JULY 13, 1900.

THAT LUBRICATING OIL.

SENATOR FERUSEN exposed, in the Senate, a few days ago, a very queer and a very suspicious transaction which is causing much comment in the larger Provinces. The Intercolonial Railway, of course, uses a great deal of oil for lubricating and lighting purposes. The oil was, in the olden time, obtained by means of tender and contract. In 1896 the contract made by the Conservatives ran out, and new tenders had been issued and were being received when the Government resigned. On the accession of the Liberals the lowest tenderers were notified of the acceptance of their offers. About that time the Minister of Railways had to contest an election in Queen's and Sanitary and there appeared, in the constituency a gentleman from Philadelphia named Lichtenheim. Mr. Lichtenheim was the representative of the Galena Oil Company—the lubricating branch of the great Standard Oil Trust. Shortly after the election, in which the Minister of Railways was successful, all the oil contracts were cancelled and the orders were given to this Mr. Lichtenheim. One of the cancelled contracts was for cylinder oil which the Imperial Oil Company was to supply at the rate of 36 cents per gallon. Examination by a specialist had shown that the oil of the Imperial company was better than that of the Galena company. Still the Galena oil was preferred, and Mr. Lichtenheim was allowed to supply it at 63 cts per gallon—an increase in the price of close upon 100 per cent. A contract with the Imperial provided for a supply of oil for the engines at twenty cents per gallon. But this contract, also, was abandoned and the Galena Company supplied their oil at 39 cents,—again an increase in price of all but 100 per cent. The Eastern Oil Company had the contract for supplying oil for the engines, during winter, at 25 cents per gallon. This contract was withdrawn and the oil was supplied by Mr. Lichtenheim at 39 cents per gallon. For car oils the Imperial had the order at 8 1/2 cents per gallon for summer oil, and at 9 1/2 cents for winter. These orders were withdrawn and handed over to the gentleman who so opportunely appeared on the scene of Mr. Blair's election contest, at 27 cents per gallon—an increase of about 300 per cent. Coach oil for winter use was ordered from the Eastern Company at 21 1/2 cents, and for summer use from the Imperial at 19 cents. Both orders were given to Mr. Lichtenheim at 45 cents per gallon.

The net result of the change is that, in 1896 the charge for oil was \$33,777, while in 1897 it went up to \$43,174, and for 1899 it was no less than \$82,536,—an increase of about 250 per cent. in the cost of lubricating oils for the Intercolonial Railway!

The appearance of enterprising agents of wealthy corporations at election times is evidently a bad thing for the taxpayers of the country!

—The Montreal Gazette remarks that Parliament, in the second week of July, well into the sixth month of a session in which nothing of importance has been accomplished, is not a spectacle to encourage those Liberals who desire another session before dissolution and a general election.

CIGARETTE-SMOKING is said to cause shortness of breath. If this is so, the remedy is, leave them off. But if the short breath comes from a cold or asthma, the remedy is Adamson's Botanic Cough Balsam.

—The Boer delegates were enthusiastically welcomed at Paris;—and Tarte was there.

—An American vessel has been chartered to carry 200,000 bushels of grain to Bombay for the Indian famine sufferers.

—Mr. Tarte's friends, the Boers, have been driven off again by that man who has incurred his enmity, General Hutton.

—There must in the future be a

great deal of exchange between P. E. Island and Cape Britain; and the Merchants Bank of P. E. Island has shown the true business instinct in providing for the establishment of a branch at Sydney. Besides the exchange, a good many residents of Sydney will be inclined to give their local business to the Island bank.

—Mr. Fielding has brought down still another supplementary estimate for the current year. It asks for \$300,000 on capital account for Port Colborne Harbor; \$19,153 for Hull public buildings; \$19,625 for slides and booms.

—Comment is being made on the statement that not a cheer greeted Mr. Sifton as he rose after his return from Paris to cast his first vote in Parliament, and the Montreal Gazette remarks that: Really the members are to be congratulated on their good taste. The public swallowing of a dose of Devlin and Borden's vitriol is not an occasion for jubilation.

—Advices from Pretoria state that the recent successes of the British at Bethlehem has considerably improved the prospects for peace. The whole of the Government of President Steyn, of the Orange Free State, has surrendered except President Steyn himself. The Free State officials, who are British prisoners, have been allowed to communicate with President Steyn for the purpose of attempting to prove to him the uselessness of a continuance of the struggle, which can only produce bloodshed without any counterbalancing advantages.

—The Guardian points out that the three later by-elections have gone Liberal. One of these was that of Hon. Mr. Bernier recently appointed Minister of Inland Revenue. The two others were those of Renfrew, Ontario and West River in P. E. Island,—in which the circumstances and influence, Dominion and Provincial, were very much alike. A religious organ like the Guardian might have reminded its readers that "wicked doers shall be rooted out,"—even though they may flourish for a time.

THE ARMY WORM.

Rev. Father Burke has an article in the Agriculturist on this pest in reply to enquiries received from Enmore River people. He gives the life history of the army worm as follows:—

"Eggs are laid in autumn and take a couple of weeks to hatch. The young worms after feeding for a time become torpid and pass the winter in grass tufts. In spring they complete their growth, feeding on the tender grass and grain shoots. Then they burrow into the ground and turn into light brown chrysalids from which in two weeks, a satiny brown moth an inch in length emerges. Those lay eggs for a second brood and this is the most abundant and dangerous form of the pest, destroying as it does every green blade before it and also destroying the forest trees. When in great numbers and passing from devastated areas to pastures new they go in the form of an army on the march and neither turn to the right nor left until they have reached the desired spot. On account of this habit people dig trenches and encompass them effectually. If not on the march they must be destroyed by using Paris Green freely on a belt about them. In the forest they are difficult to handle as spraying cannot always be done easily.

THE TAXATION RECORD.

A few years ago, the leading Liberals cried out against the "crushing taxation of the Tories," then about \$5 per head and promised "a great reduction." In 1895 the people of Canada were taxed to the extent of \$25,446,198. Here is the record since then:

1896—taxes.....	\$27,759,285
1897—taxes.....	28,648,626
1898—taxes.....	29,576,455
1899—taxes.....	34,958,069
1900—taxes.....	37,919,892

It will be seen that the amount taken from the people as taxes by the Dominion Government has increased by fifty per cent in five years. The Liberal's taxation is greater than that of the Tories to the extent of \$2.18 for every man, woman and child in the country. A family of five now pay taxes at the rate of \$10.93 per year more than they did when the Conservatives were in office. Still there is no hint of an abatement of taxation. The money is taken and is used and the public debt goes on increasing. If the Liberals had performed their promises to reduce expenditures, the public debt would now be reduced by millions, or we should have had millions of dollars worth of public works which will have to be paid for in the future.

NOTES AND COMMENTS.

—The Boer delegates were enthusiastically welcomed at Paris;—and Tarte was there.

—An American vessel has been chartered to carry 200,000 bushels of grain to Bombay for the Indian famine sufferers.

—Mr. Tarte's friends, the Boers, have been driven off again by that man who has incurred his enmity, General Hutton.

—There must in the future be a

REV. FATHER FRANCIS BURIED.

A Large Concourse of People Witness the Imposing Ceremony

Not since the funeral of Rev. Father McMillan, of St. Teresa's when the entire body of clergy were in retreat here and attended, has so many of the priests of the diocese assisted at the funeral of a confrere as was the case at St. George's yesterday; and the representative people of the laity of King's County joined themselves to his parishioners in honoring the memory of the beloved Father Francis. Long before the hour for the services the church was packed with people. Masses had been said by the visiting clergy from day break, and after the Matins and Lauds for the dead sang in choir Bishop McDonald commenced the Pontifical Requiem Mass. He was assisted by Rev. Father Wm. Phelan as Arch-Priest and Rev. Fathers Walker and McIntyre, as Deacons. Revs. A. McAulay and Mr. McLellan, ecclesiastic, were Masters of Ceremonies. The Very Rev. James Phelan and the Revs. D. F. McDonald, James E. McDonald, J. T. Phelan, Dr. Chaisson, A. E. Burke, Peter Curran, Dr. Morrison, D. J. Gullis, P. C. Gauthier, I. R. A. McDonald and some others had seats in the sanctuary. The coffin, amidst blazing tapers was placed just outside the altar rail covered by a thick black pall. The church was heavily draped in black relieved by white crosses and emblems. The eulogy was pronounced by Rev. Father Burke, and was in every way worthy of the solemn occasion. The eloquent preacher chose for his text: "And I heard a voice from Heaven saying to me: Write, Blessed are the dead who die in the Lord. From hence forth now saith the Spirit that they may rest from their labors: for their works follow them."—Revelations xiv: 13.

And if he had even stopped after announcing it in grave and solemn tones already a fitting eulogy would have been made. Particularly interesting, however, were the facts given by the preacher. He said Father Francis was born on the 11th day of August, 1815, entered St. Andrew's College at 16 years of age; after four years study, entered St. Hyacinth's Seminary for philosophy and after that had a three years course of theology at Quebec. He was ordained in the latter city on June 28th, 1840, and consequently had over run his sixtieth year of priesthood. He said he had exercised the ministry in King's County ever since, every sod of which was consecrated by his apostolic effort. He built half the churches of the county, attended for long years to the great majority of its people spiritually, and as a broad-minded and patriotic citizen had helped on very materially every movement for the temporal uplifting of the people of all creeds and classes. He was an ideal priest and citizen and the tears of all were generously shed about his bier today in recognition of the place he held in all hearts. After speaking of the splendid work done for the extension of the priesthood, Father Burke feelingly asked the prayers of all for the final repose of a model priest gone before his exemplar, the Great High Priest, Jesus Christ. After the Mass His Lordship pronounced the absolutions and the clergy and laity formed in procession and with the chanting of canticles and the prayers of the church he loved the remains of the venerable Father Francis was laid beside those of the late Father R. P. McPhee, there to await the Resurrection.

NERVOUS troubles are cured by Hood's Sarsaparilla, which enriches and purifies the blood. It is the best medicine for nervous PEOPLE.

LOST—on Friday evening 2nd inst. Ladies' hand-stitch between Steam Navigation Co. wharf and Prince St. Finder will be suitably rewarded by leaving at this office.

LOST—on Friday evening 2nd inst. Ladies' hand-stitch between Steam Navigation Co. wharf and Prince St. Finder will be suitably rewarded by leaving at this office.

SAD AND FATAL ACCIDENT.

We regret to learn that Mr. Thomas Scully, of Souris West, while crossing Fortune Bridge yesterday, fell over the back of his wagon, and was instantly killed by dislocation of the neck. Particulars of the sad event have not yet been received.

INQUEST AT ROCKY POINT.

An investigation into the death of Willie Burdette, aged 14 years, was today held before Dr. Conroy, coroner, at Rocky Point. The evidence showed that the lad was out driving on a milk wagon and was taken suddenly ill, falling back into the vehicle. He was seen by several persons before he fell, some of whom spoke to him. Nothing unusual was noticed about him. After he fell young Burdette became unconscious and was taken into a house near by. He remained unconscious until death, which occurred some twelve hours later. During this time the unfortunate lad had a great many convulsion seizures. The deceased was a delicate lad. In the opinion of the coroner death was caused by apoplexy induced by the heat of the day.

For China.

PARIS, July 12.—It is announced that President Loubet last evening signed a decree appointing General Voyren, who distinguished himself in the Madagascar campaign, commander of the expeditionary corps for China. He will be supported by General Bailloud, chief of the president's military household, and General Frey. Vice-Admiral Pottier is appointed to command the naval force.

Pretty

Rings.

We have provided for the demands of fashion and display as fine an assortment of rings as was ever shown in the city. Every dainty setting and combination is to be found in our collection—and that means no end of style to pick from. As to price, it is simply a question of what you wish to pay, for we have rings from \$1.00 to \$50.00.
