LADIES, ATTENTION!
JUST Read This, and be convinced of the
excellence of the Model Washer and
Bleacher. It makes the washing light and
easy, gives the clothes that pure whiteness
that no other mode of washing can produce.
No rubbing required, no friction to injure the
fabric. It is a Scientific and Successful Ma-
chine, which does its work superior to any
other Washer that ever have been in use.
You can do a heavy wash in a quarter of the
time, without any labour at all. They are
a durable, time and money saving machine,
and sold cheap. Price, \$3.00; when sent to
the country, \$3.25.

ROOMS, 47, Water and Great George Street

LETTERS TO THE EDITOR.
Frauds.

Sir,—Although we differ a shade in poli-
tics, the editorials in the columns of your
valuable journal are sound facts.
I have observed a communication in the
columns of the *Advertiser* of 7th August
last, signed "Cardiganian," which should
be signed throughout the length and
breadth of our small Island, as our farmers
and their noble ladies are very often
gulled by such parties; and you often
warned the people against such characters.
"Cardiganian" has charged them with gull-
ing the public, by selling inferior trash of
sewing machines. Their circular in public
print, states that the Wanzer sewing
machines are in use in 10,000 national
schools of Ireland. This in itself carries
with it a false misrepresentation. I have
not any interest in this matter, only that I
would like to see our farmers better pro-
tected, and I am aware that not one-third
of the above mentioned machines are in
use in the national schools of Ireland, as
they prefer the Raymond for their cheap-
ness and durability. I think the people of
this country have been imposed upon too
long by such impostors, as the sellers of
this Wanzer machine and organs. "Cardi-
gianian" gave them a hard rap on the
knuckles, which, I think, they should not
endure if they were not guilty of such sales
and imposition.
Yours, etc.,
OBSERVER.
King's County, Sept. 11, 1884.

Live Stock and Meat Exports.
(Moncton Times.)
Canada's export trade in animals and
their produce has been developed to a re-
markable extent in recent years. Seven or
eight years ago agricultural products and
the products of the forest were by far the
most important branches of our export
trade, but during the past two years these
exports have been only slightly in excess
of that of animals and their produce. The
indications are that this latter export will
continue to increase in importance, and in
time become larger than any other.

One of the largest items in the exports of
animals and their produce is that of cattle
and sheep sent to the English market.
Although prices have been unfavorable of
late to shippers, who have in some in-
stances at least carried on their operations
at small profit or actual loss, the extent of
the business is well maintained. During
the week ended 29th August the arrivals of
live stock and fresh meat at Liverpool were
as follows:

	Week ending Aug 29, 1884.	Cor. week 1883.	Cor. week 1882.	Cor. week 1881.
Cattle	1547	1509	771	1471
Sheep	2149	2515	1197	3353
Qrs Beef	2912	3868	1080	3353

It is gratifying to note that Canada is
now getting the lion's share of this trade.
In the week of this year under review, of
the 1547 head of cattle shipped, only 521
were from American ports, Canada sending
900, the balance, a little over 100 head,
being from an European port. Canada
sent all the sheep shipped in the week this
year (2149 head), but Boston and New
York are credited with three-fourths of the
2914 quarters of beef. The Maritime
Provinces do not take a very extensive part
in the shipments of live stock to Great
Britain, though a considerable number of
horned cattle have been shipped from
Westmorland and Cumberland.—It is note-
worthy, however, that New Brunswick ex-
ports more mutton and Prince Edward
Island more pork than any of the other
Provinces. The principal market for
Maritime mutton is in the United States,
and it is gratifying to find that that market
is extending.

Canadian Boatmen on the Nile.
A. W. Staveley Hill, the member of
Parliament who recently made a spirited
protest against the sending of Canadian
boatmen with Lord Wolseley's expedition
to relieve General Gordon, arrived in New
York from Liverpool on Sunday. Mr. Hill is
a tall, broad-shouldered gentleman, with dark
hair and whiskers. He is on his way to his
stock ranch in the Northwest. Mr. Hill
said to a *Times* reporter that in his opinion
it would be an outrage to take Canadian
boatmen and Indians on the Gordon relief
expedition. The men were hardly enough,
but they were accustomed to an entirely
different class of hardships from those they
would meet on the Nile. They were used to
vigorous action and a diet consisting very
largely of meat. They could stand cold
and exposure, but when they came to face
the deadly climate of the Nile they would
find themselves unable to stand it. Lord
Wolseley had painted boating on the Nile
in rose-colored tints, but the eyes of the
Canadians were being opened, and they
were beginning to understand what they
would have to put up with if they ventured
on the Gordon relief expedition.

Horsford's Acid Phosphate
A VALUABLE REMEDY FOR GRAVEL.
Dr. T. H. Newland, jr., St. Louis, Mo.,
says: "I have used it in diseases of the uri-
nary organs, such as gravel, and particularly
spermatorrhoea, with very good results, and
think it is a very valuable remedy in those
diseases."

CHEAPEST YET.—For two weeks we will
sell Misses' Oil Goat Button Boots for \$1.65
per pair (with \$2.25), sizes 11, 12, 13, 1, 2—
DORRY, GUY & Co. [jy28

CURRENT NOTES.

France has abandoned Formosa.
The Bank of Fort Edward, N. Y., has
suspended.
The French say they will hang as pirates
all captured privateers.
Mr. Gladstone is considering a redistri-
bution of seats scheme.
United States fire engineers are holding
a Conference at Chicago.
France is said to have 50,000 men ready
for despatch to the East.
London, it is reported, was never in a
cleaner condition than at present.
England will probably annex the delta of
the river Niger on the West African coast.
Flies are thought at Naples to have a
good deal to do with the spread of the
cholera.
The Moncton Cotton Factory is closed
down for a few days for want of the raw
material.
The Czar drove out unattended at War-
saw last week, and was well received by the
populace.
The Royal Military College, Kingston,
has a full complement of cadets this year,
sixty-four.
The Pope has prepared an encyclical
letter upon doubtful or dangerous political
tendencies.
If China issues letters of marque to pri-
vateers, it is reported that the French will
hang all captured as pirates.

Reports from Monrovia state that yellow
fever and small-pox have broken out in the
English colony at Sierra Leone.
The Glasgow iron masters threaten to
close a portion of their furnaces unless the
landlords and railways reduce charges.
The London Standard says there is no
doubt that Russia will supersede America
as a source of petroleum supply for Euro-
pean markets.

The *St. James' Gazette* wants to know if
Britannia rules the wave, because a Yankee
boat entered a Portsmouth regatta the
other day and came out the victor.
The petroleum fields of Russia are being
developed on an extensive scale and the
London Standard says there is no doubt
that Russia will supersede America as the
source of the petroleum supply for Europe.
The Viceroy of India receives a salary of
\$125,000 a year, exclusive of allowances
estimated at \$60,000 a year. This is \$5,000
a year better, in the aggregate, than the
salary and allowances of the President of
France.

The wealthiest man in the world is the
Chinese banker, Han-Qui, of Canton. He
pays taxes upon an estate of \$450,000,000,
and is estimated to be worth a billion taels,
which, in our money, would be about
fourteen hundred million dollars.
The Pope has written a letter to the
Archbishop of Florence regarding a recon-
ciliation of the Italian government with
the Vatican. The Pope maintains that the
only basis of reconciliation will be the re-
cognition of the rights of the church.

Immigration returns for August show the
total number of arrivals as 14,836, and for
the eight months since 1st January, 112-
512. The number of settlers in Canada
during the month was 8,941, and since 1st
January, 112,512. The number of settlers
in Canada during the month was 8,941,
and since 1st January 64,235.
James Gordon Bennett has a greater
number of houses awaiting his occupation than
any other American. He has one in
Fifth Avenue, and another at Fort Wash-
ington, and then his rooms in the *Herald*
establishment are a snug place for a bache-
lor. His Newport villa is always in readi-
ness, and he has also a fine establishment in
Paris.
The Czar has condemned to perpetual
exile in Siberia, Baron Renne, Colonel of
the 19th Regiment of Dragoons, Colonel
Somarschi, and Colonel Sanatow, of the in-
fantry, for being members of a secret
society. Numerous sub-officers and privates
in Col. Renne's and Sanatow's regiments
have also been sentenced.

The recent school census of Chicago
upsets the Grit pretension that 25,000
Canadians are residents of that city. Out
of a total population of 610,233 souls, Cana-
dians number only 3,466. A local census
of this character is much more reliable
than the general census, and its showing is
supported by common sense and Canadian
statistics.
The Canadian Pacific Railway system
embraces 3,926 miles of road, of which
2,892 miles consists of main line, and
1,064 miles of branch and leased lines.
Of the main line, extending from Montreal
to Port Moody, only about six hundred
miles remain to be completed, and upon
these to work of construction is rapidly
proceeding.
Lord Northbrook had an audience with
the Khedive on the 10th instant, and pre-
sented a letter from Earl Granville re-
questing the assistance of the Egyptian
Government in solving the important ques-
tions, chiefly of a financial character, which
England is now considering. The Khedive
expressed himself highly satisfied with Lord
Northbrook's declaration.
According to the *Winnipeg Sun*, the
broken weather is causing much anxiety
throughout the province, though as yet no
material damage has been done. In Min-
nesota and Dakota, where hail accompanied
the rain, thousands of acres of uncut and
shocked wheat have suffered. The Grand
Forks, Dak., *Herald*, says 15,000 acres have
been destroyed just across the river from
there, while thousands more have been
seriously injured.
