boy a full-fledged dairy hand. Removable rack and water distribution pan makes cleaning easier, more thorough.

THRIFTIER on your electric meter because it requires only 1.25 K.W. to cool a 10-gallon can. Air space between ice bank and interior walls lowers heat loss . . . less chance of doors freezing. Rugged cabinet gives years of service. Drop-in refrigeration unit protected by 5-year warranty. Available in 4, 6 and 8-can sizes.

Also Immersion-Type COOLERS: 4, 6, 8 and 10-can sizes

DE LUXE MODEL D-4-D

No doubt about it . . . there's real CO-OP value in these grand CO-OP Refrigerators. Gleaming beauty . . . compact appearance . . . amazing food space . . . economy of operation . . . reasonable cost . . . these points add up to the refrigerator you'll want to own! These CO-OP Refrigerators have been CO-OP tested under actual home use and are guaranteed to give the performance you'll want! There are three models to choose from . . . DeLux, Royal and Standard which means you're sure to find a model just right for your needs! Visit your Local CO-OP soon and ask to see the new CO-OP Refrigerators!
